Body of Indian Girl is Found in Ninth Avenue Shack Sunday

The body of an 18-year-old Indian girl was discovered by city police on a bed face downward with head into a pillow in a cabin at 208 Ninth Avenue East shortly after 2 o'clock Sunday afternoon where the girl died allegedly after a drinking party Saturday night, and two white men are in the city jail today charged with supplying liquor to Indians.

The dead girl is Ethel Shanoss, age 18, of Skeena Crossing. An inquest into her death is scheduled to begin at 2 p.m. tomorrow. Pending inquest, the police are not speculating on the cause of death.

Held on charges of supplying liquor to Indians as a result of the alleged party are Robert Gordon Robinson, who occupies the cabin at the rear of 208 Ninth Avenue East, and John Wing.

The fourth member of the party, according to the police, was Effie Johnson, 17-year-old native girl of Kitwanga.

At 2 o'clock p.m. Sunday Constables Anderson and Cowgill, in response to a call to the Ninth Avenue address, found the body of the Shanoss girl on a bed in the cabin. There were indications that she had been ill. A bruise was noticed on the forehead. Robinson, who was said to have made the call, was taken into custody a short time later. Dr. W. S. Kergin was called and pronounced the girl dead. The body was still warm but death had probably been a little time previous.

According to the police, the two girls had arrived in the city Saturday night from Port Edward on a C.N.R. way freight, and had met John Wing down town. They were taken to Robinson's cabin about 11 o'clock where they were joined a short time later by Robinson.

The party was said to have consumed a quantity of gin before Wing left the place at 3 o'clock a.m. on Sunday. Robinson and the two girls stayed in the cabin.

According to the police, Robinson said that, when he and the Johnson girl awakened about noon Sunday, the Shanoss girl was dead.

An autopsy was held by Dr. R. E. Coleman last night, and Coroner M. M. Stephens has set 2 o'clock Tuesday afternoon as for the inquest.

The dead girl's mother is said to be working at Port Edward.

FAITHFUL FRIEND MOURNS PATTON—Along with the many millions who mourned the passing of General George S. Patton, Jr., was "Willie," the late general's pet bull terrier. Here, "Willie" is shown lying beside his master's belongings at Bad Nauheim, Germany, which await shipment to the United States.

Russians Were Promised Kuriles At Yalta Parley

SECRET DEAL FOR WAR ENTRY IS OUT

LONDON (CP) — Russia clamped three conditions, including outright Soviet possession of the Kurile Islands, into its agreement at Yalta a year ago to enter the Paficic war. This condition aspect of Joseph Stalin's pledge to fight Japan was disclosed when text of the long secret Big Three pact on the Far East was made public today. Secretary of State Byrnes is reported to have insisted it be the last of the wartime arrangements of its kind to be withheld from publication.

The Yalta agreement between Stalin, Roosevelt and Churchill also promised Russia Anglo-American support for a big power veto in the United Nations security council and for seperate UNO memberships for Russia and the Soviet Ukraine.

It is also revealed that lower Sakhalin Island was also promised to Russia as well as freedom of the ports of Darien and Port Arthur.

YUGOSLAVIA DEATH TOLL WAS HEAVY

NUERNBERG (AP) — The Axis invasion and occupation of Yugoslavia brought death to 1,650,000 persons—more than 10 per cent of the defeated population—the international military tribunal was told today. The Russian prosecutor submitted an order by Adolf Hitler, written ten days before the 1941 attack on Yugoslavia, which specified "Belgrade must be annihilated by continuous day and night air attacks."

The Russians also introduced what they said was a sworn statement by Field Marshal Nedic, wartime premier of German-occupied Serbia, that he paid money to General Mihailovich and that the Germans permitted it.

Philadelphia Transportation Tied Up By Strike

PHILADELPHIA — Public transportation of this city is tied up today as a result of 10,000 transit workers leaving their jobs as from midnight. A dispute over wages and working conditions is unsettled.

Three Trainloads Leave Medicine Hat for East Coast

MEDICINE HAT, Alta. — The first movement of German prisoners of war from Canada is under way. Three trains left here yesterday for the Atlantic coast to embark the prisoners on the Mauretania for Great Britain.

Weather Forecast

Prince Rupert — Cloudy and cool with occasional rain. Fresh southerly winds.

BUTTER RATION BEING REDUCED

Canadians Must Get Along With Less in March and April

OTTAWA — The butter ration in Canada will be cut from six to four ounces per week in March and April. This was necessary owing to temporary emergency, Hon. J. L. Ilsley, minister of finance, said.

The reduction will be effected by making one coupon effective every two weeks instead of two every three weeks. The coupons will be due March 7 and 21 and April 4 and 18.

The reasons for the reduced ration are decreased production, depleted reserve stocks and increased consumption. Another is the fact that civilian population is increased by 600,000 through discharge of people from the forces.

Mr. Ilsley suggests that the six ounce ration may be resumed after production increases in spring.

NEW YORK (AP) — The liner Queen Mary arrived here yesterday, having among those on board 1500 British war mothers, brides of service men recently returned from overseas, and 600 children.

Vancouver Tailor Is Robbed of $900

VANCOUVER (AP)—Three armed men held up Jack Young, proprietor of a Granville Street tailoring establishment, at his Nigel Street home Friday night and escaped with $900 in cash and more than $600 in checks.

Peace Army For Canada

VANCOUVER (AP)—A plan for Canada's post-war army, subject to shifting and progressive changes as scientific and mechanical development warrant, was announced by General F. F. Worthington, general officer commanding, Pacific Command, today. He said that it would be a people's army with three co-operative components.

