MANSON SPEAKS ON B.C. PROBLEMS

PLAN ENLARGEMENT OF LOCAL EXPERIMENTAL STATION

Hon. A. M. Manson Deals With Many Problems in the Debate on the Address

Export Liquor Houses Will be put out of Business; Lash for Drug Peddlers; Registration as Canadians and P.G.E. Discussed

VICTORIA, February 2.—That Premier MacLean is doing everything a man could do to solve the P.G.E. Railway problem and that a solution will probably be found that will be satisfactory to everyone was the statement made in the Legislature yesterday by Hon. A. M. Manson, attorney general, in a speech on the address.

Mr. Manson dealt with a number of subjects including an appeal to the Legislature to work out a solution of the Oriental problem.

Turning to liquor legislation, the Attorney General said it seemed that a fight begun in 1922 has now borne fruit and the export liquor houses will be put out of business. In view of the unanimity in this respect among the provinces, he did not think the Senate would venture to reject the legislation as had been done twice before, when it passed the House of Commons.

Mr. Manson said he was hopeful that the Federal House would this year adopt the British Columbia suggestion that the lash be added to the penalties for drug peddling.

As a result of the conference of Premiers at Ottawa it was hoped, the Attorney General said, that at the present session the Dominion House would take steps to provide for the registration of a Canadian nationality.

MARCIL QUITS GRIT CAUCUS

Does Not Wish His Stand on Mexican Situation to be Misunderstood—Was Not Responsible

OTTAWA, Feb. 2.—Hon. Charles Marcil has tendered to Premier King his resignation as chairman of the government caucus for the present session of parliament. In a statement he said that he had received numerous requests for an explanation of his presidency of the Liberal caucus at which the motion on the Mexican situation had been considered. He explained that the chairman of a caucus was not responsible for what might be said in that caucus. However, he wanted the people to know that "I am a free lance on Mexican persecutions and I have sent my resignation as chairman of the caucus to the Premier in order to remove all misconceptions."

OFFICERS DUE BACK TONIGHT

Henry Smith, Alleged Patricide, Understood to be on way to City Under Police Escort

Supposedly bringing with them the prisoner, Henry Smith, whose reported killing of his father took Inspector Spiller and Sergeant Alex McNeill, provincial police, in haste to Massett on Monday night, the officers are expected to return to the city tonight from the Queen Charlotte Islands aboard the powerboat Salvage Princess which left yesterday afternoon to get them.

Police headquarters here are evidently still without details as to the affair and efforts to obtain particulars from the Queen Charlotte Islands had proved vain up to noon today.

TOMMY CHURCH IS BUSY AGAIN

Actions of Sir Henry Thornton Again Arouse His Curiosity—Must Know all About Mexico Trip

OTTAWA, Feb. 2.—Thomas L. Church, Conservative member for Toronto Northwest, proposes to move in the House of Commons for the production by the government of all papers regarding the visit of Sir Henry Thornton, president of the Canadian National Railways, to Mexico, also all correspondence between the governments and any person's objections to utterances of the Mexican consul in Toronto.

MOTHERWELL DOES NOT UNDERSTAND REPORT

VANCOUVER, Feb. 2.—Major Motherwell, in an interview here yesterday, said he was unable to account for the suggestion emanating from Ottawa that trollers on this coast would be confined to one line to the boat.

HEADS LIST FOR CENOTAPH

Canadian Legion Gives $500 Toward Fund Which is to be Established

At a meeting of the local branch of the Canadian Legion, British Empire Service League, last night called especially for the purpose of considering the establishment in Prince Rupert of a cenotaph to commemorate the glorious dead of the Great War unanimous decision was made to head the list of subscriptions for the purpose with a grant of $500. Thus a fitting start is given a movement which has been long delayed here but which bids well to be soon accomplished. The meeting of the Legion was presided over by the president, Sidney A. Bird, and there was a good-sized attendance of members.

The special cenotaph committee will soon meet to open subscription lists and inaugurate a drive for funds. Details of the cenotaph, which will be of an ambitious nature, will be later arranged.

KILLED MAN WITH FISTS CUT UP BODY

Former Policeman Confesses to Dismembering Arthur Richard at Montreal

MONTREAL, Feb. 2.—Jules Coulome, former Montreal and Verdun policeman, confessed that he dismembered the dead body of Arthur Richard, 45 years of age of age, of Quebec, after killing him with his bare fists on January 4, according to a statement made by the police.

Coulome is at present serving a sentence in the jail at Bourdeau

According to the police the trunk of the victim was discovered on the roof of a shed at the rear of the two-storey house in the district where the self-confessed killer lived.

Police are searching for a woman who is thought to have been the cause of the brawl between the two men which led to murder.

WOODWARDS AND PRINCE RUPERT

Reports of Big Vancouver Business Concern Establishing Here Believed to be Premature

While it is possibly quite true that Woodwards Ltd. of Vancouver have been actively interesting themselves in the business possibilities at Prince Rupert, it is reported on the best of authority that the concern has no immediate intention of establishing, as has been reported, a large departmental store here. Rumors of such intentions on their part are believed to be premature to say the least.

Even should Woodwards buy property here, and it is learned that no direct negotiations have yet been opened for the reported purchase by them of the corner at the northeast of Fifth Street and Third Avenue, it is suggested that this even might not mean their immediate establishment in business here. It is reported that Woodwards, who are now established in business at Edmonton, purchased their store property there several years before they actually set up.

SEEK MURDERER OF ALBERTA FARMER

EDMONTON, Feb. 2.—A province-wide search is under way for Alexander Tkacza, a Russian Pole, wanted for the murder of Prokop Pleska, a farmer in the Greville district, whose frozen body was discovered Sunday in a swamp.

ENGLISH CUP REPLAY

LONDON, Feb. 2.—Blackburn Rovers beat Exeter City 3 to 1 in a fourth round British football cup replay.

WIRELESS STATION SPEAKS MOTORSHIP CLOSE TO SYDNEY

Further breaking its previously established record for long distance communication of commercial radio stations on the Pacific Coast, the Digby Island wireless station at 7:30 this morning was again in communication with the big motorship Aorangi which had passed Auckland and was 200 miles from Sydney, Australia. The Aorangi reported that she was due to arrive at Sydney tomorrow morning.

SPEECHES ARE LIMITED TO FORTY MINUTES NOW

OTTAWA, Feb. 2. — Under the new rule of forty minute speeches the House continued the debate on the address. It was a short session of less than three hours the speakers being Pouliot, Liberal, of Temiscouata; McGibbon, Conservative, of Muskoka; Evans, Progressive of Rosetown; and Church, Conservative of Toronto.

FELL ON TO SAW AND FATALLY INJURED

NEW WESTMINSTER, Feb. 2.—Frank Walsh, 28 years of age, was fatally injured yesterday at the plant of the Commercial Lumber Co. at Port Haney when he fell eight feet on to a circular saw while installing a sprinkler system at the plant

GRAZIA DELADDA, the Sardinian authoress, who was the only woman to be awarded a Nobel prize this year, being introduced to the distinguished gathering at Stockholm, Sweden which witnessed the presentation of the awards. The gathering was attended by many of the aristocracy of brains from all over the world

SURVEYOR TELLS OF TROPICAL REGION OF NORTHERN B.C. BUT SAYS HE CALLED IT SUMMERLAND

OTTAWA, February 2.—Speaking at the convention of Dominion and Surveyors here K. P. McCusker told of a recent survey he conducted in the northern stretches of British Columbia. He said the talk of a newly discovered tropical land which was said to be kept warm through the eruption of hot springs, was largely fiction. He said they found luxurious meadows and prairie land and large stretches of open country which he termed "Summerland." It could not be classed as tropical. The country abounded in game—goats, sheep, caribou and grizzly bears. Grass grew to such a height that it was clear no snow fell there during the winter.

