WATER NOTICE.

For a License to Take and Use Water.

Notice is hereby given that Jock Bonnar, of Kitsumkalum Lake, B. C., will apply for a license to take and use 150 miners' inches of water out of Hall Creek, which flows in a westerly direction through Lots 1432 and 1521, Range V., Coast District, and empties into Kitsumkalum Lake near southwest corner of Lot 1432. The water will be diverted at a point about ½ mile up from the mouth and will be used for irrigation purposes on the land described as southerly portion of Lot 1521, Range V, Coast District.
This notice was posted on the ground on the 5th day of March, 1913. The application will be filed in the office of the Water Recorder at Prince Rupert.
Objections may be filed with the said Water Recorder or with the Comptroller of Water Rights, Parliament Buildings, Victoria, B. C.
JOCK BONNAR, Applicant.
Mar. 3 to 24.

WATER NOTICE.

For a License to Take and Use Water.

Notice is hereby given that W. McIntominey, of Goose Bay, will apply for a license to take and use 150 miners' inches of water out of Bonanza Creek, which flows in a southerly direction and empties into Goose Bay near Queen's Hotel. The water will be diverted at a point 4 miles up and will be used for mining purposes on the land described as Big Copper and Aacaid mineral claims.
This notice was posted on the ground on the 4th day of February, 1913. The application will be filed in the office of the Water Recorder at Prince Rupert.
Objections may be filed with the said Water Recorder or with the Comptroller of Water Rights, Parliament Buildings, Victoria, B. C.
W. McINTOMINEY, Applicant.
Pub. Feb. 17, 1913—Mar. 10, 1913.

VALUABLE COAL MINES NOT FAR FROM HAZELTON

GRAND TRUNK B. C. COAL CO. HAVE COAL MINES WITHIN SIXTEEN MILES OF NEW HAZELTON — DEVELOPMENT TO START SOON

Judging from the following which appeared in the last issue of the Omineca Herald, Prince Rupert will not always be at the mercy of the coal operators of Vancouver Island. It seems possible that before another winter has passed by residents of this city may be getting their supply of coal from mines in the interior. The Herald says:

The fuel situation in this district and all along the line of the G.T.P. is about to undergo a radical change which will be of considerable benefit to the people of the district. The Herald has learned from the general manager of the Grand Trunk B. C. Coal Co., Ltd., that it is the intention of the company to begin the development of their coal lands just as soon as the weather will permit, and to ship the coal as fast as they can get it out.

The coal lands of the Grand Trunk B. C. Coal Co., Ltd., are situated at about Twenty Mile, or about sixteen miles from Hazelton. They have twelve sections alongside the G.T.P. railway or within a very short distance of the tracks. As a shipping proposition it is ideal, and there is every reason to believe that coal will be very largely burned in New Hazelton next winter. The coal has been reported upon by coal experts as being of high grade.

The annual meeting of the company was held recently in Vancouver, when about a hundred shareholders, together with the directors, were present. The reports presented were all of an encouraging nature and all the shareholders were enthusiastic. James Wright, Vancouver, was re-elected managing director and A. E. Galpin, secretary-treasurer.

The G. T. P. is now running trains to Porphyry Creek, a distance of about twelve miles east of New Hazelton, and only about four miles from the coal fields.

The bridge over the above creek has been delaying tracklaying but it will be completed in about three weeks and then the tracks will be continued, so that as far as transportation is concerned the coal company will not be delayed any longer.

IS SURGEON OF SICK RAILROADS

James N. Wallace Takes Them in Hand and Puts Them on the Road to Recovery Again.

New York, March 3.—They're calling James N. Wallace, the banker, the "surgeon of sick railroads."

There could hardly be a more accurate descriptive title. Every now and then a railroad develops a high color, with occasional fainting fits in the stock market and acute insomnia in its official family. Then the poor little coughing railroad goes utterly to pieces and the specialists are called in. Wallace is usually one of them.

The complete list of railroad reorganizations in which he has figured in the last few years is not at hand. But those who follow Wall Street matters will recall that James N. Wallace is often chairman of the bondholders' committee, or some other body that acts as a sanitarium for the overtired organization. So far as the surface records show, Mr. Wallace does not take part in any stock market movement that may have preceded the collapse of the structure. His is the first-aid-to-the-injured part—the old family doctor in a high wheeled gig. After the speculating directors and the fathers' boys in the operating department and the walking talkers in the unions get through playing toboggan, Wallace tries to save what is left for those who have put in their money. His act is going better than ever on the big time.

Outwardly Wallace resembles most successful men in the financial district. He keeps on signing cheques and things while he talks. There is a tired look about his eyes. He is low voiced, he moves with a nervous directness ,and he wastes neither words nor time. He is now 47 years old, and every Christmas the directors of the Central Trust Company, of which he is president, tiptoe into his office and surprise him with a cheque for $50,000. His regular salary amounts to $50,000 more. He began with the same banking company when he was 15 years old, and for a time was tolerably well satisfied with the $4 a week salary of an office boy.

