New aircraft light blamed for mystery LEAVE KETCHIKAN JULY 30

The mysterious light residents of Section 2 have been seeing in the night sky recently is probably the new aircraft beacon at Lucy Island Lighthouse, the Daily News was told today.

Francois Lake men sight Welldoblect. distant from Section 2.

Agnes H. Neave. Alec Gillis and an 18-year-old ate light." companion, Gerry Monkman, said they saw the object while tion of the new aircraft beacon on their way home in Mr. Gillis'

truck, at 10:15 p.m., April 29. They said they made an im- ing "the light" early Wednesday sors the Seattle National Boat mediate report to the RCMP at morning came from Roger Rufus, Show. Burns Lake but have told no | 910 Tenth Avenue East, who with | one else except their families three compansions, was returnuntil the present time for fear ing home after their shift at the of ridicule.

The pair had turned off the at Watson Island. highway at the Grassy Plains to a rise, they saw a large ob-

ened and stopped the truck explanation. After a while they drove a little

of the object. left no marks on the road.

This explanation was suggest-

ed by N. A. Beketov, district

marine agent for the Depart-

ment of Transport. The new beacon has been in operation for a month. On clear days, said Mr. Beketov, its light can be seen for about 14 miles.

Sighting of a strange flying continued, "the beam is not re- to be staged in the northwest object that settled on a roadway flected but when there is a low Pacific, also will be a test is reported from Francois Lake overcast of the sort we've had boating safety equipment and by Daily News correspondent for the past few days then the drivers. beam would appear like a separ-