First will be that component employed full time in administration, experiments, etc., known as the active force. The second is a part-time organization to be known as the reserve force, and the other component will be known as the supplementary reserve. The latter will be composed of those who wish to retain their connection with the army but do not desire to belong to the reserve.

British Columbia is to become Military District No. 11 under command of Brigadier E. C. Plow.

MORE SUGAR IS LIKELY

OTTAWA — The Prices and Trade Board predicted today that there may be an extra five ounces of sugar allowed for canning in May and July and later in the summer there may be a fifty percent increase in the sugar ration generally.

FIELD MARSHAL ALEXANDER OPENS GREAT UNO RALLY—Field Marshal Sir Harold Alexander, soon to be governor-general of Canada, is shown as he opened the great rally staged at London's Albert Hall as a welcome to the United Nations Organization delegates who arrived for the first UNO general assembly. The lord mayor of London and 400 provincial mayors attended the meeting.

INDONESIA IS STILL THE WORLD'S TROUBLE SPOT

LONDON (CP)—The trouble spot in the news is still Indonesia. Netherlands and Indonesian leaders discussed the situation in Batavia, Java, yesterday. The United Nations security council in London was called on to look in the direction of Indonesia, too. Soviet Vice-Foreign Commissar Andrei Vishinsky told the council that Russian and other nations were being treated with what he called inequality as far as Indonesia was concerned. Only Britain and the Netherlands know just what is going on in that particular area, he asserted. Vishinsky said the dispute may be the spark of a third great war.

Possibility that the Indonesian dispute might be shelved pending the outcome of current negotiations in Batavia between Dutch and Indonesian representatives was expressed in some quarters today as the security council prepared to resume debate on the Russian charge that "war is being waged" in Java.

Officials were cautious in commenting on final outcome of the controversy which was marked by a new round of acrimonious debate between Soviet Delegate Andrei Vishinsky and Foreign Secretary Bevin of Britain.

Some suggested, however, that the council might decide to await the Indonesian reply to the new Dutch proposal for an Indonesian Commonwealth before taking action on Vishinsky's demand that a five power investigating commission be sent to the Netherlands East Indies.

A spokesman for the unrecognized Indonesian republic said in Batavia today that a Dutch offer on Sunday to establish a commonwealth of Indonesia was a "starting point for talks but that is all." The official spokesman said that "many who expected something substantial were disappointed but I'm not because I didn't expect anything."

Railway Watchman Killed At Jasper

A Jasper railwayman was killed at 3:25 Saturday morning when he was struck by a westbound train while he was riding a hand-propelled velocipede five miles west of the Alberta divisional point. He was Andrei Cerivaici, a tunnel watchman, who apparently was unaware of the approaching passenger train.

AIRMEN VOLUNTEER

VANCOUVER — Western Air Command Headquarters announced last night at a campaign to obtain five hundred volunteers for overseas service by February 26 from the Command has been oversubscribed by about 300 percent. Air Force officials said the Western Air Command are setting the pace for the rest of Canada in volunteering for overseas service. The movement will allow early repatriation of men overseas.

TROUBLE IN EGYPT

CAIRO — Egytian students continued their demonstrations against the British yesterday. One thousand students of Fuad University barricaded themselves within the university and passed a resolution not to resume their studies until the prime minister has resigned. The demonstrations have resulted in one death and nearly one hundred persons injured in two days.

RUSSIAN ELECTION

MOSCOW — Probably the largest election in history was held yesterday. A total vote of almost 110,000,000 was expected in the Russian version of a general election. Every Soviet citizen eighteen or over was eligible to vote for deputies to the Russian Parliament. That was only one issue —the continued leadership of the Communist Party and of Generalissimo Stalin. Only one political party, the Communist, took part in the election.

TO CHOOSE AT ONCE

LONDON — France has lost an effort to delay selection of a permanent headquarters for the World Organization to keep the peace. The UNO permanent site committee has arranged to vote on a Dutch proposal to accept the findings of a group which recommended a permanent home for UNO in the Connecticut and New York area near Greenwich.

Fourth Arm of Defence Is Organized in Canada

OTTAWA—Hon. C. D. Howe, minister of reconstruction, yesterday announced plans the government is making to be ready for rapid conversion of Canadian industry to a war production basis should an emergency arise or should the Dominion be called upon by the United Nations Organization.

A new government - owned company, Canadian Arsenals Limited, is being organized as a fourth defence arm with the navy, army and air force. Several plants will be taken over by the company which would be so organized as to co-ordinate for war production at quick notice with civil plants such as those engaged in production of aircraft and in shipbuilding. Munition, chemical and explosive plants would be owned by the company.

JOBLESS GROUP WILL PICKET C.N.R. FOR WORD ON NEW SHIP CONTRACTS

A picket line will shortly take its place among the downtown street phenomena of Prince Rupert. Object of the placard carriers, inspired at a meeting of the "Jobs-For-All" Association Sunday night, will be to solicit public support for the need for clarification of the shipbuilding prospects of the local dry dock.

If the plan gets sufficient backing, a picket line complete with slogans such as "Rumors Don't Butter Bread" will take its place in front of Canadian National Railways downtown ticket office on Saturday afternoons and at the Canadian National wharf when the Prince Rupert docks here.

Mrs. J. R. Blakey, who acted as secretary of last night's "Jobs-For-All" meeting, made the picketing motion during discussion of a letter from Wartime Housing Ltd., Toronto, which concluded with the sentence: "It is rumored that your dock yard may become busy again and that unemployment in Prince Rupert soon may become a thing of the past."

