REV. KENNETH KNIGHT will speak at the First Baptist Church Thursday night on his experiences as a missionary in India. Born in Estevan, Sask., Mr. Knight was pastor of the Summerland church when he decided to go to India in 1954. After language study at Bheemunipatnam, Mr. and Mrs. Knight served on the Tuni field and among the Oriyas. Mr. Knight will arrive by plane Thursday and will continue on a northern speaking tour from here. Anyone interested is invited to attend this meeting which starts at 8 p.m.

BUSILY COUNTING MONEY collected during the "Mothers' March" Saturday night are campaign chairman Ray Billing and assistant R. A. Andrews at the Officers' Mess of the Irish Fusilier Armoury. Turning in money are Mrs. Peter Klassen, Mrs. Robert Mosdell and Mrs. Alan Sheppard, all of Port Edward, who canvassed city homes Saturday night and Port Edward homes Sunday. Co-chairman R. C. Barbour was in charge of transportation and drove the mothers to the headquarters where they enjoyed a hot cup of coffee and doughnuts while they dried out. Despite torrential rains and gale-force winds, the sum of \$1265 was collected Saturday night. With 10 more mothers to hear from and the Port Edward total and the business firms, Mr. Billing said, the Kinsmen hope to reach their quota of \$3,000. The money will be sent to the Poliomyelitis and Rehabilitation Centre of B.C. — Staff photo by Phylis Bowman "Three Little Bruins in the ing her annual leave at Fort St.

Bert Wilishire helps operare the pipe line connecting Imperial's B.C. refinery at loco with its mainland distribution system.

Through this pipe passes B.C.'s best bargain

Compared with other commodities in everyday use, you won't find a better bargain than Esso gasoline. Average cost per pound of Esso throughout B.C., 61% cents. That's a real bargain... even common table salt costs more per pound than Esso. And of the 6% cents paid per pound for Esso gasoline, two cents is for federal and provincial taxes that help supply such things as new highways and social services. Bringing you this gasoline bargain takes a lot of costly equipment, and a lot of know-how. It takes things like Imperial's product pipe line that goes under the water of Burrard Inlet and then over a mountain to link the company's modern B.C. refinery with new and enlarged marketing terminals. It includes Imperial's search for new oil fields in northern B.C.; drilling for more oil at Boundary Lake; modern marketing facilities. Since 1951 alone, Imperial has invested over \$80,000,000 in B.C. to bring you gasoline at bargain prices. The price Imperial receives for Esso gasoline is, on the average, less today than it was ten years ago...yet Esso gasoline today is much more powerful than ten years ago.