Sale of Silverado to Premier Co. for Half Million Dollars and a Block of 450,000 Shares Approved

VICTORIA, February 2. — The sale of the Silverado Mine at Stewart to the Premier Gold Mining Co. as recommended by the directors of the Silverado, was ratified by the shareholders yesterday. They voted to wind up the present Silverado Mines Ltd., distribute the cash assets and give the shareholders 450,000 shares of stock in the new Silverado Consolidated Ltd., which is being organized to carry out the deal.

General Manager Dale Pitt of the Premier Company stated that his company will give formal approval to the transaction at its meeting at Vancouver on February 13.

Under the agreement, the Premier secured the option of purchase of 550,000 shares in Silverado Consolidated, out of the million authorized, for which it pays half a million dollars.

NED BYRNE READY TO TAKE 'EM ON

Fresh from a three months course of training in boxing at Vancouver, Ned Byrne, local "comer," returned to the city yesterday and it is announced by Charlie Brown today that he had the lad signed up for three matches with any 150-pounder who cars to offer his services. Brown further announces that he has practically completed arrangements to bring Younf Ketchell of Bellingham here for a match to start Byrne on his pugilistic career. A week ago, Bryne and Ketchell mixed it up a bit at Bellingham and, after both had klssed the carpet on various occasions during four rounds, it was called a draw.

Byrne is reported to be in good condition, showing a great improvement in style since going to "school."

GASOLINE TAX TO BE MADE TO CONFORM

VICTORIA, Feb. 2.—Under legislation to be introduced by the government shortly the gasoline tax will be changed in order to make it conform to the recent decisions of the Privy Council in rejecting the fuel oil tax. The present tax rate will not be altered in any way.

CASGRAIN IS WHIP

OTTAWA, Feb. 2.—Pierre Casgrain was again elected chief whip of the Liberal party at a meeting of government supporters held yesterday.

DIPLOMATS ARE OUT OF DATE

That is Opinion of Sir George E. Foster Expressed in the Senate

OTTAWA, Feb. 2.—Disapproving the expansion of Canada's diplomatic relations with foreign countries on the score that a diplomat was now out of date and that when any serious question arose the ambassador was set aside and the matter settled in conversations between the heads of governments, Right Hon. Sir George Foster, continued the debate on the address in the Senate.

TAKEN OPTION HOCKEY TEAM

Sum of $150,000 to be Paid for Pittsburg if Deal is Sanctioned

MONTREAL, Feb. 2.—Charles Weiner of the Philadelphia Arrows in the Canadian-American Hockey League, has taken an option on the purchase of Pittsburg national hockey team for $150,000.

President Calder of the league said no sale would be completed until the directors of the league sanction the transfer.

BISHOP OF RIMOUSKI

ROME, Feb. 2.—Rev. George Courschesne has been appointed Bishop of Rimouski, Quebec, by Pope Pius.

Enlargement of Experimental Station Here is Planned by Biological Board of Canada

New Member of Board Recently Appointed and Another Scientist to Conduct Studies Here

The necessity of extensions being made to the Prince Rupert Fisheries Experimental Station to accommodate the growing volume of research work which is already crowding the present quarters was discussed at a meeting of the Pacific coast sub-committee of the Biological Board of Canada which was held in Vancouver on January 27 reports John Dybhavn, local director of the board, who has returned to Prince Rupert after attending the meeting. The matter of obtaining a supplementary building is now being looked into.

Mr. Dybhavn also announces, as a result of the meeting, the appointment to the staff of the Prince Rupert station of Dr. Ingvaldsen, formerly of the faculty of the University of Manitoba, who will arrive in Prince Rupert about March 1. Dr. Ingvaldsen, who is a prominent chemist, will devote his time to the study of the chemical problems of fish oil and fish meal.

The meeting decided to arrange during the month of February a course of educational classes for hatchery officers at the Univversity of British Columbia in Vancouver. If this course proves successful it is planned to hold in the future similar courses for fishery overseers, cannerymen, fishermen, oil and meal producers, etc. Already such courses are being held on the Atlantic Coast and they have proven successful and popular. The purpose is to impart instruction in the fundamental principles involved in the various branches of the fishing industry.

PINKS AND CHUMS

In the field of investigations now being carried out on the Pacific Coast by the Biological Board it was decided to add one more branch by the engaging of a competent man to go into the matter of pink and chum salmon, studying the peculiarities of the runs, life habits, etc. upon which to date little information has been obtained.

At the request of the Biological Board, the committee decided to carry out a survey of all canneries in this district such as the size of the plants, general conditions, etc. The purpose of the work, which will be carried out through the Prince Rupert station, will be to suggest improvements in methods, etc.

Meeting a request for assistance from the Pan-Pacific Conference, the committee decided to carry on certain oceanographic work in the way of studying water temperatures, tidal currents, etc. The problem will be taken up by the biological stations at Departure Bay and Prince Rupert. The chief difficulty to hamper the carrying on of this work will be the lack of suitable boats.

The committee was advised of the appointment as a member of the Biological Board of Canada of Prof. Cameron of the University of Manitoba who will succeed Dr. O'Donnell, formerly of the niversity of Manitoba, who has accepted a position in the University of Edinburgh, Scotland.

SPRINGS AND COHOES

It was reported to the committee that Dr. Williamson is still carrying on his investigations of spring salmon and cohoes and other varieties as to their movements, etc. Dr. Williamson is also working on herring and pilchard problems on the west coast of Vancouver Island.

The committee meeting at Vancouver was attended by J. J. Cowie of Ottawa, secretary of the Biological Board of Canada. D. B. Finn, director of the Prince Rupert Fisheries Experimental Station, was also present.

SALT CHUCK MINE SOLD FOR $15,000

Word has been received here that the Palladium mine at Salt Chuck, the concentrates from which had been shipped over the Canadian National Railway from here, has been sold to John Koel for $15,000. This was the highest bid for the property.

The operating company had placed its affairs in the hands of a receiver previous to the sale.

B. E. STEEL HEAD

MONTREAL, Feb. 2.—Roy Wolvin has resigned from the presidency of the British Empire Steel Corporation. C. B. McNaught has been elected to succeed him.

STEWART MINES TO REORGANIZE

Rufus and Argenta Will be Taken Over by Big Operating Company in Spring

VICTORIA, Feb. 2.—At a joint meeting of the boards of directors of the Rufus and Argenta mines in the Bear River section of the Stewart district here yesterday, the directors present from Vancouver, Seattle, Stewart and Victoria decided to complete at once the reincorporation of the two companies into one to be known as "Rufus and Argenta Mines."

The step, it was stated, was necessary when it was decided to accept the terms and close the deal with a large operation company which is to take over and operate the mines in the spring.

ASKING STRIP ALASKA LAND

Vancouver Board of Trade Would Have Canada Secure Narrow Ribbon at Skagway

VANCOUVER, Feb. 2. — Purchase or lease by Canada from the United States of a narrow strip of land extending from tidewater at the head of Lynn Canal to the summit of White Pass, a distance of approximately 20 miles is recommended by the transportation bureau of the Vancouver Board of Trade. The resolution urges Ottawa to take action looking to the acquisition of the ribbon of land.

