VON HINDENBURG IS AGAIN PRESIDENT

LINDBERGH PAYS $50,000.00 BUT BABY IS NOT RETURNED

LEGISLATIVE LIBRARY 31 MAY 31 PARLIAMENT BLDGS.

Kidnappers Fail to Live Up To Promise To Give Child Back

State Police Planning to Trace Bank-Notes with View to Solving Mystery—Believed Abductors Are Afraid to Keep Pledge

HOPEWELL, N.J., April 11:—Fearing that the numbered bank-notes which have been tendered them as ransom for the infant son of Col. and Mrs. Charles A. Lindbergh might lead them into trouble, the kidnappers of the child were reported yesterday to have demanded that payment be made them in gold. Immediately this is done, the child will be returned, the abductors are reported to have promised.

TRENTON, N.J., April 11:—It was officially announced here on Saturday night by the New Jersey state police that ransom money of $50,000 had been paid over last week by Col. Charles A. Lindbergh to representatives of the kidnappers of his 20-month old son, who disappeared on March 1 from the Lindbergh home at Hopewell, but that the abductors had failed to fulfil their bargain that the child would be left safe at a specified place on the money being paid over. Up to Saturday night the child had not been returned and the state police intimated that, in view of the fact that the kidnappers had failed to live up to their agreement, it would be necessary for them to enlist the aid of the federal authorities in tracing the bank-notes which were paid over. While the numbers of the notes had been kept by Col. Lindbergh, it had not been the intention to trace them had the child been safely returned to its parents.

While some people were inclined to believe that Col. Lindbergh had been swindled by false representations, officials were inclined rather to believe that the kidnappers were afraid to return the child immediately to the designated rendezvous. There is still optimism that the baby is alive and well and will be returned soon.

PROBE OF TRADING

Investigation of New York Stock Exchange Afafirs Starts Today

WASHINGTON, April 11:—The Senate banking committee is starting today a widespread investigation into all phases of trading activity on the New York Stock Exchange.

Richard Whitney, president of the New York Stock Exchange, has been subpoenaed to appear as the first witness. He has been ordered to bring all information with him and be prepared to answer all questions.

The committee plans that the investigation shall be a most thorough one.

It was revealed on Saturday that President Hoover had been behind the sudden decision of the committee to start the investigation immediately and that the intention was to forestall a bold short-selling scheme which was to have been sprung in Wall Street this week.

INFLUENZA IN YUKON

Chief Isaac, Head of Moosehide Indian Tribe, Falls Victim to Malady

DAWSON, Y.T., April 11:—Chief Isaac, aged 75, head of the Moosehide Indian tribe, died on Saturday from influenza.

Influenza of a mild form is prevalent here, necessitating the closing of schools.

Big Savings Proposed By Pres. Hoover

WASHINGTON, D.C., April 11:—President Herbert Hoover on Saturday proposed economies to the Senate finance committee which are estimated to result in saving of from $160,000,000 to $210,000,000 in governmental expenses for 1933.

TARIFF IN NEW BILL

Move Made in Washington Against Including Revisions—Sales Tax or Greater Income Tax

WASHINGTON, April 11:—Move is under way to prevent the Senate finance committee from including tariff alterations in the national revenue bill. Democrat members of the committee would include certain revisions as revenue proposals.

Senator Reed of Pennsylvania made a vigorous appeal that a general manufacturers sales tax be included in the new revenue bill. This, he contended, would be easier on the ordinary people than the proposal to lower income tax exemptions from $1800 and $3500 for single and married men respectively to $1000 and $2500.

Unidentified Man Jumps in Niagara To Commit Suicide

NIAGARA FALLS, April 11:—An unidentified man committed suicide Friday by leaping into Niagara Falls at Prospect Point. He eluded guards who noticed him climbing over a rail.

At The Annual Society Horse Show

"You go your way, I'll go mine,' say members of the crack cavalry unit at Fort Myer, Va., as they do a criss-cross jump for the annual society circus.

UNEMPLOYED IN SESSION

Wage Rate of $7.50 a Month is Rejected—$4 Per Day Basis Asked

LONG MEETING

Move to Join With National Unemployed Workers Ass'n Held Up

At a mass meeting under the auspices of the Prince Rupert Unemployed Association which taxed the capacity of the Metropole Hall last night and lasted for no less than three hours and a half, resolutions were passed pledging single unemployed men here to refuse to accept th provincial government's offer of $7.50 per month and board for a 20-day month and proposing, as an alternative, that the men be permitted to work for the money required for board and clothes at a scale of $4 per day on the basis of a six-hour day and five-day week, the clothes to be provided in advance. It was decided, at the suggestion of Ald. G. B. Casey, who was present, to enlist the support of the city council for the latter resolution. These resolutions were not passed until after there had been lengthy discussion in which many of the men present participated.

Charles Chapman presided and other members of the central committee of the association were on the platform.

In opening the meeting, Mr. Chapman briefly explained the purposes for which it had been called. He told how the government had failed to comply with the request that boots and clothing be provided the men before they went to work.

Correspondence arising since the last meeting was read by the secretary, T. Murphy.

W. Mohoney and Mr. Chapman reported on a recent meeting with the city council when more adequate allowances for married men with families were requested. Mr. Mohoney charged the members of the city council with an attitude of evasion.