Mrs. Blakey suggested that the source of the rumor be sought out, and moved that the association start picketing the Canadian National premises as a gesture toward that objective.

The meeting of 15 members endorsed the motion. Attitude of other labor organizations in the city is not yet known but at least two union delegates supported the idea in principle.

Also supported was a move to organize a city-wide jobs conference with the idea of sending a delegation to Victoria to seek action at the next session of the Legislature for greater use of Prince Rupert's port and shipbuilding facilities.

The Industrial Development Committee will be contacted as will the city's labor organizations.

Mrs. Blakey saw the city-wide conference as part of a move to get "the whole town in an aggressive struggle for jobs for all."

"I feel that the provincial government can wield strong influence with the federal authorities in behalf of industrial activity in this province," she sad. "Vancouver is to have a labor lobby at the forthcoming session of the legislature and I think that Prince Rupert should have one as well."

Chairman of the meeting was Jack Parker, Association president.

TYEE TO GET NEW FLOATS

Port Essington Ferry Landing May Move From Haysport

Rebuilding of the ice sheer and marine float at the Skeena River village of Haysport, scheduled to begin this spring, will be delayed while federal Department of Public Works engineers investigate the feasibility of changing the float site to Tyee, about two miles up river from Haysport.

Damage Is Done—"Y" Tightens Up

Owing to vandalism to lavatories and washrooms and disappearance of equipment, it has been necessary to tighten up again on civilian use of the Y.M.C.A. War Services building, it was announced today by Pete Collins, local supervisor. Henceforth the only civilians allowed use of the building will be strictly teenagers and they will have to be in charge of responsible parties.

MARSHAL STALIN WINS HIMSELF

MOSCOW — Marshal Joseph Stalin has been returned to his seat in the Soviet Parliament as a result of yesterday's general election. Full results of the 1400-seat voting will not be known until tomorrow.

International Limelight

The publicity that thas been given British responsibility in Greece and Indonesia as a result of Russian and Ukrainian complaints is so much to the good from the British point of view for Britain's actions in Greece and Indonesia have frequently been obscured and distorted by the emotions surrounding these issues and for political reasons.

UNO has much to gain by refusing to evade delicate issues such as these and the United Kingdom has nothing to lose from an international inquiry into their motives and actions.

In fact Foreign Secretary Bevin in his cards-on-the-table speech to the House of Commons in November invited just such action. "Great Britain," he asserted, "will not be afraid and will not in any way decline to have anything it does or wants or seeks to promote discussed in open assembly, at the United Nations, if necessary."

It may be pointed out in passing that the cases of Greece and Java are by no means parallel to that of Iran. In the letter, the question was raised not by the United Kingdom government or any third party, but by the Iranian government itself. In fact the United Kingdom government attempted to get the U.S.S.R. and Iran to settle the matter out of court. In the case of Greece and Indonesia, the question was raised by the Soviet and Ukrainian delegations respectively without consultation with the Greek or the Dutch governments and without attempting to get these governments and Britain to settle out of court. And indeed, Mr. Sophoulos, the Greek prime minister, issued a statement that United Kingdom troops are in Greece at the invitation and with the full co-operation of the Greek government for the purpose of maintaining order.

Canada's Decontrol Policy

In outlining the process of decontrol, Prime Minister Mackenzie King summed up the government's position in these words:

"There is a great deal of difference between a gradual and planned policy of adjustment to post-war conditions, which may involve some modest increase in prices; and a policy of rapid removal of anti-inflation controls. The objective of the government's policy is to continue to protect the people of Canada from a sharp upswing in prices and living costs, and from the inevitable aftermath of deflation, unemployment and distress. Its purpose is to protect the value of wages and wartime savings. It is aimed to help open larger markets both at home and abroad, and thus hasten progress toward the high level of peacetime production and employment which is our leading economic objective. With the intelligent support of the Canadian people Canada's anti-inflation program will achieve its aim. It will bring our country through the most destructive war in history and its aftermath without the economic and social disruption which has bee nthe sorry heritage of past conflicts."

Co-operation

The family is the chief character building agency in the lives of our children, says "Anglican Outlook." It has been stated by a child training expert that "the Church alone can never make children Christian, it can not make them religious, it can not even make them moral. If a child from a good home does something anti-social, it is his parents who must be blamed, not his Church."

It is to be deplored that the modern trend is to leave to the school and Church the matter of the child's Christian education. In spite of the fact that much of the modern child's time is taken up with day school activities, organized recreation, music and dancing lessons, approximately nineteen hours of a child's day are still in the parents' hand. Parents can even influence the five school hours through personal suggestion and Home and School Associations. Someone will say that twelve hours of the day are spent in sleep, but even the character of sleep is influenced by the events of the day and its closing moments.

The quality of the parent's own life is an essential in the education of the child. Children initiate adult patterns of thought and word. We teach children through our own actions. As the adults in the family act, so will the children. All the details of family life should be lifted from the common place to a spiritual level to make the teaching of the Sunday Church School effective. It is only as the Church and home are linked closely together that the lives of our children will be strengthened spiritually and become truly Christian.

Can Spring Be Far Off?

Well, it has arrived!

It is thicker than during the war years, but the tomatoes are just as red—bigger, if anything—and new varieties of flowers bloom from the pages in a riot of color.

We are reminded by it that earth soon will be "defrosting" and that another planting season is almost at hand. Winter is on the wane and only a few more weeks of ice and snow remain.