C.P.R. BUYS ALBERTA LINE

Pays Million Dollars and Takes Over Bonded Debt on Lacombe and Northwestern

EDMONTON, Feb. 2.—The sale of the Lacombe and Northwestern Railway to the Canadian Pacific was announced today by Premier Brownlee.

The railway has promised to idemnify the province against future liabilities on the outstanding five per cent bonds for $273,000 and pay a million dollars in cash and construct a twenty mile extension to a point at or near Telfordville.

BOND HOLDER DISQUALIFIED

Alderman Must Not Hold Bonds or Debentures Issued by the City

VICTORIA, Feb. 2.—Robert Baird, inspector of municipalities, told the municipal committee of the Legislature yesterday that where members of a city or municipal council invest in bonds or debentures of the municipality, they are technically disqualified from holding office.

The committee instructed Mr. Baird to prepare an amendment to cover the point.

FOREIGN RELATIONS

Some few people seem to be criticizing the Mackenzie King government for opening legations in foreign countries just like a full-fledged nation would do without having the diplomatic correspondence trickle through the office of the secretary for the Dominions. They can go on criticizing the government if they want to but we should like to just point out that it was the Borden government that made the first arrangements for the American legation, although it was only recently that the first appointment to the office was made.

POSITION OF P.G.E.

It must be terrible to be a "not wanted" child like the P.G.E. The poor creature has no mother or father, is disowned by everybody, has no visible means of subsistence and everyone is wishing it would commit suicide. Possibly it may grow up to be great and useful and even spectacular but the chances are against it.

FISHERIES REGULATIONS

The Dominion fisheries department is doubtless in a difficult position. The fishermen and canners cannot agree as to what they want, but the salmon must be protected. First an order goes out to cut off the licenses of all those who are not full fledged citizens, regardless. Protests at once reach the department and they change the order in accordance with the wishes of the protestants. Then it is understood that one line trolling is to be the rule, but the department through its officials in the south denies this when protests have begun to arrive. Possibly pretty soon order may develop from the present chaos. At any rate it is to be hoped that nothing will be done to injure the industry either by decimating the fish or by putting the fishermen out of business or working a hardship on them.

WHAT IT MEANS TO B.C.

Yesterday an enlightening article was published in this paper telling of the benefits that would accrue to the province through the Dominion recognizing the claim of the province of British Columbia to the railway lands and the Peace River Block. So far these lands have not been turned over but the promise is made that legislation will be introduced into parliament providing that this be done.

The lands and forests and mines should be worth a great deal to the province. Not only is there the present income derived from those lands but there is a prospective extension as the development of the country takes place. When the Peace River belt is surveyed doubtless is will be found to be even more valuable than is at present suggested. At any rate it is a good thing to have this question settled and the lands managed from the province instead of from Ottawa.

EQUALITY, CO-OPERATION AND RESPONSIBILITY

Premier Mackenzie King says that the desire of the government in regard to Imperial relations shall be "equality, co-operation and responsibility." That seems to be a pretty good motto and would be just as good if it had been uttered by Mr. Bennett. In fact it is the motto of both sides speaking for all of Canada. We want equality with all other parts of the Empire, we want to work with them and expect them to work with us. The last mentioned work is the hardest to live up to. We must realize our own responsibility to the Empire and do our part as a member equal with all the others. We must be ready to defend ourselves and help defend them just as we expect them to defend themselves and help defend us. They cannot do that without ships and neither can we. They must have airplanes and aviators and so must we. The time has not yet arrived when we may look very confidently for world peace. A good police force, at any rate, is necessary and this police force must be equipped. Canada must do her share in this matter if she is to properly realize her responsibility as an equal factor in the British Empire.

CANADA QUITE BACKWARD IN TOWN PLANNING

Report to Surveyors' Convention Says Municipal Heads Were Inclined to Scoff at Movement

VANCOUVER A SHINING LIGHT

Much is Being Done in Pacific Coast City, and Whole Dominion is Urged to Take Hold of the Idea

OTTAWA, Feb. 2. —(By Canadian Press).—"There is really a remarkable awakening to the significance and value of town-planning throughout Canada, even though the movement is not yet commensurate in its scope with that of other countries," said Carl Engler, D.L.S., in concluding the report of the Town Planning Committee presented at the annual convention of Dominion Land Surveyors which opened here yesterday.

No sensible man, said Mr. Engler, is now asking whether town planning is a fad. The movement has justified itself in all directions and is accepted throughout the world, as is shown by the fact that each year representatives from about 40 nations are gathering in international town and regional planning conferences. It seems to have passed the experimental stage and to have become an established and expanding practice in all civilized countries.

WORK IN BRITAIN

The report of the committee draws attention particularly to the present status of town planning in Great Britain and the United States. It is surely significant, it is stated, that a leading country like Great Britain has come to regard town planning as a health measure comparable to universal sanitation, and has established obligatory town planning on all towns of 20,000 population and over and has now nearly 600 towns under planning law, with 52 regional plans in course of development, comprising vast aggregations of cities, towns and rural areas, and that the United States has also about the same number of towns under planning law, with about 20 regional plans in preparation.

While Canada is indeed making some progress it is significant of our backwardness on this side of the line, said Mr. Engler, that the Niagara Frontier Regional Planning project, now comprising about 65 municipalities on the American side of the river, had its origin in the suggestions of Canadian planners. The Americans caught on to the idea and established an organization to realize it. In Canada, he said, it was scoffed at by municipal authorities as both visionary and impossible.

PROGRESS IN STATES

The amazing progress of town planning in the United States is attributed to a central or federal government town planning agency which assists the movement in every possible way, especially by the periodical issue of zoning primers, model enabling acts and other literature. Canada also established a central educational agency in the federal town-planning office established in 1915 with a town-planning adviser and staff, including two engineers and two architects. It has not functioned in vain, states the report, but with the disruption of the Commission of Conservation to which it was attached, its staff was largely disbanded and its activities severely limited.

The most striking evidence of results in Canada of educational effort is the fact that all the provinces, with the exception of Quebec (which province however, is understood to be shaping a provincial act), have passed Town Planning Acts. Some of these have been entirely fruitless due to indisposition on the part of the provincial governments to appoint technical and educational staffs to make the acts effective and intelligible to the municipalities concerned.

VANCOUVER QUOTED

Vancouver was referred to as the shining light among Canadian municipalities in regard to town planning. A great regional plan for Greater Vancouver is in progress—an interim zoning bylaw has been passed and this will soon be superseded by a comprehensive bylaw. A major street report has been prepared and presented to the city council, also a preliminary report on railway transportation and harbor development. Point Grey and all the municipalities around Vancouver are engaged in town planning. In Victoria a zoning bylaw is ready for final passage by city council. The planning of the University Endowment Lands at Vancouver is referred to as a magnificent project resulting in the growing up of a university city on the headland of Point Grey planned in every detail on modern town planning lines. Vancouver is making full use of the authority conferred by the British Columbia Town Planning Act passed in 1925. That city, said Mr. Engler, is being entered in a thousand town-planning documents all over the world as the most progressive city in Canada.

PRAIRIE TOWNS

Reviewing progress in other parts of Canada the committee report stated that interest is reviving in Calgary, where a city plan was prepared in 1914 but was considered too elaborate to follow; Edmonton is forming town-planning committees and the Premier of Alberta has declared his intention of promoting town-planning; Regina has passed a town-planning bylaw; Saskatoon has appointed a Town Planning Commission; the province of Saskatchewan has a town-planning director who is guiding the destinies of new towns and during the past year has examined no less than 18 proposed new townsites; Winnipeg is bracing itself for action and a local branch of the Town Planning Institute is being formed.