Aged Former Military Leader is Re-elected As German Republic Head

Polled Nineteen Million Votes at Run-off Election and Had Majority of Six Million Over Adolf Hitler, His Fascist Opponent

BERLIN, April 11:—President Paul von Hindenburg was elected chief executive of Germany for another term of seven years by virtue of polling more than nineteen million votes on Sunday in the presidential run-off election following the poll last month which was not conclusive. The 80-year old former military leader had a majority of some six million votes over Adolf Hitler, Fascist candidate, and a majority over the total votes polled by all opponents combined.

Faced with acknowledged defeat in the presidential election, Adolf Hitler, Fascist candidate, and his supporters toward the end were working merely to reduce the majority of President Paul von Hindenburg as much as possible. During the last few days preceding the election there were many disorders and numerous arrests.

No Mosquitoes For Portland

Chamber of Commerce Has Six Men at Work Already Fighting Pest

PORTLAND, Ore., April 11:—The Portland Chamber of Commerce has decreed that there shall be no mosquitoes in the Rose City this year. Six men are already busy fighting the pest.

WEATHER REPORT

Dead Tree Point—Part cloudy, light southeast wind; barometer, 29.94; temperature, 52; light chop.

Triple Island—Cloudy, light east southeasterly wind; sea smooth.

Langara Island—Cloudy, light south wind; sea calm.

LUTHER IS SHOT UPON

President of German Reichbank Har Narrow Escape From Assassination on Saturday

BERLIN, April 11:—Dr. Hans Luther, president of the German Reichbank, had a narrow escape from assassination on Saturday when four shots were fired at him from a crowd as he was going on board a train for Frankfort. Luther was hit in the right wrist but the injuries were not serious and he proceeded on his trip as intended, the wounds being dressed on the train.

Army Uniforms Are Permitted In School Now

SEATTLE, April 11:—The Seattle school board has decided to reconsider a ruling made on March 18 under which United States Army uniforms would be barred from the public schools of the city. By the former decision only those wearing civilian clothes would be admitted to the schools.

City Auditor Gives Official Statement Of City's Affairs

Answers Three Important Questions in Regard to Finances—Condemns Bankruptcy Suggestions But Urges Economy Co-operation

(George Rorie, City Auditor)

It has been stated that there is public uneasiness in regard to the city's finacnial situation at the present time, and that it is desirable that a statement be issued showing exactly why any increase in taxes is necessary. It is impossible in a short statement, such as this must necessarily be, to cover all the ground, but I propose to reply to three questions which appear to loom largest at the present moment, namely:

1. What is the present position of the city financially?
2. How did it arise, and.
3. What has become of the $375,000 obtained from the sale of the electric light franchise in 1929?

In answering these, it will be seen why an increase in taxes is necessary, and for purposes of comparison, I shall confine myself to the last three years, 1929, 1930 and 1931.

Present Position of City

In the first place, there is no necessity for alarm, but there is great need for careful handling of the situation, and this requires co-operation on the part of all citizens. There is no room for selfish interests being allowed to prevail. Every one must work for the common good of all, and there is absolutely nothing to be gained by hysterical outbursts about bankruptcy and receiverships, for our city is merely suffering from what every other municipality in the Dominion is more or less enduring, as well as most business houses and individuals.

Speaking generally, the statement of affairs of a municipality shows as liabilities its bonded indebtedness and its sinking fund requirements; while its assets include its capital expenditure on public works from proceeds of bonds sold, its sinking fund investments and arrears of taxes. At December 31, 1931, our assets in addition to the above included expenditure on capital account made in anticipation of bonds to be sold, and expenditure on unemployment relief, being the proportion to be recovered from the Dominion and provincial governments. The funds wherewith these payments were made, were obtained from the bank, which accounts to a large extent for the necessity of their loan of $165,000 which figures as a liability at the end of 1931.

As regards our liabilities in respect of debentures, at January 1, 1927, our bonded indebtedness amounted to $2,153,373. During the next five years, further debentures of $266,291 were issued, but during that period we paid $617,451, thus leaving the net debt at December 31, 1931 at $1,802,213. With the exception of the bank loan, the city's position was in no way exceptional in comparison with previous years.

I may add that the amount advanced by general account in anticipation of debentures to be sold stood at December 31 last at $112,000. When the time is propitious for these to be sold, the bank debt can be thereby reduced. In this connection also it may be mentioned that the city is still distant from the limit of its borrowing powers to the extent of $1,330,000.

The Cause of Its Present Position

There are two principal causes for

(Continued on page 6.)

REPORT IS CONSIDERED

Chamber of Commerce Will Await Detailed Information

On Saturday afternoon there was a meeting of the council of the chamber of commerce to consider the brief summary of the report of Sir Alexander Gibb, British port expert, in which it was mentioned that Vancouver should be protected against competition from any northern port insofar as handling of the Peace River grain was concerned. While the report had evidently caused considerable consternation among the members, it was the general opinion that no official action should be taken until a fuller report was received.

The secretary was empowered to wire Olof Hanson, member for the district, asking him to scrutinize the report and send copies of such parts of it as concerned the port of Prince Rupert.

DEATH OF AUTO MAN

Carleton Howell Willis Passes Away in Vancouver at Age of 42

VANCOUVER, April 11:—Carleton Howell Willis, president of the Willis-Kingsley Motors Ltd. of Vancouver, died suddenly at his home here yesterday at the age of 42.