Once it has served its purpose it is as useless as a wrong telephone number; nevertheless in the cellars of many a home today there are bulging shelves of preserves that bear substantial testimony to its short-lived usefulness. Frequent trips to "cold closets" these winter days bring high compensation to those who labored in Victory Gardens and over canning kettles.

We are reminded, too, that this is not the year to discontinue these gardens. It is, instead, the year to double vegetable-raising efforts as an indirect contribution to the program of feeding hungry nations depleted of food supplies by war.

Yes, the seed catalogue is here. Has that seed order been mailed yet?

THE MUSKOX "FLASH"—Designed by members of force Muskox and by Pte. Irene E. Mullin is circular in shape. It will be worn by the moving force itself as well as members of the three services participating in the exercise. Embodying all three services the three-toned patch—pale blue, silvery-white and black, shows a naval vessel, aircraft and igloo (in which the moving force lives much of the time) against stark white mountains of the barren Arctic where "Exercise Muskox" is taking place. COMMUNITY CENTRE?

Editor,
Daily News:

The official opening of the Civic Centre building will surely be a notable milestone in the history of our city. It will be the attainment of an objective that was planned years ago and now made possible chiefly for two reasons. One is that it is the result of the leadership of the civic centre committee which carried out the work over a long period of time with praiseworthy determination in spite of many difficulties and at times even opposition. The other factor is, of course, the support given to the plan by the citizens and in the recent war years by the many wartime workers and members of the various armed forces stationed here. The opening will surely be a reward to those responsible.

But the opening of the building will not guarantee the success of the Civic Centre. There are still problems to be faced and overcome. The success will depend upon how the Civic Centre will meet the needs of the community. There are some persistent rumors that are not helping the situation and it is in order to bring these out in the open that I am writing this letter.

One is that the centre will be available only for dances out on by the Civic Centre committee. It is stated that a local unit of an empire-wide organization has been refused permission to stage a dance on these grounds. If the centre is to be run to suit the committee rather than to suit the community the Civic Centre will never be a community success. It must support the community if it hopes to get community support.

The other criticism is the lack of spectator accommodation for basketball and other athletic entertainment. The original plan was to have ample spectator accommodation on the west side of the gymnasium. However, in order to provide living quarters for the staff of the Y.M.C.A., this side was made into rooms, but the general understanding was that the wall would be pulled down and seats built. Now rumor states that the wall will not be pulled down. If so, spectators will be very limited in number and a big source of revenue will be lost.

Further, it would be nice to know if accommodation for the city library and museum could be found in the Civic Centre.

I realize that the committee has very many problems to face but I feel that a statement from the committee to the public clearing up the situation as far as the above mentioned items are concerned would be all to the good, both of the committee and the citizens as a whole.

JOHN S. WILSON.

BANKING IN ACTION

The Canadian Bank of Commerce has pioneered by opening branches with the first rush to new mining fields. Cariboo, the Yukon, Cobalt, Northern Ontario and Quebec, Flin Flon and Yellowknife are only some of the names associated with its service to the mining industry.

THE MINING INDUSTRY contributes directly to the national wealth of Canada by the output of its mines. It also influences the economy of the entire Dominion; for it creates widespread employment, purchases great quantities of food, clothing, machinery and equipment all over Canada, and builds and maintains whole communities which in turn add to Canada's prosperity.

In its day-to-day operations mining requires many banking services. This is Banking in Action.

"KANSAS CITY KITTY" HERE
With "Pan-Americana" in Comedy Bill at Capitol Theatre

"Kansas City Kitty," a new Joan Davis laugh hit, and "Pan-Americana," a comedy stressing romantic Latin-American melody, comprise a double bill program coming to the Capitol Theatre on Tuesday and Wednesday of this week.

An amusing story of the music publishing business, Miss Joan Davis is cast in "Kansas City Kitty" as a learn-the-piano-by-ear-in-six-easy-lessons teacher who inadvertently becomes the publisher of a song hit. Trials follow thick and fast mainly because of the fact that her song is plagiarized. There is a jam over borrowed money but Joan finds her way out of her troubles. Jane Frazee and Bob Crosby head the supporting cast and there are a number of song hits, in addition to the title number, including "Pretty Kitty Blue Eyes," "Nothing Boogie From Nowhere" and "Tico Tico."

Featuring Phillip Terry, Audrey Long and Robert Benchley, "Pan-Americana" is the gay store of a New York magazine's quest for beauty and talent in Latin-America. There is an array of Spanish and Portuguese songs and dances as the background for a mirthful romantic plot.

POLES TO BE SLAVES
Such Was Intention of Hitler, Nuernberg Trial Hears

NUERNBERG (AP) — Hitherto secret notes of Martin Bormann revealed Saturday that Hitler abandoned plans for the complete extermination of the Polish people in 1940 in order to make the Poles the permanent slaves of the "master race."

Notes submitted to the International War Crimes tribunal by the Russian prosecutor were of the 1940 conference between Hitler and Bormann. Bormann, Hitler's missing deputy who is being tried in absentia, wrote that Hitler had specified that Poland should be treated like a large labor camp.

The trial also heard that at the time of the Munich pact in 1938 Hitler was opposed to war as Germany was not ready.

Leslie Bing, managing director of J. H. Todd & Sons Ltd., and R. W. Sinclair, general manager, are sailing tonight on the Princess Adelaide on their return to Victoria after a brief visit to Inverness Cannery on inspection duties.