In Eastern Canada, Kitchener passed a zoning bylaw some years ago and recently London has taken similar action. The City Improvement League of Montreal has toiled for many years to promote a comprehensive plan and it is now proposed to raise $30,000,000 on a town-planning debenture. Quebec is committed to the appointment of a town-planning commission.

In Ottawa, the report points out, there is now a Federal District Commission whose plans may develop into a regional plan for the whole district and in this respect may compare with many other capitals of the world, including London and Washington, which are engaged in such regional projects. Australia on the other hand, has planned its new capital from the beginning, Canberra being built on garden city lines from virgin territory.

OXO LIMITED, 356 St. Antoine St. Montreal

THE GOVERNMENT MAKES DOLLAR BILLS

SO DO COUNTERFEITERS

You take a genuine bill and a counterfeit in your hands—they look alike—but what a difference. It's the same way with the ingredients that make up a prescription. To the untrained eye two powders look alike and yet.....one is pure, full strength, fresh—able to do the task your doctor intended of it while the other is weak, impure and stale—useless in a prescription. The world knows no better ingredients than those used in our Prescriptions—we believe that only the best is good enough when anyone is sick.

This afternoon's train from the East, due at 3:30, was reported at noon to be on time.

Don't forget the Girls' Drill Team Dance in the Moose Hall tomorrow night. Dancing at 9 p.m. sharp. Refreshments and good music.

A meeting of the Canadian Halibut Fishing Vessel Owners' Association will be held in the City Hall, Thursday, at 8 p.m. to deal with agreement with Union. 27

During the past 24 hours, fifty carloads of grain have arrived from the prairies for the Alberta Wheat Pool's Prince Rupert elevator. Railway offices this morning reported 250 cars on the division west of Jasper Park bound here.

For operating a motorvehicle as a chaffeur with no badge in contravention of the Motorvehicle Act, Harold Jefferson was fined $5, with the option of seven days' imprisonment, by Magistrate McClymont in city police court this morning.

Some half a dozen appeals of a minor nature on land in various parts of the district were dealt with at the provincial court of revision in the Court House yesterday afternoon. Following the making of adjustments by the judge, John Dybhavn, the roll was adopted as presented.

In The Letter Box

THE NEW PROVINCE.

Editor, Daily News.

I do not know who your "Man in the Moon" is, nor whether he wishes or expects an answer to his query as to "whether it was parental neglect or child murder that caused the death of the new Province scheme.' If he does, I should be glad to give him my opinion for what it is worth.

In the first place I do not agree with his conclusion. The scheme is not dead, but sleepeth. One of the chief reasons why it sleeps is because the leading newspaper of the North, which we naturally expect to assume the lead in such matters, has taken no decided stand one way or the other, but treats the issue in a highly supercilious manner.

Why your publication takes the attitude that it does on this question is of course known better to yourself. I notice that in the same issue of your paper as contained the Man in the Moon squib, there was also an intimation that one of the Provincial Government Ministers had warned a certain section of this district to go slow on the new province question.

If the scheme is, as your Man in the Moon says, dead, it has most assuredly been killed by neglect, parental or otherwise, and has not been murdered by any argument that has been advanced against it.

Thanking you for your valuable space, I am,

W. O. FULTON.

TROLLER POLARIS LIBELLED KETCHIKAN

KETCHIKAN, Feb. 2.—By order of the United States district attorney the trolling boat Polaris, William McHale owner, was libelled by the government as growing out of a charge of violating the liquor laws.

Last week the owner was before Judge J. W. Kehoe in the United States commissioner's court and was sentenced to serve five days in jail for "possession of liquor."

Officers claim that a still and 15 quarts of moonshine was found on the boat. They assert that the whole arrangement was exceptionally sanitary with "clear liquor."

PERCY TINKER MAKES SPECTACULAR FINISH IN BILLIARD MATCH

Staging a spectacular finish in which he came up from behind with successive breaks of 47 and 25 which overcame a lead of thirty points which had been against him, Percy Tinker last evening won the postponed game of the Gyro Club vs. Maple Leafs billiard fixture from Marcus Andrews by a score of 200 to 157, thus giving the Gyros victory by an aggregate score of 938 to 873. The Gyro Club has almost emerged from the cellar and the hold of the Maple Leafs on second place is correspondingly reduced.

Billiard league standings to date are as follows:

	Played	Total	Aver.
Cold Storage	6	5526	921
Maple Leafs	7	6295	899
Grotto	6	5307	885
Grand Terminals	6	5267	878
Gyro Club	7	6129	876

Individual averages to date in the Billiard League follow:

	Played	Total	Av.

TELLS ABOUT ANYOX LEAGUE

Organization in That Town Provides for all Sorts of Activities

The Anyox Community League is an interesting organization and the Granby News in its current issue tells about what it is doing and has done. It says:

Before another month has passed, the present Council of the Community League will have completed its year of service on behalf of the town folk of Anyox. Elected by the people of the camp who are supporters of the organization, the members of the Council during 1927 worked in the best interests of everybody, endeavoring at all times to make the town a more likeable place in which to live. If everybody has not been catered to as completely as they would wish, that is not altogether the fault of the councilmen. With the means at their disposal they have provided extended opportunities for the mental and physical betterment of all classes in the employ of the Granby Company, and taking advantage of the opportunities which the council has provided, many undoubtedly have been benefitted. All that could reasonably be done was done in the past year; if greater undertakings are to be considered for the coming term, a larger measure of support must be forthcoming. This does not necessarily mean an increase in membership fees for the carrying out of the ordinary activities; but their measure of usefulness could undoubtedly be widened considerably if every worker in the community gave the League unqualified support.

The service the League provides is entitled to a hundred per cent backing. It is behind any movement having the general welfare of the Camp uppermost. It carries on because enough interested members of the community are willing to sacrifice of their time for the interests of the general good. In the operation of its commercial activities everything is figured at the smallest possible profit consistent with efficient service, and whatever the resultant gain may be, it is devoted to the upkeep of reading rooms, gymnasiums, tennis courts, playgrounds, sport activities and library, to say nothing of other items too numerous to mention, all of which should be fully appreciated. People who are active in keeping this Community League functioning often comment on what the town might be without it. They cite the conditions when the picture shows, etc., were operated by outside individuals for private gain, and none of the advantages we now enjoy were in evidence before the League assumed control. There were no reading rooms, gymnasiums or libraries, and everyone more or less had to dig down then and rustle if enterlainment of any kind was desired. All these activities are now being supported, and while there are other things which might have been done, the League has nevertheless functioned to good advantage in many directions.

As a chain is only as strong as its weakest link, so is any organization only as virile as its membership registers. Among other things which we would like to see gone ahead with here is a swimming pool. Under existing conditions the League can not finance such an undertaking; but if every worker in the Camp belonged to the League and was willing to contribute one dollar a month in membership fees, a swimming pool would become a reality in a short time.

VANCOUVER RUMORS ABOUT THE NORTH

Stewart Paper Mentions Possible Removal of Queen Charlotte City Mill

Reports brought by recent arrivals from Vancouver are to the effect that a contract has been let there for the building of a new railway terminus reaching to deep water at Stewart which will employ over a hundred men, construction to begin as soon as the season opens says the Portland Canal News. The statement emanated from Captain John Irving, well known shipping pioneer and mining man.