NEGOTIATIONS CALLED OFF

Company Decides Not to Sell Winnipeg Electric.

Toronto, March 3.—Negotiations for the sale of the Winnipeg Electric have been called off, declared Mr. Hugh Sutherland of Winnipeg, a director of the company, after a conference with Sir William Mackenzie and other members of the company's executive, at the C. N. R. offices this morning.

"The road is a profitable enterprise and we have decided not to dispose of it, although plans looking to a disposition of our holdings have been developing for a long time past.

"Chief among our considerations were several proposals to make an outlay on new equipment, trackage and other extensions, which the growth of Winnipeg appears to justify. The city has made several applications for such improvements, and we have looked into the matter, but until after we have returned to Winnipeg we cannot very well make a statement as to what we will do."

THE WEATHER.

The weather report at 5 o'clock this morning read: Barometer, 30.013; maximum temperature, 45; minimum temperature, 42; precipitation, .62 inch.

Forty years in use, twenty years standard, prescribed and recommended by physicians. For Women's Ailments, Dr. Martel's Female Pills, at your druggist.

DEAN CLOTHED IN GARB OF CONVICT

Although Not Found Guilty Man Charged With Bank Robbery Wears Striped Suit

New Westminster, March 3.—Although he is in the eye of the law an innocent man, Dean, the prisoner held for trial on a charge of breaking into the Bank of Montreal, has been clothed in prison stripes.

Admitting this and explaining it this morning, the warden of the provincial jail, Mr. J. Brymner, said that stripes were not now the official prison garb, regulations having been issued discontinuing the stripes in favor of plain uniforms.

From this it appears that should Dean be convicted he will no longer have to wear the hated stripes—a truly Gilbertian situation.

As things stand the striped suits are on hand, and it appears that somebody must wear them out. The regulations forbid the convicts performing this office, but Dean not being a convict is available for the purpose.

CANNERYMEN PROTEST AGAINST EXTRA TAXES

Will Not Tend to Reduce the High Cost of Living—Consumer Has to Pay

New Westminster, March 3—Claiming that the provincial government does nothing in connection with the fishing industry but tax it, while the Dominion Government provides the hatcheries and defrays all expenses, local cannery men are strongly protesting the proposed increased taxation by the Provincial Government on their products.

They contend that the increased taxation of two cents a case will make a vast difference, especially this out of the banner years, when the lowest estimate of any of the canneries is placed at 20,000. They argue that this extra taxation will not have a tendency to reduce the present high cost of living, as the consumer will eventually have to pay the extra expenses.

NOTICE TO FISHERMEN

Any fisherman desiring to fish unattached from canneries must make application for license to the Fishery Officer at Prince Rupert before March 15th, 1913.

Better than Ringing Door-bells

A PIANO manufacturer recently made a house-to-house canvass. He's one of those men with an absurd fear of the "waste-circulation" bugaboo—cannot get away from the haunting thought that only 10 out of every 100 readers of a newspaper may be possible buyers of his goods.

So he refused to advertise, and went a-canvassing—inviting people to come to his piano recitals. Then he wondered why they didn't come.

This is why:

He *wasn't* reaching the people.

His canvassers rang every door-bell in town. They talked to some one in every house.

But one in every household isn't enough—particularly if it doesn't happen to be the right person. And, as a rule, it *wasn't* the right person—it was a servant, or a child. The woman of the house was seldom seen; the man of the house, never.

Now, if the piano maker had placed an ad. in the newspaper, it would have reached thousands, where the canvassers could reach only hundreds.

And even though only 10 per cent. of the readers are actual piano buyers, this does not mean that the advertising read by the other 90 per cent. is wasted. Advertising talks, not only to the prospective buyer, but also to his wife, his grown-up sons and daughters, his mother—even his mother-in-law. Their coaxing will help to convince the head of the house—and pretty soon there'll be a piano in that home.

This and dozens of similar cases which might be cited to show that "waste circulation" is an empty bugaboo, and should deter no one.

Take the motor truck. It can be sold only to large firms Yet a motor truck manufacturer is successfully Advertising in daily papers. He realizes that he must reach, not alone the managers of the concerns that require trucks, but also their directors, their foremen, their head machinists, etc. It is found in actual practice that this Advertising radiates in a thousand directions, and again converges most astonishingly to influence the house that has made up its mind that horse-trucking is too costly and inefficient.

Advice regarding your advertising problems is available through any recognized Canadian advertising agency, or the Secretary of the Canadian Press Association, Room 503 Lumsden Bldg., Toronto. Enquiry involves no obligation on your part—so write if interested.
