AMERICAN GOLFERS AND LORD GOWRIE CHAT ON LINKS

An interesting character study of two famous American golfers, and a well-known Australian government official. The picture was snapped when Helen Hicks (left), and Gene Sarazen (centre), were enjoying a joke with Lord Gowrie, the governor-general of Australia. Helen and Gene were touring the Antipodes.

CONGRATULATIONS

Once more a citizen of Prince Rupert has been recognized by the powers that be as worthy of special preferment. The appointment of L. W. Patmore K.C. as a member of the Utilities Commission is a recognition of exceptional merit and we take this opportunity of publicly congratulating him on receiving the appointment. The only objection to it is that it means the removal of the appointee from Prince Rupert to the seat of government at Victoria. It is a position of trust which Mr. Patmore is well qualified to fill.

BECOMING A HABIT

This making of speeches relating to international politics is becoming a habit. Statesmen take it in turns to address the world and their words are listened to with eagerness. Almost every radio in the country is put into service when Hitler, Mussolini, Chamberlain or Roosevelt give an important address. However, we are gradually getting used to hearing the voices of these men and they do not stir us as they did. As time goes on we shall take less and less notice of what they say.

LOAFERS MUST GO

The edict has gone forth in Russia that people who loaf on the job go. Not only that but any department head who permits loafing on the job must go. Some of them have already been removed because they failed to fire men who were hanging back and injuring the morale of their fellows.

It seems to be only in democracies that men are allowed to loaf on their jobs. They do it with impunity and get away with it.

In this respect it is interesting to note the gradual change that has taken place in Russia since the revolution. At first every factory was run by a committee of the employees until it was found that the system was impossible. Even ships had their committees with more power than the captain. Today the committees have disappeared and the discipline is stricter than in democratic countries under the capitalist system. All they ask in Russia today is for results. Factories must produce the quota.

LOW BIRTH RATE

French people are worrying over the low birth rate and efforts are likely to be made to effect a change. If this is not done the nation must eventually pass out of existance. In Germany and Italy big families are encouraged in every possible manner. In Canada the problem is recognized by making an allowance from income tax for people with families but this is a small advantage compared with the expense of children. The probability is that within a few years the state will recognize to a much greater extent than at present the people who have families.

SKIING AT HAZELTON

New Devotees Taking up Sport Daily—Meet to be Held

HAZELTON, Feb. 1.— Skiing in Hazelton is proving the outstanding sport this winter and is winning new devotees every day some twenty new members having answered the call of the planks recently. Snow conditions and weather have been ideal and everything is going along in grand style.

One of the factors contributing to the enthusiasm shown among the local skiers is the cabin which was newly built at the Silver Cup Basin on Nine Mile Mountain last fall by Allan Benson and situated at a 4500-foot level.

Numerous parties have enjoyed themselves in this splendid ski ground. Last week a party consisting of Rev. and Mrs. Golightly and Dr. and Mrs. W. E. Austin spent a few days as the guests of Mr. and Mrs. Benson at their mountain cabin and report having a good time.

Accidents have not been many and not too serious so far. Although Mr. Myros, a new member who was proving himself a real skier, was unfortunate in getting a cracked ankle, he is now reported to be doing nicely and can hardly wait to get out again. Audrey Benson had the misfortune to crack her leg also but is now well on the way to recovery. Dr. W. E. Austin, one of the newer members, has proven himself a natural skier and a valuable assistant.

Everyone is looking froward to the local ski meet on February 8.