Another report, not authenticated, is to the effect that a sawmill has been purchased at Queen Charlotte City by the Lewthwaite-Stevens interests and is to be set up at Bear river for cutting ties to be used in the construction of the new line. Weight is lent to this news by the fact that enquiries have been made as to the cost of shipping such an outfit to Stewart, according to a reliable source.

Piles
For Half a Century the Standard, Successful Treatment
Dr CHASE'S OINTMENT

STEWART

Thirteen hundred feet of development work was done last year in addition to taking out high grade ore for shipment according to the annual report of Clay Porter, managing director of the Porter-Idaho Mining Co., Ltd. During the year 125,374 tons of ore was shipped to Trail smelter averaging approximately .101 ounces of gold, 519 ounces of silver and 845 pounds of lead. The annual meeting of the company was held on Monday in Hyder.

J. J. Hepson left last week on a trip to Vancouver.

Cyril Jackson left last week for a visit in Victoria.

H. D. Rochfort is on another business trip to Vancouver and Seattle.

H. W. M. Rolston & Co. last week purchased Cyril Jackson's house and property for an outside client.

J. V. Clegg, superintendent of the Silver Tip Mining Co., has received a wire from A. T. Abbey, president of the company, announcing that the property has been financed for operations this year.

Harry Zeffertt has moved into his commodious new store building. On the second floor will be the living quarters of the local merchant.

Extensive development work will be carried out during the coming season on the old Bear River Mines which have been renamed the Atlas Gold Copper Co. announces E. E. Hall who is a visitor here.

DEPLORES STARTING OF HALIBUT SEASON

Member of San Juan Packing Company Thinks Season Should Have Been Delayed

KETCHIKAN, Feb. 2.—Lawrence Calvert, one of the sons of William Calvert Jr., head of the Juan Packing company with interests in Ketchikan and all along the Pacific coast, declared the fish business was at a somewhat low ebb. He said the failure of the buyers and members of the Vessels Owners' Association to agree on postponing the opening of the halibut season was regrettable and would have a most important bearing on opening prices.

He declared that there were large stocks of halibut on hand; that a considerable Japanese shipment had been made to New York City direct this winter, which was a contributing factor, and that the immense filleting operations of eastern plants also were no inconsiderable factor in governing prices.

Nevertheless, Mr. Calvert was of the opinion that the fishing industry on the Pacific coast was still in its infancy. He did not care to discuss possible readjustments to meet changed conditions, declaring that was something which would take care of itself.

THAT PANHANDLE IS GOING THE ROUNDS OF EASTERN PAPERS

The Panhandle purchase proposal is going the rounds of the papers east of here. One of them says:

The proposal to have Canada acquire the Alaska "panhandle," which has recently been revived, is never likely to come to anything. It has been met by one emanating from an Alaska congressional delegate that the United States should secure the whole of British Columbia. We might as well accept as a permanency the shutting off of so much of the Dominion from the sea by this strip of American coast, unreasonable and aggravating though it is. It is barely possible, however, that Skagway and its immediate vicinity may be transferred to Canada, as its residents have shown a desire to have this done and several leading newspapers across the border have urged the wisdom of the move.

WOULD CONTROL ENGLISH BOXING

LONDON, Feb. 1.—Calling attention to the fact that in Birmingham there is no such oversight and control at boxing displays as is exercised with respect to entertainments such as music, singing or dancing, the public entertainments committee of the city justices state that apart from very limited provisions as to buildings, the promoters of public boxing in Birmingham appear to have a free hand, however large the assemblies, or whatever the character of the proceedings. It is therefore recommended that the corporation be asked to include in their next parliamentary bill a clause providing for the control by justice of public boxing.

CHARLIE PADDOCK, SPRINTER, TRAINING FAIRBANKS' TRACK

The "Bounding Beauty," otherwise known as Charlie Paddock, will train for the coming Amsterdam Olympiad on a cinder path provided by Douglas Fairbanks.

Doug's interest in sports is traditional. For the last Olympiad, held at Paris, he provided training quarters at the United Artists studios for several athletes, from Southern California, among them Barnes, the boy wonder who won the pole vault.

The film star looks to see Paddock make a marvellous showing at the coming international meet. The famous sprinter is showing great form and may add to his many laurels. In 1919 Paddock startled the world by winning both sprint races at the Paris international meet. Since then he has competed in two Olympics, sprinted his way around the world with Loren Murchinson as a partner, won five national championships and broken thirty and forty world's printing records, including the standard mark of 9 3-5 secs. for 100 yards.

GUN MOUNTED ON U.S. CUTTER

KETCHIKAN, Feb. 2.—Equipped with a 30-calibre Lewis machine gun, in addition to its one-pounder, the United States Coast Guard Cutter Cygan, Captain Herman, can "stage a small war" of its own should conditions warrant.

The machine gun has been recently mounted. It will be fed with "tracer" ammunition by which the shots, day or night, can be traced.

Regular drills will be held for target practice and also with the use of small arms. At the present time it is necessary to borrow rifles from the radio station, but those on board the Cygan soon hope to have their own equipment in order to be ready for any emergency at a moment's notice.

Passengers going north on the Prince Rupert last night included D. Cavalier and Henry Ford, for Anyox, and L. Tarsia and J. Hartman for Stewart.

SPORT CHAT

Despite the fact that they were defeated by a two-to-one score in the opening game of the series on Tuesday night, the Kincolith basketball players showed good form in their match with the locals and tonight, in the second and final game, they are looked to give a real good account of themselves by making the Prince Rupert team extend itself. The visiting natives have also shown themselves to be a good bunch of sports and for that they are doubly welcome here. Had they not been willing to take a chance, they would not have been here either. It seems that the official letter from the secretary of the local Basketball Association advising them that their proposition for the series in the city had been accepted somehow went amiss but, through the medium of the Daily News, they gathered the information to this effect so, without further preliminaries, they set out for Prince Rupert and arrived here only after a rather arduous trip in the course of which their own gasboat broke down, making it necessary to charter another at Port Simpson to complete the trip and get here on the dick of time for the game. If the visitors did not do all their stuff in that opening game, they can be excused for a twenty-four hour trip on a gasboat replete with difficulties was never known to be conducive to the most successful of athletic endeavor. The Kincolith team is billed to play a series at Anyox toward the end of the month, taking its concert party along and giving an entertainment at the same time.

Chicago has cast its hat in the ring of bidders for next summer's heavyweight championship match through an invitation issued by the Illinois State Athletic Commission bearing the endorsement of Governor Small and the city officials of Chicago. The success of the Tunney-Dempsey match at Soldier Field last September, which set a record for attendance and gate receipts led the Boxing Commission promise "everything possible to help bring about successful promotion of another championship match for Chicago." The statement of Chairman Paul Prehn said the Commission would cooperate with any real promoter," suggesting that Tex Rickard is not in the picture this time. The heavyweight champion, Gene Tunney, promised Chicago officials on a visit just before Christmas that he would defend his title in Chicago this summer if terms were offered equal to other offers. Further negotiations were held in abeyance pending the action scheduled by February on the contract Tunney holds with Tex Rickard for a title match next summer.

