any way you look at it...

THERE are few foods you can buy that give you as much satisfaction for your money as Kellogg's Corn Flakes.

Out of a single package you get many delicious servings—at a cost of only a few cents.

Kellogg's are delightful for breakfast or lunch, with milk or cream, fruits or honey added.

Great for the children's evening meal—or for a tasty snack before going to bed. So healthful and easy to digest.

No other ready-to-eat cereal in the world is so popular. No other corn flakes have ever been able to duplicate Kellogg's own matchless crispness and flavor.

That is why wise buyers will accept no substitute for genuine Kellogg's. They know that imitations are never "just like" the original of all corn flakes. Look for the red-and-green package at your grocer's. With the exclusive inner-seal waxtite wrapper that keeps the flakes oven-fresh even after opening. Made by Kellogg in London, Ontario.

Premier-B. C. Silver Deal Reported—Airplane Service For Interior Miners—Good Showing on Hudson Bay Mountain

In well informed quarters it is stated that negotiations towards a working arrangement between the Premier Gold Mining Co. and the B. C. Silver Mines Ltd. have been resumed and that the possibility for comparatively early consummation of a deal whereby Premier will take over operation and development of B. C. Silver is fairly bright. In this respect it may be of some significance that operations on the B. C. Silver were recently closed down. Selukwe Gold Mining & Finance Co. Ltd. of London has already advanced a total of £186,300 to B. C. Silver and a year ago there was reported to be between $6,000,000 and $10,000,000 of around $15 ore in bodies discovered up to that time. Work has been carried on continuously until quite recently. The Selukwe Co., which has other mining interests in Rhodesia, reports liquid assets as at March 31, 1931, at £43,062 compared with £97,000 at the corresponding date in 1930, indicating that the company is not in a position to spend further large sums on development or mill installation without further financing. Premier has a 38% interest in the B. C. Silver mine. Recent reports regarding Premier's quest for new properties are to the effect that the company is negotiating for the Regina mine at Lake of the Woods. This property is stated to have a good production record. It has also been reported that Premier has asked for a renewal of its option on the foburn property in Ontario.

To serve the mining industry in Central British Columbia, the Western Canada Airways will establish an aircraft for handling freight and passengers at a point on the Canadian National Railways, probably at Prince George. The aircraft will be capable of transporting a load of 150 pounds or more of freight and it is proposed to cater to mining exploration and prospecting parties. It is the intention to maintain the aircraft in the district permanently, operating during the summer as a seaplane on floats and in the winter season on skis. The company has already transported freight and passengers in this district for the Canadian Pacific Railway and the Ingenika Mining Co. as well as numerous private prospecting parties. The aircraft will arrive at Prince George on or about June 1 and the rate of operation will be 90c per mile.

Encouraging gold showings have been found on Hudson Bay Mountain, within six miles of Smithers and within a quarter of a mile of Glacier Gulch motor road. Stuart F. Campbell and Grover E. Loveless have been working for several seasons on the development of their claims in the Glacier Gulch. A telluride of bismuth deposit, carrying values in bismuth up to 11,6% and in gold up to $700 per ton was opened up by these men last year. Last winter they drove a 60-foot cross-cut under the deposit to cut it at a lower level but lack of funds stopped this work. Recently they have done some more surface work along the strike of the deposit and have shown up 16 feet in width of ore on the strike of the other workings. This new ore has not yet been assayed but free gold can be seen in it. Douglas Lay, resident mining engineer, visited the property just recently to see the discovery.

IS REALLY BIG FILM

"Trader Horn" is Great Exposition of African Adventure and Drama

Thrills of the wildest jungles, savage tribesmen in strange, fanatical and deadly rites of the juju, crocodiles, rhinos and other dangerous beasts fighting for life, all go to make "Trader Horn," which last night opened a three-day stand at the Capitol Theatre, a really notable picture. The gigantic pageant of savage Africa differs from anything of its kind that has ever been seen here for its thrills and natural wonders surround a dramatic story of an adventurer trader, his apprentice and the beautiful White Goddess of the savage Isorgi. The famous and unique book lives in actuality and is faithfully depicted as a talking picture.

Not only are the voices of the actors to be heard but also the voices of the jungle—the roar of lions, the songs of jungle birds, the eerie laugh of the hyenas and the deep-throated gurgle of the crocodile. The drama is also engrossing and the adventure thrilling.

Henry Carey has the title role of Trader Horn. Edwina Booth plays the difficult role of a savage child. Duncan Renaldo and Olive Golden are also important members of the cast.