ORIENTAL SHIP SUBSIDY ASKED

Prince Rupert Chamber of Commerce executive council, at a session Friday afternoon decided to have a brief prepared for submission to the federal government seeking subsidization for steamship sailings from this port to the Orient. This is separate and in addition to representations which are currently under way through the local industrial development committee requesting subsidy for sailings from here to the United Kingdom. A committee consisting of J. T. Harvey, Arthur Brooksbank and G. W. Nickerson was appointed to pursue the subject of the Oriental brief and the brief is to be ready for the consideration of the Chamber of Commerce at its regular March meeting.

Friday's executive council meeting heard a report from J. T. Harvey on plans being advanced for a meeting of the Pacific Northwest Trade Association in Prince Rupert in early summer, possibly timed in conjunction with the annual convention of the Associated Boards of Trade of Central British Columbia at Terrace.

AFRICA AID TO BRITAIN

City of Johannesburg First To Respond With $450,000 Recommendation

CAPETOWN (AP)—Prime Minister J. C. Smuts, patron-in-chief of the People of Britain Fund, officially launched the drive calling on the men and women of South Africa to give generously. He said it was unnecessary to set any targets for such an appeal for the goal was already set by the boundless gratitude and admiration felt by South Africans for the service that Britons have rendered to the cause of man.

The city of Johannesburg was the first to respond to the appeal. A committee there recommended that the city council should give £100,000 ($450,000) to the fund, payable in two years.

Purchase of food for the United Kingdom will be given first priority but the decision of the national committee is that no food will be bought if the purchase aggravated the present shortage in the Union.

The Salute to Britain Fund which collected £170,000 in Natal now is associated with the national effort. The money was allocated on the condition that it should not be spent on food. Contributions have been pouring in from all parts of the country and up to date more than £400,000 has been received.

NEW HAZELTON

Natives of this district are preparing to make representations to Dominion Parliament in connection with the proposed revision of the Indian Act. The representations will go to Ottawa through a delegation of the Native Brotherhood of British Columbia.

After eighteen years of service at Hazelton, A. S. Irvine, manager of Government Telegraphs at Hazelton, will leave the service at the end of this month. His future plans have not yet been decided upon but he will at first join Mrs. Irvine and young son at Fort St. James.

Jack Reynolds left last Thursday to spend a week at Houston.

The Senior Young People's Group met on Thursday evening at the home of Miss Gloria Benson in Hazelton.

Miss Edith Milton has returned after spending a vacation at her home in Milton, Alberta, and is back on duty in the Post Office.

Carl Vedderly of Smithers is visiting at the home of Mrs. Love in the Kispiox.

Robert Benson has received his discharge from the Royal Canadian Air Force and is expected home in Hazelton shortly.

Private William Stevens has returned home from overseas service with the Canadian Army.

Miss Mary Sargent, who left Hazelton recently for Vancouver, took with her a bundle of fur worth $4000. She expects to be away about a month.

Miss Ena Campbell, R.N., formerly lady superintendent of the Hazelton Hospital, recently received her discharge from the Royal Canadian Air Force and has now become lady superintendent of the Queen Charlotte City Hospital.

New Satin for Dress Designs

LONDON (AP)—If the Board of Trade and other government departments listen to pleadings of British fashion designers to use some of the materials developed by scientists during the war, women should soon have some fun with their new clothes. There is one fabric, a satin material which technicians call "photoluminescent." It glistens in the dark with the same ghostly glow as a luminous watch face. It was employed to cover the landing paddles used at night on aircraft carriers. The fabrics made of plastics for use in equatorial war zones will give designers enormous scope. One material, used by Britain's Royal Air Force for rustproof insect sceening, should be popular for office suits, for ink, grease or stains can be removed without blemish with a damp cloth.

Modern Etiquette
By ROBERTA LEE

Q. What should one do when introduced to someone whom you have met before but who shows plainly that he or she does not remember the occasion?

A. It would be better to merely say, "How do you do" and not recall the other occasion.

Q. When one is notified that a girl is engaged to be married it is necessary to send a gift to her?

A. No, it is not necessary.

Q. What are some of the things known as "finger foods"?

A. Celery, radishes, olives, corn on the cob, cookies and bon-bons.

HOW CAN I ? ? ?
By ANNE ASHLEY

Q. How can I poison ants?

A. Sprinkle on the shelves and around all the haunts of ants a mixture of holf borax and half sugar. This will poison every ant that finds it.

Q. How can I ease the arms when doing hand sewing?

A. When doing a great deal of hand sewing, a convenience is to place a pillow in the lap and keep the sewing on the pillow.

Q. How can I remove hard oil from glass?

A. Powdered pumice-stone is probably the only thing known that will remove hard oil from glass.

A LIFE'S WORK

If a person learned the names of 25 new insects each day, it would take him more than 60 years to memorize all those which scientists have described and catalogued.

LEICESTER, England (AP)—Investigations have been made here during the last five years with the object of developing new methods of air purification for London and other large industrial cities.

Vegetables...Can Be Served To Tempt Jaded Appetites

Many homemakers are having difficulty these days, in tempting jaded winter appetites. Perhaps your family has become tired of turnips, onions, carrots and parsnips, always served in the same way. This brings up the ever recurring problem of "what-to-serve."

There are numerous ways of preparing vegetables besides plain boiled, steamed or baked. They may be served as escallopped dishes, souffles, croquettes or stuffed. For the stuffing, use other vegetables or a savoury filling.