WRANGELL MAN DIES

Thomas J. Case, Business Man, Had Been Resident of Alaska For Fifty Years

WRANGELL, Alaska, April 11:—Thomas J. Case, pioneer Wrangell businessman and a resident of Alaska for 50 years, died here Friday night. He conducted an ice cream parlor.

Resignation of Governor Denied

Lawrence M. Judd of Hawaii Not Quitting, It Is Officially Stated

HONOLULU, April 11—Reports that Governor Lawrence M. Judd was about to resign were officially denied on Saturday by representatives of the Governor.

DAILY EDITION Monday, April 11, 1932

CITY'S FINANCES

Today on another page we are publishing a statement in regard to civic financing which will prove of very great interest to a good many people. All sorts of wild statements had been made in regard to the financial condition of the city and this statement will clear up a great many obscurities. George Rorie was asked by the Daily News to give this statement to the people so that they might thoroughly understand the situation.

It seems very clear from the statement that a policy of the greatest possible economy must be adhered to and also it seems clear that given an economical administration over a period of years there should be no doubt about weathering the storm successfully.

PARENTS INTERESTED

On Friday of last week a number of parents of pupils in the schools met under the auspices of the Parent Teachers' Association and asked to have the manual training and domestic science departments continued. It was pointed out that most of the leaders in the campign to cut down on the schools are men who have no children or whose children are not of school age.

All must realize that strict economy is necessary but what must be decided is where the cutting is to be done in order to do the least possible injury. Some people consider spelling more important than domestic science and yet much more harm is done in the world through lack of domestic education than from lack of ability to spell correctly. It is all a matter of relative values.

IN THE LETTER BOX

ANSWER TO PARENT-TEACHERS

Editor, Daily News:

The uncomplimentary remarks reported made at the recent meeting of the Parent-Teachers' Association, in my opinion, call for some criticism. The statement that those calling for reductions in civic and school expenditures were purchasers of tax sale lots who now find that they cannot pay their taxes, is quite a slam at the 850 citizens who recently assembled in the Moose Hall and which included most of Prince Rupert's reputable and respectable citizenry, and who unanimously demanded that only absolutely necessary expenditures be made in connection with both city and school administration, during this period of stress. The remark, however, is worth very little consideration as anyone at all conversant with local matters, knows full well that since the war year (1914), the city itself has been the purchaser of all the tax sale lots (with the odd rare exception), which is the reason that it now owns almost half the townsite.

As to the attempt to put the blame for our financial difficulties on the present City Council, to say the least, it is childish. They are the accumulation of the last 22 years. In the past it has been considered an important qualification for city councils and school boards to spend as much as possible, they were congratulated upon doing so, and encouraged, as instanced by our almost unbroken record for passing every money bylaw presented to us.

This was alright so long as money continued to pour freely into our pockets. Therefore the taxpayers themselves are to blame, and must assume the responsibility. The Councils and trustees were only instruments. But now that hard times are upon us, we must of necessity change our ways. We therefore now expect our city fathers and school trustees to do all in their power to keep our taxes down to a minimum.

This city has been very liberal in the past in providing the very best and ample education for all alike, but if there are now insufficient finances to continue the extra-ordinary subjects such as Commercial, Domestic and Manual Training, there should be no pressure brought to bear on the school trustees in an attempt to have these courses continued until such times as we can again afford them.

According t the figures quoted for school estimates, almost $80,000.00, provided the city has 1,000 pupils, it will cost $80.00 to educate each child for a year. This sum does not take care of interest on money borrowed to build the schools, which will probably bring the cost to something like $100 for each child.

In view of the remarks complained of in this letter, it would be interesting to know if those responsible for them, contribute anything like this sum towards their childrens' education. If they do not, their neighbors are putting up the difference.

PARENT OF SCHOOL CHILDREN.

P. Romanick, who has been to Vancouver to receive treatment for was effects, returned to the city from the south on the Catala last evening.

Character Is Indicated In Every City Garden

Good Taste in Garden Planning

Tucked away in the older residential sections of some of our towns, there are still to be seen charming old places of an age gone by. No doubt some of the old settlers could tell of the circular flower beds that once adorned the lawn, and of the iron deer that stood sentinel near the gate. These are the marks of an age gone by, for styles change in planting as in everything else.

The new style, as shown in the accompanying sketch, is to plan the lawn with open centre, with mass plantings relegated to the boundary lines. Just as we furnish every portion of the home, just so they plant every part of the grounds to secure the maximum in beauty and enjoyment.

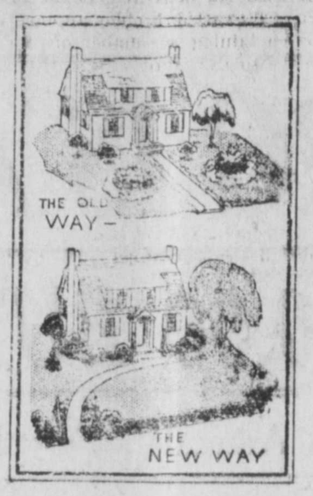
And best of all, we are not handicapped today by lack of materials. There are hundreds of plants which once were rare and costly but now are available in unlimited quantity at very reasonable cost. There are trees and shubs, vines and flowers for every purpose. There is a type of foliage, a color of flower for every effect imaginable.

Plant vines can climb up along the chimney wall and clothe it with a bit of green foliage. Bring a pleasing intimacy to your porch by training vines along the side and over the top.