"GOVERNMENT LIQUOR ACT"

NOTICE OF APPLICATION FOR BREWER'S LICENCE

NOTICE IS HEREBY GIVEN that on the 6th day of February next the undersigned intends to apply to the Liquor Control Board for a licence in respect to premises being part of the building known as "Commercial Hotel" situate at the corner of First Avenue and Eighth Street, City of Prince Rupert, in the Province of British Columbia, upon lands described as Lots Thirteen (13) and Fourteen (14), Block Nine (9), Section One (1), Map 923, Prince Rupert Land Registration District, in the Province aforesaid, for the sale of beer by the glass or by the open bottle for consumption on the premises.

DATED at Prince Rupert, B.C., this 7th day of January, A.D. 1928.

IDA S. MARR,
Applicant

99

NOTICE.

TAKE NOTICE that an application will be made to the Parliament of Canada at the next session thereof for an act.

1. For the incorporation of a company to be known as The Alberta, Peace River and Pacific Railway Company, or such other name as may be given, to construct and operate a railway as follows:—

(a) Commencing at a point at or near the City of Lethbridge; thence in a Westerly direction to a point at or near the Town of McLeod; thence Westerly and Northerly in a direction generally parallel to the Calgary and McLeod Branch of the Canadian Pacific Railway to a point at or near the City of Calgary; thence Northerly and West of the Calgary and Edmonton railway to a point at or near Lacombe; thence Northerly to a point at or near the City of Edmonton.

(b) From a point at or near the City of Edmonton by the most feasible route to and along the right bank of the Simonette River to a crossing of the Smoky River near its junction with the Wapiti River at or near Bezanson to the Town of Grande Prairie in the Province of Alberta; thence South Westerly through the Monkman Pass to a point at or near Aleza Lake on the Canadian National Railway to the Province of British Columbia.

(c) From a point at or near Grande Prairie in a North Westerly direction to a point at or near Pouce Coupe and from a point at or near Pouce Coupe in a North Westerly direction to a point at or near Hudson's Hope on the Peace River; thence in a general South Westerly and Westerly direction and North Westerly by the most feasible route through the Pine Pass to a point at or near the Town of Stewart in the Province of British Columbia at the head of Portland Canal.

(d) From a point at or near Hudson's Hope crossing Peace River in a general Easterly direction to a point at or near Whitelaw; thence in a Northerly direction to a point at or near Fort Vermilion and thence Northerly and Westerly to the right bank of the Hay River at or near its intersection with the Northern boundary of the Province of Alberta.

The said railways being declared to be for the general benefit of Canada.

2. To authorize the said Company to construct wharves, docks and hotels and to own and operate vessels and to collect charges on telegraph and telephone messages of the public, to file upon and acquire water power sites and to generate electric and other energy and to dispose of the surplus from, and collect charges therefor.

3. To authorize the said Company to issue securities in respect of the said line of railway to an amount not exceeding Forty Thousand ($40,000.00) Dollars per mile for the prairie sections, and not exceeding Sixty-five Thousand ($65,000.00) Dollars for the mountain section.

DATED at the City of Edmonton, in the Province of Alberta, this 4th day of January, A.D. 1928.

(Signed) J. STEWART CLARK.
On behalf of the Applicants.

WATER NOTICE

DIVERSION AND USE

TAKE NOTICE that Robert M. Currie, whose address is 1416—8th Ave. West, Vancouver, B.C., will apply for a licence to take and use 20,000 gallons per day of water out of small creek, unnamed, which flows southerly and drains into Huston Inlet, Q.C. Islands about 1,000 feet westerly from miners' cabins at head of Huston Inlet. The water will be diverted from the stream at a point about 200 feet from shore line, passing through twenty-four acres applied for under lease, and will be used for industrial purposes upon the land described as applied for to lease at head of Huston Inlet, Moresby Island.

This notice was posted on the ground on the 1st day of December, 1927. A copy of this notice and an application pursuant thereto and to the "Water Act," 1914," will be filed in the office of the Water Recorder at Prince Rupert, B.C. Objections to the application may be filed with the said Water Recorder or with the Comptroller of Water Rights, Parliament Buildings, Victoria, B.C., within thirty days after the first appearance of this notice in a local newspaper. The date of the first publication is December 22, 1927.

ROBERT M. CURRIE,
Applicant.

NOTICE.

Re-Certificate of Title No. 2594 I to Lots five (5) and six (6), Block nineteen (19), Section six (6).

Re-Certificate of Title No. 2901 I to Lots seventeen (17) and eighteen (18), Block twenty-six (26), Section six (6).

Re-Certificate of Title No. 8902 I to Lot nineteen (19), Block ten (10), Section seven (7).

Re-Certificate of Title No. 2447 I to Lots forty-three (43) forty-four (44) and forty-five (45), Block twenty-seven (27), Section eight (8), City of Prince Rupert, Map 923.

Whereas proof of loss of the above Certificates of Title issued in the name of Ira E. Mahon, has been filed in this office, notice is hereby given that I shall, at the expiration of one month from the date of the first publication hereof, issue a provisional Certificate of Title in lieu of each of the said lost Certificates, unless in the meantime valid objection as to any be made to me in writing.

DATED at the Land Registry Office, Prince Rupert, B.C., this 3rd January, 1928.

H. F. MacLEOD,
Registrar of Titles.

LAND ACT

NOTICE OF INTENTION TO APPLY TO LEASE LAND

In Cassiar Land District, Land Recording District of Telegraph Creek, and situate at the northwest end of Gladys Lake, about 40 miles northeast of the town of Atlin, in about 133deg. 10' west longitude, and about 59deg. 30' north latitude.

TAKE NOTICE that I, John Alfred Lemieux, of Gladys Lake, near Atlin, B.C., occupation Trapper, intend to apply for a lease of the following described lands:—

Commencing at a post planted at the northwest end of Gladys Lake, about 710 feet north of the mouth of Fish Lake River; thence one mile west; thence one mile south; thence one mile east; thence one mile north, and containing 640 acres, more or less.

(Sgd.) JOHN ALFRED LEMIEUX,
Applicant.

Dated December 9, 1927.

LAND ACT

NOTICE OF INTENTION TO APPLY TO LEASE LAND

In Prince Rupert Land Recording District, and situate at Huston Inlet, Queen Charlotte Islands.

TAKE NOTICE that Robert M. Currie, of Vancouver, B.C., occupation fish packer, intends to apply for a lease of the following described lands:—

Commencing at a post planted at the northeast corner about 1,000 feet westerly from miners' cabins at head of Huston Inlet; thence westerly 20 chains; thence southerly about 12 chains; thence easterly 20 chains; thence northerly about 12 chains; and containing 24 acres, more or less.

ROBERT M. CURRIE,
Applicant.

SWIFT PROGRESS MADE POSSIBLE BY AIR SURVEYS

Great Areas of New Country Mapped and Chartered Quickly With Aid of Plane

OTTAWA, Feb. 2.—To survey an area equal to Switzerland, the Netherlands and Denmark combined in one year would seem an impossibility—at least by ordinary methods it would require an army of surveyors. Yet slightly more than this amount of terrain was covered by aerial surveys in Canada in 1927, according to the report of the Aerial Surveys Committee presented by J. W. Pierce, D.L.S., at the Annual Convention of Dominion Land Surveyors at the Chateau Laurier today.