Instead of serving peas with diced carrots, a combination which is as familiar as liver and bacon or ham and eggs, why not try hollowing out the carrots, shaping them at both ends to represent a boat and then filling them with peas or green beans. The left-over carrots may be used in soup or a salad.

Another quick and easy method of cooking vegetables, is called "panning." For each quart of prepared vegetable allow two tablespoons of mild-flavoured fat or drippings. Melt the fat in a heavy flat pan, add the vegetables and cover closely to retain the steam. Cook slowly until tender, but not mushy. Stir occasionally to prevent sticking. When ready to serve, season with salt and pepper to taste.

Home economists suggest that you be "vegetable-wise." Use vegetables as soon as possible after purchasing. Always store in a cool place. Wash green thoroughly. Scrape or peel vegetables as thinly as possible. Plan to prepare vegetables just before cooking to avoid soaking in water, with subsequent loss of flavour and nutrients. Cook only until tender, in as little boiling, salted water, as possible. Use a tightly-covered pan. Save the cooking liquid to be used in soups, gravies or sauces. Season carefully—elaborate seasonings destroy the natural delicate flavour.

Panned Shredded Carrots

2 tablespoons mild-flavoured fat
4 cups shredded carrots (about 9 medium carrots)
½ teaspoon salt
Dash of pepper
Pinch of curry powder
1 teaspoon vinegar
2/3 cup water

Melt fat in heavy pan. Mix carrots with seasoning and vinegar. Add water and cover tightly. Cook slowly until tender, about 15-20 minutes, stirring occasionally. Six servings.

Parsnip Croquettes

3 cups mashed parsnips (about 5 medium parsnips)
1 egg yolk
⅛ teaspoon pepper
¼ teaspoon celery salt
½ teaspoon salt
1 tablespoon melted butter
Sifted dry bread crumbs
1 egg white
2 tablespoons water

Combine parsnips, egg yolk, slightly beaten, seasonings and butter. Shape into rolls about 2½ inches in length. Roll in crumbs, then in slightly beaten egg white to which the water has been added. Roll in crumbs again. Reheat and brown under broiler or saute in hot fat. Six servings.

● Authorities say the difference between husky children and those who are poor eaters, underweight and nervous is often simply a matter of proper nourishment, especially an adequate supply of vitamins.

But vitamins alone are not enough. For authorities now agree that vitamins do not work alone. They work as a team with certain other food elements.

For this reason, thousands are switching to Ovaltine. Unlike mere "vitamin carriers," Ovaltine food beverage contains not only extra vitamins but nearly all the precious food elements needed for health and top vitality. These include Vitamins A, B_1 and D, the important minerals calcium, phosphorus and iron, high quality proteins and quick energy fuel-food—a combination of food elements authorities agree are needed for best results.

So, if *your* child is thin, nervous and not developing properly, why not turn to Ovaltine as thousands are doing. Three normal meals plus two glasses of Ovaltine a day give your child all the extra amounts of vitamins and minerals needed for health and top vitality. 165

WEEKLY RATION FASHION for a twosome

SUN.	MON.	TUES.	WED.	THU.	FRI.	SAT.
Roast Veal	Cold Roast Veal	Omelet	Curry of Veal	Broiled Liver	Fish	Individual Meat Loaves
Group B	left-over	unrationed	left-over	unrationed	unrationed	Group C
3 lbs. 2 coupons						½ lb. 2 tokens

If your ration budget indicates a credit of a couple of tokens saved from past eating, you may wish to exchange two full coupons for a Sunday roast. A three pound rolled shoulder of veal should provide for three dinners, any one of which might include a guest or two. A tasty dressing, good brown gravy and baked orange halves are excellent co-partners for its first appearance. And because roasts are not every week occurrences, you'll doubtless appreciate it sliced cold for Monday's dinner. On Wednesday, a curried dish with noodles pinch-hitting for the scarcer rice, will revive the remnants. Eggs, now so market-plentiful and reasonably priced, suggest themselves for Tuesday. Whipped into an elegant omelet, served with a colorful vegetable or two, they will satisfy the most discriminating taste. A boon to your ration status as well as your nutritional level, would be liver on Thursday. Friday is yours for a fish selection. And on Saturday two tokens will procure half a pound of hamburger for a meat loaf mixture. To give this old standby a new appearance, bake it in custard cups or muffin tins. Then unmould and serve individually with your favored sauce or relish

VANCOUVER IS GETTING BAD

Ten-year High for Violent Robberies, Car Thefts and Traffic Accidents

VANCOUVER (CP)—Violent robberies, car thefts and traffic accidents reached a ten-year high in Vancouver in 1945. Police Chief A. G. McNeil said in his annual report Friday to the board of police commissioners. He listed 247 violent robberies, 1[illegible] cars stolen and 3800 traffic accidents.

BILLION NEEDED

Erection of new churches and refurbishing the battle-scarred towns of Europe would cost an estimated one and one-half billion dollars.

Students Jam Trades School

Toronto Training and Re-establishment Centre Provides Many Courses for ex-Service Men and Women

By NORMAN ALSTEDTER
Canadian Press Staff Writer

TORONTO (CP)—Dominion and provincial government may not see eye to eye on some matters, but at rehabilitation centres across the country they are going all out to smooth the path for Johnny and Janey Canuck who have discarded uniforms for overalls and smocks.

The Toronto Training and Re-establishment Institute, largest of its kind in Canada and an innovator in several fields, has some 3,700 men and women taking vocational, matriculation and commercial courses and as many more are waiting to enrol.