It is the custom to leave the front yard open to the public. It is good taste to make this portion of your grounds so attractive that it makes a pleasing impression on the passerby.

For the utmost in attractiveness in the front yard, plan to have an open stretch of well-kept lawn framed on either side by plantings of evergreens and shrubs placed in pleasing arrangement in beds and borders along the lot lines. Plant hardy flowers in front of shrubbery borders and in bays to add color and interest. Plant trees for shade and to frame the view of your house. The wrong and right way of doing this is shown in the accompanying sketch.

A few individual specimen plants are in good taste if carefully placed. A living Christmas tree planted near the house will add year-round beauty and will be a permanent tree for holiday decoration. And lastly, provide shade trees for the parkway and for the comfort and beauty of your street.



Effect of Planting Trees

Prince Rupert is happy in having many ornamental trees native to the townsite which grow freely and are very effective when grown separately. Many people when clearing their lots save the best of the pines, hemlocks, spruces or cedars. Very often nature's planning is better than man's. Trees add much to the beauty of the grounds and to the value of the home.

GARDEN MORALS

The condition of the Garden indicates the kind of man living in the house.

It's no sin to be hard up, but to indicate it by a slovenly garden is an offence for which there is no forgiveness.

The above pictures illustrate an extreme case showing a back yard of a careless, slovenly person which later was cleaned up and renovated. The difference is very marked. While there are not many like the former picture in Prince Rupert, there are a good many that need attention.

Saturday Night Dance Enjoyable

Good Sized Crowd at Affair Staged By Sons of Norway in Metropole Hall—Accordion Music

The Sons of Norway held an enjoyable Saturday night dance in the Metropole Hall, a good sized crowd being in attendance. Dancing lasted from 9 p.m. until midnight with music on the accordion by Mike Colussi. Oscar Haveroy was master of ceremonies and Mrs. Chris Jensen presided at the door. The committee in charge comprised Mrs. Hans Underdahl and Mrs. Chris Jensen.

Union steamer Catala, Capt. A. E. Dickson, arrived in port at 5:15 last evening from the south and sailed at 9 p.m. for Anyox, Stewart and other northern points whence she will return here tomorrow morning southbound.

Chico Marx Is Seriously Hurt

Member of Famous Movie Comedy Team Badly Injured in Los Angeles Auto Smash

LOS ANGELES, April 11—Chico Marx, one of the Four Marx Brothers of moving picture fame, was seriously injured in an automobile crash here on Saturday. Marx is said to have been driving his car at an excessive rate of speed.

TELL THE PEOPLE

"Tell 'em quick and tell 'em often. Explain to folks plainly and sincerely what you have to sell. Keep everlastingly coming at them. Advertising is pretty much like shovelling a furnace. Once you stop stoking, the fire goes out."—Wm. Wrigley jr. (tf)

Canada's Leaders Agree
This Investment is a Necessity!

STATESMEN, financiers, churchmen and educationists—known from coast-to-coast for their far-sighted leadership—unanimously commend Life Insurance for its principles of thrift and protection. Read the statements of these five outstanding Canadians:

RT. HON. R. B. BENNETT, *Prime Minister of Canada:* "Life Insurance in these modern days is a necessity, not a luxury. No man with a sense of his responsibilities to his family and organized society should be without Life Insurance."

RT. HON. W. L. MACKENZIE KING, *Leader of the Opposition:* "In this age, it surely is not necessary to endorse the merits of Life Insurance, not only as a means of protection, but as providing a method of systematic saving as well."

SIR ARTHUR CURRIE, *Principal and Vice-Chancellor, McGill University:* "Of all the institutions that have to do with the welfare of men and women, there is none equal to Life Insurance."

HON. G. HOWARD FERGUSON, *Canadian High Commissioner to Great Britain:* "Any business which has as its primary impulse the preservation of the home, the education of children and the care of the aged, must have the admiration of us all. Life Insurance should commend itself to every man of common sense and judgment."

HON. L. A. TASCHEREAU, *Premier, Province of Quebec:* "Canadians have gradually come to realize that no better protection could be given their families than through Life Insurance."

When Canada's leaders stress the necessity of Life Insurance, it is wisdom on your part to protect the policies you now own and increase your holdings when possible.

Life Insurance Service

One of a series of messages sponsored by Life Insurance Companies.

UNEMPLOYED IN SESSION

(Continued from page one)

An appeal having been made for married men with families, in their own interests, to take a more active interest and part in the affairs of the association, C. Wallace, M. Graham, W. Pawchuk, W. Crahonnin, E. Skogmo and T. Scully were added to the membership of the central committee. The central committee will continue its efforts on behalf of more adequate relief being provided for those requiring it.

A proposed scale of wages for various classes of work at Cloyah Bay was read. It was felt by speakers that, under relief, all classes of workers should receive the same allowance with no discrimination in favor of certain classes of work.

A communication telling of conditions in unemployment camps in the Revelstoke and Hope-Princeton districts was handed into the meeting and read. Men there were also holding out against $7.50 per month.

T. Mohoney moved the resolution asking for the $4 rate of pay on relief work. Among those speaking in favor of this resolution were George Murray, Oscar Larsen, Mr. Brown and others.

Move Forestalled

A move was made to have the local association join up at once with the National Unemployed Workers' Association of Canada. A. O. Morse spoke emphatically against affiliation with this organization and inquired if the meeting knew whether it was a subsidiary of some other organization. A lively discussion ensued and, finally, an amendment was carried tabling the proposal to affiliate with the National Unemployed Workers' Association of Canada until more information had been received regarding the organization.

