WHEAT PRICE CATAPULTS SENSATIONALLY IN WINNIPEG

Acquiesence of India to Plan Of Senator Pittman is Hailed as Important Metal Development

Canada is Only Important Producer Which Has Not Yet Spoken—Premier Bennett Heard Throughout Empire In Radio Address—Success of Parley Essential

LONDON, June 26: (Canadian Press)—India indicated to the world economic conference today her willingness to co-operate in the restabilization of silver as projected in the resolution of Senator Key Pittman of the United States. This was authoratively disclosed after a meeting of the conference silver committee at which Sir George Shuster, Secretary of the Treasury for India, was present. Delegates interested in the rehabilitization of silver said this was the most important event which could have happened to force the program to a successful conclusion.

India is the world's largest holder of silver, having on hand some 400,000,000 ounces. Her adherence to the Pittman plan, therefore, is considered absolutely vital for its success.

Experts say that, if the nations holding to silver agree to control the flow of the metal to market, it will be easy to fix and maintain a price.

Stabilization of silver prices is essential to the plan by which one-fifth of each nation's currency would be in silver. If the price can be fixed and maintained, there is a greater likelihood of the Pittman resolution being adopted by the major nations attending the conference.

Canada is now the only one of the principal holding or silver-producing countries which has not yet spoken on the question. It was declared in important delegation quarters that there was no doubt the Dominion would take a constructive stand.

China, with India a huge holder of silver, and Mexico, another of the principal producers, have expressed willingness to agree to the stabilization program.

Premier Bennett Speaks

Failure of the world economic conference would result in the establishment of state-controlled economic systems, Premier R. B. Bennett, leader of the Canadian delegation to the assembly, declared yesterday in a radio broadcast address which was transmitted from London throughout the British Isles, Canada and the United States. There were still problems, he said, which, until solved, "no permanent improvement can be secured."

The general level of wholesale prices must be raised, exchange stabilized, some international monetary standard established as soon as possible and channels of international trade cleared, the Canadian Prime Minister declared.

MOISTURE IS NEEDED

Alberta Grain Crop Feeling Effects Of Hot Weather

WINNIPEG, June 26:—In the Central Alberta territory during the past week weather has been mostly hot and dry with high winds, says the weekly crop report of the Canadian National Railways. Grains are coming along nicely but more moisture is necessary. Light damage is reported from hoppers at some points but, if further moisture is received within the next few days, the yield prospects will not be seriously diminished.

In the Camrose, Vegreville and Edmonton districts all grains are making good progress. Weather has been warm with dry winds reducing the surface moisture considerably. Good rains would be very beneficial. No heavy damage is reported from any source.

TRAIL TO BUTZE RAPIDS

The people who have been organizing and carrying out the work in connection with the cutting of the trail from the highway to Butze Rapids are doing splendid public work. It is the first time in many a day that any similar project has got beyond the talk or resolution stage. When the library was established there had been talk for years and many resolutions passed and committees appointed until someone commenced actual work and very soon the institution was established. It is to be hoped that the good start on the trail will result in the completion of the slashing and the building of the trail to be followed by a road. At any rate good work has already been done and it is to be hoped it will continue.

Possibly some people would like to spend the holiday next Saturday getting some health and public gratitude by exercising their muscles on the trail. Information as to what tools to take can be secured from T. Ross Mackay, chairman of the committee in charge of the work. People who wish can make up their own picnic parties. It has been suggested that the former members of the city council might like to let off some of their superabundant energy by slashing down a few trees.

SILVER TO THE FORE

Today's despatches bring the news that a big effort is being made in London to secure the stabilization of silver. If this succeeds, as there is every reason to believe it may, this part of the country will be greatly benefited. The silver mines of Portland Canal and Hazelton and Smithers and a number of other points will be able to operate if the owners are assured a stable market at a reasonable price.

The president visited Portland Maine, among other places on his way here.

ELKS LEAD IN SOFTBALL

C. N. R. A. Suffers Two Defeats and League Situation is Altered

The City Softball League situation showed a decided change on Sunday when the Canadian National Recreation Association lost its big lead and dropped into second place while the Elks put up a great fight for supremacy and practically cinched the first half.

The first game was between the C. N. R. A. and the Elks in which the latter came out on the long end of a 6-4 score. Both teams were out to win and it was a tough game all the way through, the Railroad boys being somewhat handicapped by the lack of a pitcher, Stiles having failed again to turn up. There was a lot of heavy hitting on both sides but most of it was pretty well handled until the sixth inning when the Elks got away and managed to hold their lead until the last.