A joint effort of the federal and provincial governments, the school gives more than 24 courses ranging from hairdressing to electronics. They include plumbing, tool-making, sheet metal work, graphic arts, needle trade, barber science and horology (art of clockmaking).

Students from Vancouver to Halifax have come to the school which is part of a Dominion-wide scheme for training of ex-service personnel. They receive the same rehabilitation grant as those attending university—$60 a month for single and $80 for married students. Some courses have a Dominion-wide representation because the diversity of equipment could not be assembled elsewhere.

H. H. Kerr, Ontario regional director of the plan which has ten similar establishments in Ontario and also centres in other provinces, says the Toronto unit is the largest. There are 10,000 ex-service personnel training in Ontario under the scheme which includes those training on the job in industrial and commercial establishments as well as those taking correspondence courses.

The plan is a development of the war emergency training program which prepared men and women for war industry and trades in the armed forces.

Covers Whole City Block

The Toronto unit, an initial training school of the R.C.A.F. during the war and previously the Toronto Normal School, consists of eight buildings spread over a city block. Every foot of floor space is used, some classes spilling over into the corridors.

The hairdressing school has set up shop in the building where fledgling pilots formerly put Link trainers through complicated gyrations. The 70 students taking the six-month course are a cosmopolitan group including men from Venezuela and Australia who served in Canada's forces. Men students, some formerly air force officers, and tankmen outnumber the women.

P. H. Huta of Regina chief instructor in hairdressing, says there is no course in the country which equals the instruction given here. Modelled on the curriculum of the Los Angeles Polytechnic School, students begin work on strands of hair mounted on a block of wood.

"We find that newcomers are rough at first, so we set them to work on each other before they are allowed to touch a customer," Mr. Huta said. "There is a waiting list three weeks long for permanent waves by seniors which the school gives at cost price. More than 100 men and women are waiting to take the course."

Most departments could double their attendance immediately if space and instruction were available. To accommodate as many as possible, courses are run on two shifts, one starting at 8 a.m. and the other at 3:20 p.m. The Department of Veterans Affairs which controls applications has a waiting list as large as the present enrolment which includes some 1,500 in vocational training and the remainder in matriculation and commercial courses. Amputation cases are given top priority for enrolment.

Needle Trade Course Popular

First of its kind in Canada is the needle trade course. The workshop is set up in the form of a factory where 25 students work at cutting, pressing and finishing. The instruction is based on 75 per cent practical work and 25 per cent theory.

There is a job waiting for every graduate of the course, said M. Feldt, chief instructor in needle work and formerly of the Wartime Prices and Trades Board. Interest in the work being done here has spread to other provinces and a committee is coming from Quebec to study the method of instruction.

"There is a wonderful spirit of camaraderie and almost no question of difficulty in discipline," said J. C. Boylen, registrar. Students are industrious and serious-minded in their preparation for trades, commerce and university.

The school was started in October, 1944, and it is expected it will continue at least until all those desiring instruction have completed their courses.

BLACK HAWKS ON TOP AGAIN

Boston and Canadiens Tied For Second Place in National Hockey League

NEW YORK (CP)—A tie game with the New York Rangers last night sufficed to put the Chicago Black Hawks into the leadership of the hectic National Hockey League race with a scant point over the Boston Bruins and Montreal Canadiens now tied for second place. Two week-end victories for the Canadiens—over Chicago at Montreal Saturday night and over Boston on Bruins' ice last night—brought the Montrealers once again strongly into the first place contest. Toronto also had a good week-end, winning over Detroit at the Maple Leaf Gardens Saturday night and tieing at Detroit last night.

Next games will be Wednesday night with Detroit at Boston and Canadiens at Chicago.

Week-end National League scores:

Saturday
Toronto 4, Detroit 1.
Montreal 6, Chicago 2.

Sunday
Toronto 2, Detroit 2 (tie).
Chicago 2, New York 2 (tie).
Canadiens 2, Boston 0.

A six-months-old Indian baby, said to have been given poison pills in mistake for baby pills, died in hospital. An inquest was ordered by the coroner.

City Council ordered a letter sent to Minister of Lands T. D. Pattullo offering to exchange the municipal riparian rights in Cow Bay for 300 feet of water frontage east of Cow Bay. This would have allowed the filling in of Cow Bay by the railway company.

The Terrace News in a front page editorial turned all its guns on Prince Rupert for being greedy. For its population, the editor said, Prince Rupert probably had more public money spent on it than any other city in Canada.

Today in Sports

Chicago Black Hawks have again taken over sole possession of first place in the National Hockey League. The Hawks moved out in front by battling to a two-all draw with New York Rangers last night while Montreal Canadiens whipped Boston Bruins two to nothing. Boston, who shared first place with the Hawks, now are tied with Montreal for second place, one point behind the Hawks. There was one other game in the N.H.L. last night. At Detroit, the Toronto Maple Leafs and Detroit Red Wings fought a two-all draw.

In the Chicago-New York game, the Rangers came from behind with a two-goal rally to tie the game. The Hawks scored their two goals in the second period on shots by Pete Horeck and Clint Smith. The Rangers got one of them back before the second period ended when Cal Gardner scored. In the third period Ab Demarco's goal tied the game.

Canadien's victory over Boston was Bill Durnan's fourth shutout of the season. Glen Harmon and Bob Fillion scored the Canadien goals. In the Detroit-Toronto game, the Leafs had a one-goal lead early in the first period when Nick Metz scored. Detroit wiped it out when Bill Quackenbush and Murray Armstrong scored before the game was bagged in the second period.