At the suggestion of Mr. Chapman, the meeting passed a resolution for conveyance to Premier R. B. Bennett protesting at the prosecution of Estevan, Sask., coal miners as a result of a recent demonstration there when three men were killed.

Another resolution requested the striking out of Section 98 from the Criminal Code of Canada and any other sections antagonistic to the interests of the working classes.

Disapproval was expressed by resolution of the action of landlords in evicting persons who were unable to pay their rent.

Distress of people living on relief at Port Essington was mentioned and it was left to the central committee to get further information and take the matter up in the proper quarters, if necessary.

CANNERIES TO OPERATE

Officials and Members of Crews of Mill Bay and Arrandale Here Last Evening Northbound

Officials and members of the crews of two Naas River canneries—the B. C. Packers plant at Mill Bay and that of the Anglo-British Columbia Packing Co. at Arrandale—were aboard the steamer Catala last evening bound north from Vancouver to institute work preparatory to the season's operations.

The party for Mill Bay included George Harris, manager; E. Cummings, accountant, and Watson D. Noble, storekeeper. Mill Bay, which operated only as a camp last season, will be packing salmon again this summer.

The party for Arrandale was headed by W. E. Walker, manager, and C. F. Griffin, accountant.

Supreme Jingles Just For Fun and Not Competition

A local lad delivered at the office of Stewart & Mobley an envelope containing a number of "Supreme Jingles," not for entry in their competition but "just for fun." The roasters of Supreme Coffee ask him to return and he will be given a pound of Supreme just for fun. Here are a few of the jingles:

Mary bought a little lamb
And all the trimmings fine,
Then asked mama and pa-in-law,
That night to come and dine.

The dinner was a great success,
The angel cake, a dream,
But the crowning glory, you can guess,
Was when Mary served Supreme.

Jack Spratt could eat no fat,
His wife could eat no lean,
But they both liked coffee, they agreed on that
If the coffee was Supreme.

Little Jack Horner sat in a corner
And would not be satisfied with toffee,
He liked Christmas pie,
But how he did cry
For a cup of good Supreme Coffee.

Pussy cat, pussy cat, where have you been?
I've been up to London for a pound of Supreme;
Pussy cat, pussy cat, why go so far?
Why no other coffee would do for my ma.

Three blind mice, see how they run,
They all ran after the farmer's wife
For they smelled Supreme Coffee you can bet your life,
They are not afraid of her carving knife,
These three blind mice.

Roses are red, violets are blue,
Drink Supreme Coffee like wise men do.

Fire Under Walk Saturday Night

Spectacular Blaze on Third Avenue Caused No Damage—Started In Waste Paper

Billows of heavy smoke and flashes of flame issued early Saturday evening from a fire which broke out in the foundation of the creosoted lumber sidewalk on Third Avenue across from the Daily News but, although the fire was rather spectacular and drew a big crowd of spectators, it occasioned no material damage except to scorch the sidewalk foundation. The blaze is believed to have started in waste paper which had been stowed under the sidewalk after being removed from a nearby hoarding. The fire department was called and soon extinguished.

C. P. Ashmore, general manager of the Granby store at Anyox, was a passenger aboard the Catala last evening returning to the smelter town after a business trip to Vancouver.

SLEEPLESS, PALE, NERVOUS

Mrs. Hart Completely Restored to Normal Health After Taking 6 Boxes of Dr. Williams' Pink Pills.

FEELING WELL AGAIN.

"I was in a weak, run-down condition—sleepless, pale, nervous and with loss of appetite," writes Mrs. R. M. Hart, of Toledo, Ont. "I was often taking weak and fainting spells, and weighed only 105 pounds. I finally decided to try Dr. Williams' Pink Pills. After taking six boxes I was completely restored to a normal condition. I also gained 23 pounds. My condition began to improve after taking the second box. I have had no recurrence of my trouble since. I strongly advise Dr. Williams' Pink Pills for anyone in the same condition as I was in."

Mrs. Roy Holland, R. R. 4, Dunnville, Ont., describes her case as follows: "Just about a year ago I was in a general run-down state of health. No appetite, nervous and irritable. Could not sleep at night, or even keep still. My limbs would twitch, I would cry over nothing, and I was ashamed to find myself cross with the children. I tried Dr. Williams' Pink Pills again, as I had used them before with good results. The results were excellent again. I am now feeling well again, can do all kinds of work, and weigh more than I have for a long time."

Dr. Williams' Pink Pills have earned the praises of thousands of sufferers like these whose health has been restored by their aid. These Pills actually create new red blood, which supplies to the nerves the very elements they need and builds up the whole system. Try them if you are run down, anaemic or rheumatic. Now obtainable in the new glass containers at your druggist's. 50c a package. 251

STANLEY CUP, EMBLEMATIC OF PRO PUCK SUPREMACY, REMAINS IN CANADA FOR ANOTHER YEAR

First Time in History It Has Been Captured By Three-Game Straight Shut-out—New York Rangers Outclassed

TORONTO, April 11:—The Stanley Cup, emblematic of the world's professional hockey championship, remains in Canada for another year as a result of the 6 to 3 victory of Toronto Maple Leafs on the home ice here Saturday night over New York Rangers. The Maple Leafs, who had toyed through the latter part of the league season and the semi-final play-offs, accomplished the feat, for the first time in Stanley Cup hockey history, of winning the final by the three-straight victory shut-out route.