15,200 SQUARE MILES

An area the size of Switzerland lying to the west of Lake Winnipeg was not only protographed and mapped but cruised for pulp wood supplies all in one season. This operation, carried out at the request of the Forest Service, Department of the Interior, covered 15,200 square miles. Photographs taken by the Royal Canadian Air Force in early summer were used to plot timber-type maps which were then the basis of ground cruising by forestry officers, accomplishing a result in a few months utterly impossible without the assistance of photographic maps. Since the inauguration of aerial surveying six years ago, said Mr. Pierce, this art has repeatedly demonstrated its values in its application to mapping, especially in a new country of the extent of Canada, since by its use speed and economy are effected in mapping lands that by ordinary methods of ground survey would involve tremendous expenditure of time and effort.

USE OF STEREOSCOPE

Mr. Pierce reviewed some of the marvellous accomplishments with aerial photography in the realms of engineering, particularly through the most recent development in the use of the stereoscope with vertical aerial photographs. Through its use engineers had been enabled to locate an electric transmission line over 200 miles in length and even "spotted" the tower sites; an examination of 80 miles of river had disclosed dam sites and resultant flooded areas with such accuracy that engineers were able to go ahead with their preliminary plans, and a few ground measurements at critical points will check up the whole scheme in the place of surveys which would have taken years to execute. The stereoscope has also been used in the study of projected railway routes, in the geological examination of rock exposures and even to check up underwater conditions up to depths of twenty feet.

IN PROBATE

IN THE SUPREME COURT OF BRITISH COLUMBIA

In the Matter of the Administration Act; and
In the Matter of the Estate of John Johansen, otherwise known as Johan Kraakay, Deceased, Intestate.

TAKE NOTICE that by order of His Honor, F. McB. Young, the 30th day of January, A.D. 1928, I was appointed Administrator of the estate of John Johansen, otherwise known as Johan Kraakay, deceased, and all parties having claims against the said estate are hereby required to furnish same, properly verified, to me on or before the 1st day of March, A.D. 1928, and all parties indebted to the estate are required to pay the amount of their indebtedness to me forthwith.

NORMAN A. WATT,
Official Administrator,
Prince Rupert, B.C.

Dated this 30th day of January, A.D. 1928.

SYNOPSIS OF LAND ACT AMENDMENTS

PRE-EMPTIONS

Vacant, unreserved, surveyed Crown lands may be pre-empted by British subjects over 18 years of age, and by aliens on declaring intention to become British subjects, conditional upon residence, occupation, and improvement for agricultural purposes.

Full information concerning regulations regarding pre-emptions is given in Bulletin No. 1, Land Series, "How to Pre-empt Land," copies of which can be obtained free of charge by addressing the Department of Lands, Victoria, B.C., or to any Government Agent.

Records will be granted covering only land suitable for agricultural purposes, and which is not timberland, i.e., carrying over 8,000 board feet per acre west of the Coast Range and 5,000 feet per acre east of that Range.

Applications for pre-emptions are to be addressed to the Land Commissioner of the Land Recording Division, in which the land applied for is situated, and are made on printed forms, copies of which can be obtained from the Land Commissioner.

Pre-emptions must be occupied for five years and improvements made to value of $10 per acre, including clearing and cultivating at least five acres, before a Crown Grant can be received.

For more detailed information see the Bulletin "How to Pre-empt Land."

PURCHASE

Applications are received for purchase of vacant and unreserved Crown lands, not being timberland, for agricultural purposes; minimum price for first-class (arable) land is $5 per acre, and second-class (grazing) land $2.50 per acre. Further information regarding purchase or lease of Crown lands is given in Bulletin No. 10, Land Series, "Purchase and Lease of Crown Lands."

Mill, factory, or industrial sites on timber land, not exceeding 40 acres, may be purchased or leased, the conditions including payment of stumpage.

HOMESITE LEASES

Unsurveyed areas, not exceeding 20 acres, may be leased as homesites, conditional upon a dwelling being erected in the first year, title being obtainable after residence and improvement conditions are fulfilled and land has been surveyed.

LEASES

For grazing and industrial purposes areas not exceeding 640 acres may be leased by one person or a company.

GRAZING

Under the Grazing Act the Province is divided into grazing districts and the range administered under a Grazing Commissioner. Annual grazing permits are issued based on numbers ranged, priority being given to established owners. Stock-owners may form associations for range management. Free or partly free permits are available for settlers, campers and travellers, up to ten head.

CHURCH HOLDS ITS ANNUAL

Successful Year Reported by Baptists With Finances in Excellent Condition

The Baptist Church held their annual congregational meeting last evening in the church parlors when the reports of the various organizations were presented to a large gathering of members and friends. The reports showed a splendid year of achievement in all branches of the church activities. The financial report showed a total amount raised for all purposes in the church of $2779.11 of which $225.00 was given to missions.

The following reported for their respective departments:

Church clerk—Miss A. Dawson.
Board of Deacons—P. H. Linzey.
Sunday school—Duncan Miller.
Ladies' Aid—Mrs. W. S. Hammond.
Mission circle—Mrs. P. C. Miller.
Children's Mission Band—Misses Lillian Jones and Eileen Hamblin.
Boy Scouts—P. C. Miller.
Renovation Committee—V. Houston.
Fireside Club—R. W. Howard.
Treasurer—Mrs. J. D. Thurber.

The pastor, who presided, also gave a brief resume of work of the past year. A number of vocal and instrumental items were interspersed during the reports by V. Houston and Jos. Gay as vocalists and Misses Aleta McKinley and Catherine Mussallum, who gave piano selections. After refreshments were served by Mrs. R. Gilker, Mrs. H. Blake and Mrs. Stromdahl and a social hour spent the meeting was brought to a close.

Ten Years Ago in Prince Rupert

Capt. William Sim of Porcher Island urges the use of the Scottish gill nets in fishing for herring for halibut bait purposes.

J. E. Gilmour, late of this city, has invented a simple caulking contrivance which it is claimed will do the work of ten men in shipbuilding.

Mrs. F. W. Hart has received word of the death in Pasadena, California, of her brother, H. C. Clarke of Vancouver, member of the well known firm of Clarke & Stuart.

INSTALLATION AND SOCIAL GATHERING

Members of Moose Lodge and Friends to Number of 200 Present at Function Last Evening

Installation last night of 1928 officers of the local Moose Lodge was followed bya social at which members of the lodge and their friends to the number of two hundred were present. The festivities were in progress until about 2 a.m. and music for dancing was by Dave Eastman's Orchestra. In the course of the evening there were vocal solos by S. A. McPherson which were well received.

The following officers wereinstalled by S. Wallstedt of Juneau, district deputy supreme dictator:

Past Dictator—Gillis Royer.
Dictator—L. R. Parry.
Vice Dictator—T. Elliott.
Prelate—Jack Judge.
Treasurer—Ted Rorvik.
Sergeant-at-Arms—D. C. Schubert.
Inner Guard—R. Long.
Outer Guard—A. C. Franks.
Trustee—Fred Scadden, W. H. Derry and L. J. Blane.

ALASKA FISH BECOME ISSUE

George B. Grigsby, in Becoming Democratic Candidate, Urges Local Control

KETCHIKAN, Feb. 2.—The principal campaign issues in Alaska for the election of congressional delegates will be home rule and territorial control of the fisheries, George B. Grigsby, Ketchikan attorney, declared in accepting the nomination of the Seward Democratic convention and stating his intention to file in the primaries.

"One-man dictatorship of our principal industry," Mr. Grigsby said, "however honestly conducted, is un-American and inherently vicious. I am for territorial control of the fisheries, for full territorial government, and believe I can get both if I am elected."

