### TWO NEW STEAMERS FOR LOWER YUKON

Both Will Be Constructed at Whitehorse—A Busy Season in the Shipyards Is Expected.

Whitehorse, Y. T., Feb. 25.—A telegram from President O. L. Dickeson of the W. P. & Y. R. company, who is now in Chicago, having recently returned from a meeting of the stockholders of the company of which he is president, in London, has been received here announcing the intention of the company to construct two elegant steamers for use on the lower Yukon river, which means the Dawson-Fairbanks run.

It is probable that the new steamers will run only between Dawson and lower river points, connecting at the former place with the same company's upper river steamers. But both passengers and freight will be routed through direct from the outside for all lower river points, the transfer being made at Dawson.

While it is a bold move on the part of the W. P. & Y. R. people to enter a territory which has so long been monopolized by the lower river combine, the Northern Navigation and the N. A. T. & T. companies, the class of steamers it is proposed to put on and the superior service which will be given, is bound to get the business. In fact, there is a treat in store for the people of the lower Yukon country, who have been the victims of a monopoly in matters of transportation ever since the country was opened up.

Both steamers will be built at the local shipyards, work being started on them about March 1st. It is expected that the largest force of men employed at the shipyards for several years will be at work this season.

Mr. F. G. Dawson, the well known wholesale commission merchant, returned this morning from a month's visit to the lower coast cities. Mrs. Dawson who expected to return with her husband got word shortly before leaving that her father and mother were expecting to visit the coast in a few days and therefore decided to remain in the South for a week or two longer in order to meet them.

Mr. C. J. Gillingham, Provincial Government Road Superintendent for the Portland Canal district accompanied by his daughter Miss Ethel Gillingham were amongst the arrivals on the Prince Rupert this morning. Mr. Gillingham has been in the south attending a meeting of government road and trail officials in connection with the work laid out for the coming year. He will remain in the city for a few days before returning to Stewart.

Messrs. E. G. Baxter provincial government engineer and John Manson connected with the road department returned this morning from attending the session of the road superintendents and foremen held recently in Vancouver.

Mr. H. W. Tooker returned from a visit to the South this morning.

Mr. R. W. Rogers, of the Pony Express Co., who has been on a short visit to Vancouver and Victoria returned today.

Mr. and Mrs. W. G. Harris of New Westminster are registered at the G. T. Inn.

Mr. C. C. Perry, Indian Agent at Metlakahla, is in the city and is registered at the G. T. P. Inn.

Mr. Miller, the obliging and popular purser of the Prince Rupert, is taking a short holiday vacation, and during his absence his duties are being fulfilled by Mr. Durkee.

C. R. Cocks who was amongst the earliest of the pioneers of Prince Rupert and who has remained with the city ever since, being for over two years with Mr. Arthur Little of the Iroquois Pool room, left on this morning's train for Telkwa to take on a similar position in that go ahead little burg.

### OBSCENE LANGUAGE COST TEN DOLLARS

Recent Arrival from Grimsby Did Not Adhere to the King's English on the Street.

George Davis, one of the recent arrivals on the Canada Fish and Gold Storage Co.'s steam trawlers from Grimsby, England, was fined \$10.00 and costs this morning in the police court by Magistrate Carss for using obscene language upon the streets. Trouble between himself and other members of the crew who had been drinking together at the Premier Hotel culminated in a general row in which the accused apparently played a star part.

An amusing case in which a man by the name of Alfred Stanley sought to get payment of wages claimed by him for losing after city poundkeeper O'Brien whilst the latter was slightly under the weather also came up before His Worship for adjustment. It transpired that Tom was not in any very serious danger and the actions of the complainant were considered by the pound keeper more in the light of a Good Samaritan act than as services performed as between employer and employee. After considerable amusement had been caused the court by the evidence adduced on both sides His Worship dismissed the

THE WEATHER.

## When the People Refuse to Pay

EVER since King John signed the Magna Charta the people have been discovering new rights and asserting them.

Long ago the people learned how to get what they wanted—by the simple expedient of "refusing to pay."

In the days when kings played "war" with one another the people could always put a sudden end to the fun by "refusing to pay."

Soon the world discovered that it had an appetite for facts. And in the re-adjustment of things for the proper satisfaction of this appetite, we have developed a new science—its name is "Advertising."

To-day, when men play the great game of business, they have to depend on the people, even as did those kings of long ago. When the people stop payment, the game ends.

Now that we have learned there is a way of telling us we demand to know. By the exercise of a power that has never failed—the refusal to pay unless satisfied—the people have set up a new order of things. The manufacturers and merchants are telling us everything we want to know—through Advertising.

Of high importance is "the right to know" as applied to modern commerce. The people have found they want a "reason why" before they buy.

When we buy soap, we must know "Whose soap?" "How is it made?" "What are its properties?" "What are its uses?" "Wherein does it excel?" The Advertising tells us.

We awoke to this fact but a short while ago, when a few manufacturers began to tell us some of the things they thought we should know about their goods. They were the pioneer advertisers.

It's the same with well-nigh everything we buy—food, clothes, furniture, pianos, automobiles. We will have the facts about these things—or we will refuse to pay.

We, the public, have created a new world force. We call it "Advertising."

Advice regarding your advertising problems is available through any recognized Canadian advertising agency, or through the Secretary of the Canadian Press Association, Room 503 Lumsden Bldg., Toronto. Enquiry involves no obligation on your part—so write, if interested.