Scoring six goals in each of the final games, the Maple Leafs, due to the work of their scintillating forwards, had a total of 18 goals in the three matches in comparison with nine for the Rangers.

The Torontons take the Stanley Cup from the Montreal Canadiens, who, crippled by injuries to some of their most valuable players, were eliminated by the New York Rangers in the early stages of the semi-finals.

MAX SCHMELING HAS COME OVER

NEW YORK, April 11:—Two pounds overweight but looking fit and fine, Max Schmeling, world's heavyweight boxing champion, arrived here at the week-end from Germany. He will start a brief exhibition tour at Chicago tonight and will go into training about May 10 for his next title bout.

RECORD IN HALF MILE

Ben Eastman, Crashing Second Record Within Fortnight, Sets New Time For 880 Yards

SAN FRANCISCO, April 11:—Ben Eastman, sensational Stanford University sprinter, broke his second record within the short space of two weeks when he did the 880-yard distance in one minute, 51 3-10 seconds during a three-college track meet at Stanford Oval on Saturday. Eastman clipped three-tenths of a second off the former record which was made in 1926 by a German runner.

Two weeks ago Eastman set up a new mark for the 440-yard sprint.

PHAR LAP POISONED

Australian Wonder Horse Was Not Victim of Indigestion But Rather of Arsenic

SAN FRANCISCO, April 11—Continued investigations have practically confirmed the theory that Phar Lap, Australian wonder horse, who died last week at Menlo Park racing stables, was the victim not of colic and indigestion, as was at first supposed, but rather of arsenic poisoning used for spraying trees. Veterinaries have found traces of arsenic in Phar Lap's stomach.

Lumps of clay containing arsenic were also found in the bedding straw in Phar Lap's stall. Phar Lap's tenders state that the horse had a habit of munching clay.

Phar Lap had won the Agua Caliente $50,000 Handicap a few weeks ago and was at Menlo Park in the course of a tour of American tracks.

BULLS IN INTERIOR

Fourteen Excellent Animals to Be Used For Breeding Purposes

PRINCE GEORGE, April 11:—The first consignment of pure-bred bulls to be loaned to farmers this year under the Dominion Government Bull Loaning Policy were distributed throughout the central interior along the Canadian National Railways line last week.

T. G. Stewart, Victoria, who has charge of this policy for the Dominion Government in B.C., shipped in 14 excellent Aberdeen Angus and Shorthorn animals, purchased at the recent Calgary bull sale.

These bulls were placed with farmers' clubs where the farmers agreed to stablish a community breed centre. All stock on these farms are to be of the same breed and type, from which uniform carlots of commercial stock can be selected.

Three Angus bulls were placed at Engen, three at Endako, one Shorthorn at Prince George, one at Topley, two at Telkwa and four in the Burns Lake district. The Shorthorns were mainly of dual purpose breeding from dams with excellent milk records.

Two more shipments of bulls for distribution throughout this territory will follow at a later date. It is anticipated that about thirty bulls will be loaned to farmers in the central interior of B.C. by the Dominion Government this year.

University of Washington Loses in Rowing Meet at Lake Washington Saturday

SEATTLE, April 11:—University of California staged cleancut victories in the varsity and junior varsity events in the intercollegiate rowing meet on Lake Washington here on Saturday afternoon. The visitors were ten lengths ahead in the varsity race and also had a crashing victory in the junior varsity.

University of Washington won the event for freshmen crews.

Just An Old Mexican Custom

Don't be alarmed children, it's just an old Mexican custom to run about like this at festival time. The natives have been doing the tiger dance since the days of the Aztecs.

SPORT CHAT

Canada's challenge for the Davis Cup, emblematic of world tennis honors, will rest this year on the shoulders of the quartet which in 1931 met the United States team. Dr. Jack Wright, of Vancouver, Canadian singles champion; Gilbert Nunns of Toronto; Marcel Rainville of Montreal, and Walter Martin of Regina, again will represent the Dominion in the first-round matches against the United States team, tentatively scheduled to be played April 28-30 at the Chevy Chase Club, Washington, D.C.

The hospital list from the south, with the Dodgers leading in this respect, recalls the big part luck plays in a pennant race as far as injuries and accidents are concerned. Connie Mack once said that luck of the game of baseball, as far as the actual playing is concerned, means less than one percent in 154 games. But injuries and accidents may run as high as thirty percent against some teams. Star ball players who are hurt cannot be replaced with rookies.

Chasing a rainbow is a poor way of providing for a rainy day.

It is all right to take things as they come but it is well to remember that there are some things worth going after.

Some men use an automobile as a means of getting on a high horse.

Kergin Protests At Abolition of Agency at Anyox

H. F. Kergin, Liberal member of the Legislature for Atlin, protested in the House at Victoria last week at the recent abolition of the government agency at Anyox. He deprecated the arrangement under which men who were under obligation to the company acted as magistrate and coroner and controlled the town.

Hon. J. W. Jones, minister of finance, promised that the matter would receive attention.