HIS STATEMENT

M. Grigsby's statement follows in full:

"I shall accept the nomination of the Seward convention for delegate to congress and shall file in the primaries. I do not wish my convention nomination to be prejudicial to the aspirations of anyone else who may desire to get the primary nomination. If anyone can get more votes than I can in a primary election, he should be the nominee regardless of the action of any convention.

"From the outline of the platform adopted at Seward I find nothing inconsistent with the recently published Ketchikan platform with which I am in full accord. The main campaign issues in this Territory in the congressional election will be home rule and territorial control of the fisheries. Not a single forward step has been made by the present delegate on these two most vital propositions. The people of Alaska are, I believe, almost a unit for the fullest form of territorial government and control of our fisheries.

PRINCIPLES ENDORSED

"The national Democratic party has repeatedly endorsed both principles in its national platform, and with the election of a Democratic president and congress they will be enacted into law.

"I am an ardent supporter of Governor Al Smith and believe that he will be nominated and elected. If he is, the result will be the appointment of bona fide Alaskans to federal offices, and local self -government to the full extent ever accorded any other territory.

TERRITORIAL CONTROL

"Our legislature should have jurisdiction over fish and game. The present one-man dictatorship of our principal industry, however honestly conducted, is un-American and inherently vicious. No one knows today what the law will be tomorrow. It is fair neither to capital nor labor. It is within the power of one man to make or break the whole community by summary action based on his individual information or misinformation. I am for territorial control of the fisheries, for full territorial government, and believe I can get both if I am elected."

NEW METHOD USED IN CITY LIBRARIES

Machine for Checking Books Saves Lots of Time

NEW YORK, Feb. 2.—Making librarians out of machines instead of machines out of librarians is the avowed purpose of an instrument that has been installed in the New York Public Library to do the vast amount of clerical work in checking books in and out.

The machine, which has been installed in the central circulating branch of the library at 42nd Street and Fifth Avenue, eliminates the writing of innumerable figures by the librarian as she receives and dispenses books.

With one punch it dates both the borrower's card and the card that is attached to the book. A little tin plate bearing the imprint of the borrower's card number is attached to the card and as a book is taken out, and the card is checked through the machine it leaves the borrower's card number upon the book card, making a record of the date and person borrowing the volume.

The installation of the machine in the busiest circulating branch in the city has expedited the handling of the large crowd the officials say.

WAS VERY WEAK NERVOUS AND MELANCHOLY

Mrs. Geo. McKenzie, Campbellford, Ont., writes:—"A short time ago I was troubled very bady with my heart and nerves, the cause of it, I think, was my going through the change of life.

"I was very weak and melancholy, and so nervous I could hardly bear to hear a clock ticking, and I did not sleep well.

"I was advised to try MILBURN'S HEART AND NERVE PILLS so I sent at once for a box; took them and got another, and before they were all gone I felt good, my nerves are fine, I do not mind any noise, and I can sleep well. I cannot recommend them too highly to those suffering as I did."

Price 50c. a box at all druggists and dealers, or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

SCHOOL BOY READY FOR THE OCCASION

LONDON, Feb. 1.—Lord Charlemont, minister of education for Ulster, put the following poser during a visit to Portora Road School, Enniskillen:—

"If a coin were dug up in a garden at Canterbury, which was in the area of the Roman occupation of Britain, with Julius Caesar on it, and date 'B.C. 43,' was the coin genuine or not? Give reason for answer."

The masters could not answer it, and only one boy could. Lord Charlemont gave him a gold watch. The boy's answer—and the right answer—was: "No. How could the man who minted the coin know that the year was B.C. 43?"

Mrs. P. Regan, R.N., lady superintendent of the Francois Lake Hospital, arrived in the city from the interior on this afternoon's train and will sail tomorrow morning on the Prince Rupert for Vancouver enroute to Vancouver Island on a holiday visit.

Stomach Troubles

Of what use is money or food if the stomach fails in its duty and causes you misery?

The healthy person does not, and should not, realize that he has a stomach. Digestion of wholesome and normal foods should be automatic. But this cannot be if the stomach is receiving less than its full supply of vital energy.

When the stomach fails in its functions, two courses of relief are available—you can reduce the quantity and variety of your food to fit its subnormal capacity—or you can have the cause removed by spinal adjustments which restore the flow of vital energy to its full capacity. Which is best. We believe in removing the cause.

FISHING BOATS BEFORE COURT

Several Well-known Craft Concerned in Law Cases in Alaska Just Now

KETCHIKAN, Feb. 2.—Several admiralty cases are now pending before the district court, one of which includes the power boat M. & M. taken on the west coast and charged with illegal fishing; the case against the Commonwealth for damage to the Anna J. through alleged carelessness, and the one in which the Monroe charged the Gladstone with crashing into her near Sitka.

The case against the Commonwealth is set for February 6. The M. & M. case probably will be tried in Juneau. Arne Suomela, United States fishery warden of Bristol bay, arrived here in connection with the latter case.

Recently the court fixed the bail of the Gladstone at $10,000 for the release of the boat for the fishing season. She is a halibuter. The Munroe was hauling salmon at the time of the accident and claims that she was on her course when run into by the other boat.

BRITISH COLUMBIA

The Mineral Province of Western Canada

To the end of December, 1926.

Has produced Minerals as follows: Placer Gold, $78,018,548; Lode Gold, $126,972,318; Silver, $80,787,003; Lead, $106,976,442; Copper, $209,967,068; Zinc, $50,512,5577; Coal and Coke, $284,599,133; Structural Materials and Miscellaneous Minerals, $50,175,407; making its mineral production to the end of 1926 show an

AGGREGATE VALUE OF $988,108,470.
PRODUCTION FOR YEAR ENDING DECEMBER, 1926, $67,188,842

The Mining Laws of this Province are more liberal and the fees lower than those of any other Province in the Dominion, or any colony in the British Empire.

Mineral locations are granted to discoverers for nominal fees.

Absolute Titles are obtained by developing such properties, the security of which is guaranteed by Crown grants.

Full information, together with Mining Reports and Maps, may be obtained gratis by addressing—

THE HONORABLE THE MINISTER OF MINES.
VICTORIA, BRITISH COLUMBIA.

N.B.—Practically all British Columbia Mineral Properties upon which development work has been done are described in some one of the Annual Reports of the Minister of Mines. Those considering mining investments should refer to such reports. They are available without charge on application to the Department of Mines, Victoria, B.C. Reports of the Geological Survey of Canada, Winch Building, Vancouver, are recommended as valuable sources of information.

Reports covering of the Six Mineral Survey Districts are published separately, and are available on application.

SAGOLAND GOES ON BERTH TODAY

Swedish Grain Ship Completes Lining and is now Loading—Mabriton Next Ship Expected

While no grain has yet been shipped from Prince Rupert this season to the Orient and few Japanese vessels have been here, it is reported that, later in the season, several Jap vessels may come here to load for the Orient. Local Japanese have been advised that at least one of the Japanese vessels which were here during the 1926-27 season will be back probably about April to load for Japan. Meanwhile it is expected that the most of the wheat to be shipped form this port will continue to go to the United Kingdom or Continent.

The fifteenth vessel of the season here it is expected will be the British steamer Mabriton. She is reported to have been following close on the Swedish ship Sagoland which is already here and should arrive before the end of the week. Already lined, the vessel will be ready to start almost immediately on arriving the loading of a full cargo for the United Kingdom or Continent.

The Sagoland, having completed lining, moved down to the elevator about 10 o'clock this morning to start loading a full cargo for the United Kingdom or Continent.