The second game between the Grotto and the C. N. R. A. was won by the tobacconists by a score of 7-6. The lead was taken in turn several times by each team but in the eighth inning, the Grotto managed to get ahead and their opponents could not get past them again.

The third game of the day was played in the evening between the Elks and the Kaiens, the former winning by a score of 9-6. The Brother Bills took the lead in the third inning and, although the Kaiens fought every minute of the game they could not get ahead of their opponents.

Should the Elks defeat the Empress in next Sunday's game, they will walk away with the first half honors but, if it goes the other way there will be a three-way tie between the Elks, C. N. R. A. and the Grotto. The next game will be tomorrow night between the Grotto and the Navy.

The standing to date:

	W.	L.	Pct.
Elks	5	3	.625
C. N. R. A.	6	4	.600
Grotto	5	4	.556
Kaiens	3	5	.375

It's a wonderful feeling when you overhear a stranger talking and unexpectedly he says something that agrees with your point of view. In a cafe we overheard a gentleman suddenly say Pacific Milk is particularly good. We do not know him nor the origin of the remark, but there followed at once a high opinion of his judgment.

Feathered Stowaway

A pigeon that found itself "in the soup" was taken care of by a butcher, but will never end up in a pie, made the front page a few days ago when the Canadian Pacific liner "Empress of Britain" arrived at Quebec from Southampton with a homing pigeon on the list as a stowaway. The pigeon, eyeing the camera with a queralous expression, is seen above in the hands of J. Gibson, Chief Butcher of the Empress liner in whose keeping all travelling pets are placed.

Battered by storms after fighting heavy head winds for a number of hours the pigeon, which had been released some 250 miles west of Land's End in fog from the steam trawler "Ocean Lux", fluttered to rest on the tennis deck of the Empress of Britain. It carried a message showing time and place of release, and date of its last feeding. On the return of the big liner to England next week the feathered stowaway, after its two way crossing of the Atlantic will be thrown into the air to find its way home, with a message from Capt. Latta tied to its leg, in authentication of the strange story it will have to tell.

MOTORBOAT RACE FILM

Fast-Moving Comedy Drama Presented at Capitol Theatre Here

A fast-moving motorboat racing thriller comes to the screen of the Capitol Theatre here as the feature offering for the first of this week in "Fast Life," starring William Haines and Madge Evans with such well known actors as Cliff Edwards, Conrad Nagel and Arthur Byron in important supporting roles.

The story is that of a young motorboat mechanic and his assistant who are determined to get backing for a new type of engine. They finally get a wealthy boat builder to construct a craft using their plans but they have a serious accident and resort to piracy among the millionaires' yachts in the harbor. The two speed demons eventually get the boat in international competition which leads to a smashing climax.

There is a fine blend of comedy and drama in the picture which features some hair-raising boat-racing scenes at Catalina Island and Los Angeles Harbor.

MADE SALE POTATOES

Bulkley Valley Product Marketed in Prince Rupert as Result of Little Effort

Splendid potatoes were being given away or fed to pigs in the Bulkley Valley until the board of trade at Smithers took the matter up recently and with the support of the Prince Rupert Chamber of Commerce, secured a market for them. A carload of 23 tons was shipped to the city last Monday for distribution through Jack Preece from the farms of Charles D. Sieh and Alex. and William Bruce. They were of the Gold Coin variety.

Mr. Sieh had about 100 tons of potatoes this year and was unable to market them. He fed a quantity to pigs, gave away others and used some for fertilizer. Then, when L. B. Warner and Charles Reid of Smithers were in Prince Rupert for the assizes, they thought potatoes being served in restaurants here were inferior to the Bulkley variety. They started the agitation which resulted in the potatoes being sold here.

Bringing in some 100 passengers most of whom were round trip tourists to Alaska returning south, C.P.R. steamer Princess Louise, Capt. Arthur Slater, completing her first voyage of the season to Skagway, arrived in port at 4 o'clock Saturday afternoon from the north and sailed an hour and a-half later for Vancouver. Ten passengers left the vessel here while about half-a-dozen embarked here on board her for the south.

The Letter Box

OPEN LETTER TO THE COMMISSIONER

Dear Sir:—

The critics are beginning early on you. The school question is the topic of the day amongst those on relief. Every move you make will no doubt be criticized, principally by the non-taxpayers. They forget that you will have to make good to the bondholders and that we are so far in debt that it will take years to get out at the best we can do. So—borrowing your language—"it behooves us all to pull together" and do our best to shorten the time until we are all right again. More power to you.

TAXPAYER.

(This must end the open letters. In future all letters must be addressed to the editor, just as at a public meeting speakers must address the chairman and not individuals in the audience.)