HONOLULU TRIAL ON

Clarence Darrow Opposed By Imposing Array of Island's Legal Talent

HONOLULU, April 11:—With a most imposing array of Honolulu legal talent lined up against Clarence Darrow, celebrated Chicago criminal lawyer who is handling the defence, the trial of Mrs. Granville Fortescue, Lieut. Thomas H. Massie, her son-in-law and two United States naval seamen, E. J. Lord and A. D. Jones, who are accused of the murder of a Honolulu youth in the alleged "honor killing," got under way today when taking of evidence commenced. Practically all last week was taken up with the empanelment of a jury to hear the trial.

The youth, whom the party are accused of murdering, is alleged to have committed an offence against Massie's wife and Mrs. Fortescue's daughter.

Guide to Correspondents

The Daily News welcomes correspondence on live topics of the day or any other subject of public interest, but letters must be brief and to the point. The long-winded correspondent has no place in modern journalism.

Every letter must be signed by the writer, not necessarily for publication but as a matter of good faith and courtesy. All unsigned documents go to the waste paper basket. Letters of a caustic character must have the signature appended for publication.

Letter should be written on one side of the paper only. Correspondents must avoid personalities and the language should be such as would be allowed in the ordinary rules of debate.

FARMING CENTRES
FISHING CAMPS

It is the paper that is read by the fishermen, miners, workers and operators throughout a district twice as large as the three Maritime Provinces of the east.

When a person wishes a message to go to the people of Northern and Central British Columbia there is only one way of sending it, and that is through the columns of the Daily News.

The future is full of hope. The Daily News is making plans to keep pace with the progress of the country. No one can afford to be without it.

The cost is small.

The TRUTH ABOUT BRAN

WITH so many opinions about bran, it is well to know the facts. Here are the results of laboratory tests with bran:

Bran is a good source of Vitamin B. This vitamin helps tone up the intestines and keep them regular.

Bran also supplies "bulk" which further aids intestinal action. The "bulk" in bran is much like the "bulk" you eat in lettuce or other leafy vegetables.

This "bulk" absorbs moisture—like a soft sponge—and gently cleanses the intestines of wastes. Bran also brings the body needed iron for the blood.

A pleasant, safe bran cereal is Kellogg's ALL-BRAN. Millions of people have used it with satisfactory results over a period of ten years.

Two tablespoonfuls daily of this delicious ready-to-eat cereal are usually sufficient to prevent and relieve both temporary and recurring constipation. If you suffer from intestinal trouble not relieved this way, consult your doctor.

Kellogg's ALL-BRAN has a wonderful nut-sweet flavor. Enjoy with milk or cream, or use in cooking. Sold by grocers. Made by Kellogg in London, Ontario.

HELPS KEEP YOU FIT

How It Works

One of childhood's choicest queries has ever been and ever will be: "How does it work?" and it seemed a wholly enthralling idea to two young passengers, who recently travelled from Nottingham, England, to Lemberg, Sask., when Engineer Fred Munt, of the Canadian Pacific Railway" invited them into the cab of his huge "2800" type locomotive. The young travellers were Walter and Willie Wilson, aged 12 and 10 years, who journeyed alone from their grandmother's home in the Old Country to join their mother. They crossed the Atlantic in the Canadian Pacific liner Montclare and the Dominion on C. P. R. lines, making many friends and seeing many absorbing sights en route. Picture shows the interested pair and their kindly tutor in a brief explanation of the mysteries of the gauges of the great engine. And what boy, either in Canada or England, would not envy them?

CITY AUDITOR GIVES OFFICIAL STATEMENT OF CITY'S AFFAIRS

(Continued from Page 1)

the present financial condition: (1) Inability of taxpayers to pay their taxes, and (2) Exceptional expenditure in recent years. Minor causes are lower government grants received, less police fines, etc.

The following shows the slowing up in tax receipts during the last three years:

1929	
Tax levy, Gen. & Local Imp.	$318,000
Cash received during year	267,000
Unpaid at end of year	$ 51,000
1930	
Tax levy, Gen. & Local Imp.	$314,000
Cash received during year	259,000
Unpaid at end of year	$55,000
1931	
Tax levy, Gen. & Local Imp.	$318,000
Cash received during year	242,000
Unpaid at end of year	$ 76,000

That is to say the city last year was short in its estimated receipts $76,000 on taxes alone.

Another decrease in revenue is shown in government grants received:

In 1929—$28,000.
In 1930—$24,000.
In 1931—$23,000.

Exceptional expenditure accounts for the following:

	1930	1931
Relief	$6,000	$62,000
American Exchange		12,000
	$6,000	$74,000

Part of these relief payments were subsequently recovered from the government, but they had first to be paid out by the city.

The following bank statement shows the corresponding gradual increase of the city's indebtedness:

	1929	1930	1931
Jan 1	$50,000	$ 50,000	$100,000
Dec. 31	50,000	100,000	165,000

The bank statement is the measure at the end of the year as to whether the city has made good or not. It will be seen from the above particulars alone wherein it has fallen short, and it is therefore apparent how the deficit has arisen. Apart from the governmental system of borrowing, there are only two ways of meeting deficits. The one is to increase revenue, and the other is to cut expenses. Cuts in estimates, salaries and wages have been made for 1932, but these alone cannot meet the case. The other method, namely that of increasing revenue, has therefore also to be adopted and increased taxation is the result.