The Montreal Canadiens and the Toronto Maple Leafs combined Saturday night in their home ports to keep the National Hockey League race a hot one in its closing stages. In Montreal, the Flying Frenchmen trimmed the Chicago Blackhawks 6-2 to chop the lead off the edge of the league-leading Hawks and Boston Bruins down to one game. In Toronto, the Maple Leafs trounced the fourth-place Detroit Red Wings 4-1, to move two games off a playoff spot.

The big gun for the night for Montreal was Billy Reay with two goals while Kenny Reardon, Leo Lamoureaux, Bobby Filion and Jimmy Peters each added singles. Clint Smith and George Allen scored for the Hawks.

In Toronto, Billy Taylor gave the fans a two-goal scoring display with Gaye Stewart tacking up assists on each of the markers besides scoring once himself. Gus Bodnar made the fourth Toronto score. Carl Liscombe narrowly saved the Detroiters from a whitewashing.

SERVED WITH FAMOUS TANK

Trooper K. Gerow of Burns Lake Has Returned Home From Overseas

BURNS LAKE—One of the original members of the crew of the Sherbrooke Fusiliers Regiment's famous tank "Bomb," Trooper K. Gerow arrived home recently, having crossed the Atlantic on the troopship Lady Rodney.

The tank "Bomb" is the only Canadian tank to have gone through the entire European campaign, from "D" day to "V" day; without once being knocked out of action or being out for repairs. Although the tank received some minor damage through enemy action all the necessary repairs were made on the spot by the crew themselves.

The tank itself has been brought back to Canada and will be used as a memorial at Sherbrooke. It will be given a place of honor in the Quebec city to perpetuate the memory of men and women of Sherbrooke who served in the war.

RUP-REC FITNESS FIRST

WHATS DOING AT PRINCE RUPERT RECREATION COUNCIL GYMS

BY JIM NAST

MODERN LITERATURE STUDY GROUP—One of the notable developments of the years of World War II has been a tremendously increased interest in reading. Undoubtedly, it is because we feel the need to build in our minds some certainty that we are equipped to meet each problem as it arises. In appreciation of this need locally the adult education program, to be put into effect at the Civic Centre, could include a worthwhile and very pleasurable couse on the novel and on modern poetry. As in the case of all our activities we would want this to be in response to the wishes of the public.

The course would offer valuable material from the Department of University Extension, including "The Development of the Novel," "The Twentieth Century Novel" "The Short Story," "Contemporary Poetry" and the members of the group would decide which sections they wished to emphasize and how much outside reading they would do.

Besides the value of discussion, under the guidance of a capable leader, members would have the privilege of using the collection of novels and books of poetry available for the use of the group.

Those who already realize the way in which fiction and poetry satisfy a spiritual hunger that man has known in every age will enjoy sharing this experience. And very welcome also would be people who feel they had yet to acquire a genuine appreciation of books which have literary value.

Perhaps we are emphasizing too often in this column the benefits which people will derive from the activity programs now being planned for the Civic Centre. We are not forgetting, however, that people will have much to give in the form of ideas and of service. In the past the public responded generously when asked for financial support of the long-dreamed of Civic Centre. Now that it has become a reality we are confident that the public will be equally generous in its contributions to the building of the intangible part—the soul—which will make our "house" into a "home."

What's on Tonight—

Y.M.C.A. Gym—5 to 6 p.m., high school basketball; 7 to 8 p.m., girls' leaders' class; 8 to 9 p.m., men's leaders' class.

SEEK TRUTH ON RUMORS ABOUT SHIP BUILDING

Delegates to Prince Rupert Labor-Progressive Council meeting Saturday warned against any abatement of the campaign to win ship contracts for the local dry dock on the basis of rumors of possible future contracts.

"Either the rumors are true or they are not true," stated Chairman Doris Blakey, "If they are true then the announcement of the C.N.'s intentions should be made in unequivocal terms so the people here will know where they stand. If they are not true then it signifies that they are originated with a purpose of dispelling the strong local campaign for contracts. In either case, renewed strong representations would seem appropriate."

The council decided to despatch a letter to Finance Minister J. L. Ilsley at Ottawa protesting the easing of price ceilings on 300 items and the announced prospect of further removals of ceilings on other goods. "It would be shameful," the letter declared in part, "after Canada's magnificent fight against inflation throughout the war, to surrender to the pressure of the minority who want wholly-unjustified increases in order to swell their already swollen profits as revealed in government figures. Such a move can only bring great hardship to the working people of Canada since it will likely result within the coming period in a general 25 per cent increase in the cost of living."

RUSSIAN DEMAND IS NOT FAVORED

United States Wants UNO Trusteeship for Tripolitania And Then Independence

WASHINGTON, D.C. (AP)—The United States has given Moscow a broad hint that it does not favor the Soviet demand for sole trusteeship in Tripolitania, conquered Italian colony in North Africa. State Secretary Byrnes, instead, proposes a ten-year trusteeship under the United Nations Organization and then complete independence.

WINTER SCENE

'Tis lonely on the Skeena now,
'Tis lonely with no place to go.
The sawmills are idle, the trucks they cannot haul,
Because our roads are blocked with snow and may stay that way till fall.
Some say it is the government and some say it is fate,
But we know they do not plough the roads until it is too late.
But when the snow is set like concrete, then they go to work,
And trundle along quite merrily but to move the snow they shirk,
For we only have a grader to do this heavy work
And the mind that invented such a thing must have had a quirk.
If we had an Italian flame-thrower, do you think the snow would melt,
Snow that cut our way now is deeper than my belt.