Disposition of proceeds of Sale of Electric Light Plant

This plant was sold in 1929 to the N. B. C. Power Company Ltd., for $375,000. At that date there were outstanding debentures against this utility amounting to $228,000, and under the city's Validation Act of that year it was provided that the city council should not make any disposition of any money received from the power company until a sufficient sum had been set aside to provide for the payment of interest and instalments of principal falling due from year to year on these debentures. After deducting $3,000, the expenses of transfer and sale of the plant, from the purchase price, $228,000 was set aside and specifically invested for the aforementioned purpose, leaving a balance of $144,000.

First of all let us follow this $228,000. In 1929 $23,000 of it was used to pay that year's debt instalments and interest, and $205,000 was invested in Dominion and provincial government bonds, so arranged that $15,000 of principal would mature each year. These instalments, plus the interest received on the investments, would yearly meet the annual instalments of the debentures as and when they fell due. So far, this is working out as anticipated and at December 31, 1931, the city holds $173,000 invested at $3,500 of surplus interest together making $176,500 which is $1,500 more than is actually necessary.

Now let us consider the balance of $144,000—being the surplus from $375,000 after deducting $231,000. The council agreed "that city bonds of approximately $128,000 be purchased therefrom and that $17,500 be applied towards 1929 revenue. It was also agreed that in future years $17,500 be applied from this fund each year up to and including 1935, and thereafter $10,000 per annum be used to pay off city bonds." The wording is that of the minute, and the intention is not clear, and whether succeeding councils would be bound by it is a matter of opinion. In any event it has not been carried out as I read it. City bonds have been purchased with it to the extent of $50,000 and $17,500 has been applied to general revenue for three years, while the balance of $41,000 has been used for general purposes and treated as a loan to general fund repayable when funds admit. There is no doubt but that it has been cheaper for the city to use this fund rather than borrow from the bank, but there has been no accumulation and there will be no "$10,000 per annum after 1935 used to pay off city bonds."

LOCAL WOMAN NEVER HAS HEADACHES NOW

Local woman suffered with headaches so badly that she used to have to go to bed, had been fitted with glasses by different specialists but still her headaches came back.

About two years ago this lady was fitted by G. F. Davey, Registered Optometrist in charge of the Optical Dept. of Max Heilbroner, Jeweler, and just the other day she informed us that she never has headaches now and just feels fine. The glasses which she had been wearing before were causing a mechanical error.

Glasses being of a mechanical nature the Optometrist has the advantage over others in that important branch of the work.

IS FINE PICTURE

"Broken Lullaby" at Capitol Theatre is Outstanding—War Romance Pleads For Peace

"Broken Lullaby," which is showing at the Capitol Theatre at the first of this week, is a moving and intelligent picture and so thoroughly outstanding that it is really well worth seeing. "Broken Lullaby" is a post-war story founded on the play entitled "The Man I Killed." The plot tells of a young French soldier who, in battle, kills a young German. After the war the memory of this combat haunts the young Frenchman until he decides to go to Germany, seek out the family of the man he killed and give them the young German's dying message. He does so and is received affectionately by the kindly father who believes him to have befriended his son. Finally he falls in love with the fiancee of the dead boy. This adds a new horror to the dreadful secret that he has been unable to reveal and, broken-heartedly, he tells the girl the truth. He wishes to tell the father also but the girl points out to him that, now he has almost taken the dead boy's place in the old man's affections, to tell him the truth would be like killing the son twice. The boy realizes the truth of her argument and finds peace in knowing that he is comforting the old father for his great loss.

The story is a touching one and carries a strong plea for peace. Phillips Holmes gives a fine performance in the role of the young Frenchman and Nancy Carroll is delightful as Elsa, the German girl. Outstanding, however, is the splendid acting of Lionel Barrymore as Dr. Holderlin, the father of the dead boy. This characterization, gentle, kindly and appealing, is one of the finest that Barrymore has ever done.

'Are Sin, Disease and Death Real?' Science Subject

The subject of the lesson-sermon in Prince Rupert Christian Science Society on Sunday was "Are Sin, Disease, and Death Real?"

One of the Bible texts was "Every good gift and every perfect gift is from above, and cometh down from the Father of lights, with whom is no variableness, neither shadow of turning." (James 1:17).

The lesson-sermon also included the following passage from "Science and Health With Key to the Scriptures," by Mary Baker Eddy: "Matter and its claims of sin, sickness, and death are contrary to God, and cannot emanate from Him."

The Pacific Great Eastern, which is building a railway from Vancouver to Prince George, has completed organization with J. W. Stewart as president. Timothy Foley is vice-president and general manager and D'Arcey Tate vice-president and counsel. R. D. Thomas is secretary-treasurer. Donald McLeod and Vernor W. Smith are other directors.—Twenty Years Ago Column, Vancouver Province.

SPENDING TO SAVE .. THROUGH

Advertising

Not many of us, these days, are troubled with so much money that we cannot spend it. But we are interested in spending the money we have, to get the most out of it.

One way—and not a new way, either—is to make a budget. Put down, week by week, the money that comes in. Put down beside it, week by week, the money that goes out. So much for food, so much for clothing, so much for rent. So much for giving, and for luxuries.

Where Advertising Helps

It won't always be easy, of course, to stay within the budget. That's where advertising helps you. Advertisements in this newspaper tell you how much rugs, butter, breakfast foods, dishes, homes, automobiles will cost, before you go shopping! They point out ways to save money. They show you how to cut a little here, a little there. And each day, they tell about new inventions, new products, new ways of doing things, that help make this life of ours very much worth living!

Let the Daily News Classified Ads. work for you.
