Standerson Found Guilty.

In the case of John Standerson, the fisherman charged with an infraction of the Fisheries Act, Magistrate McMullin gave his decision this morning. He found the defendant guilty but suspended punishment for the reason that it has been so long a custom for trawlers to take bait without having a license although this is clearly an infraction of the law.

One Cent A Word For Each Insertion

MINING OPERATIONS IN THE KLONDIKE

Joe Boyle Tells of the Plans of His Great Mining Company for the Coming Season.

Joseph Boyle, Jr., accompanied by a husky boy of about 23, who may be registered as Joe Boyle Jr. No. 2, came up on the City of Seattle last night and paid a visit to Mayor Pattullo and other old timers from the Yukon. Mr. Boyle was among the first to stake large mining concessions in the Klondike and is now the president of the Canadian Klondike Mining Company, which owns quite a territory of placer ground and several dredges.

After years and years of struggle Joe has arrived at a stage where he can imitate Andrew Carnegie and our own towny Jack Stewart. Since he left here early in the spring he has visited the handsome homestead he bought at Woodstock, Ont., for his father, the famous race horse breeder and trainer, and then paid a visit to the old home of his family in the north of Ireland, where he purchased a large property and he is now whatever the term "laird" is in the Irish brogue.

In a chat with the representative of the News Mr. Boyle said last night that his company had one dredge started at work on March 31, a wonderful new record for the frozen north. He says they have moved their No. 1 dredge from Bear Creek to Upper Hunker and will start in on No. 2 below. The No. 2 dredge will start in Bonanza Basin early in May. Two other dredges set up during the winter will be at work about June 2.

With the Granville power plant purchased from the Treadgold company they have been running all winter, in connection with the Northern Light and Power Company, which was purchased by him last year. This supplies the city of Dawson from Forty Mile, at the coal mines there, also owned by his company, and he has the intention this spring to find out if there is sufficient demand for light and power in Fairbanks to extend the system to that district.

VANCOUVER CONSTABLE

Is Here to Take Charge of Prisoner Arrested Several Weeks Ago.

Constable W. Kuner of Vancouver has arrived in the city to take charge of the prisoner, C. A. Wingard, who was so cleverly arrested by Constable Bailey of the local force about five weeks ago. From the marks on the prisoner's body there seems to be no doubt as to his identity. He is wanted on several charges, one of which is complicity in the robbery of $1,500 in currency from the Wells-Fargo Express Co. Constable Kuner will leave with his prisoner on the first boat south.

Public Health Bylaw.

It was Alderman Sutherland who moved last night that the council resolve itself into a committee of the whole upon the public health bill, he having been appointed chairman of the public health committee, vice Alderman Bullock-Webster resigned. The bill passed its third reading and now becomes law.

Judgment Reserved.

The case of the Northern Interior Land Co. vs. R. S. Sargent was heard before His Honor Judge Young this morning. Judgment was reserved for written argument.

CEMETERY IMPROVEMENT

Fairview Burial Ground to Be Drained and a Caretaker Appointed.

The city council decided last night to spend $900 in the ditching and draining of the city cemetery at Fairview and that a caretaker be appointed at a salary of $75 per month who will assist in this work.

Alderman Bullock - Webster gave notice of a motion that the position of caretaker be advertised and the selection made by ballot of the whole council.

ASSESSMENT REVISION

Date Fixed for Holding Court of Appeals—Members of Court Appointed.

The city clerk reported last night to the council that the assessment roll was complete. The council fixed May 28th as the date for holding a court of revision and appointed as members of such court Aldermen Naden, Sutherland, McCaffery, Dybhavn and Kerr.

The Prince John, of the G. T. P. fleet of passenger steamers, which left Prince Rupert on Saturday night for the south, went only as far as Ikeda instead of Vancouver and Victoria, returning here this morning about 11. This was owing to the fact that the overhauling of the Prince Albert was not completed in time for that boat to leave Vancouver for the north Friday night. It is expected that from now on these two boats will run according to schedule.

FINLANDER PLAYS THE AMATEUR DETECTIVE

His Room Mate Is Charged with Theft of Watch and Money.

Whether or not he has been successful in landing the guilty party, H. Mickelson, a Finlander, who has been staying at the Queen's Hotel, has earned the reputation of being a fair amateur detective. According to the story he told yesterday in the case of Isack Mackenin, a room mate, charged with the theft of two watches and the sum of $45, Mickelson gave the accused the money and the watches, one of which belonged to another man, to take care of for him. Mickelson says he laid them on a chair or bureau and left them there in charge of Mackenin. When he returned about three in the morning he asked the accused for the property. The latter, he says, told him they were on a chair under some papers, but he could not find them. Mickelson kept a pretty close eye on the accused and alleges that he followed the latter along the railway tracks to a pile of ties, where he was seen to hide something. Mickelson, in company with a constable, went to the place and after a little searching found the timepieces. After hearing this evidence Magistrate Carss adjourned the preliminary trial until 11 o'clock tomorrow morning.

PRINCESS SOPHIA SLIGHTLY DAMAGED IN STRIKING ROCK

(Continued from Page 1.)

the impression that peace and contentment ruled the ship..

To the average person there was nothing unusual in the ship's appearance. Just under the bow, a little below the water, a slight irregularity in lines could be noticed. Several of the plates were crumpled but the damage was not at all evident.

A peculiar coincidence in connection with the accident is that it occurred within ten minutes of the time that the Princess May struck on the same rock a year ago. Both steamers struck in almost the same place. The May, however, was much more seriously damaged, being left high and dry at high tide.

At the time of the accident to the Sophia the pilot, Captain Hughes, was on duty. The weather, it is said, was disagreeable with show and rain falling. Sentinel Rock, a dangerous one to navigators, lies right in the path of southbound vessels. Much sympathy is felt for both Capt. Campbell and Capt. Hughes, who are thoroughly competent navigators and who have splendid records.

A NARROW ESCAPE FROM FALLING ROCKS

Proper Care Is Not Taken to Warn Pedestrians When Blasting Is Done.

The warning recently given in police court by Magistrate Carss in the case of the man charged with careless blasting seems to have had little or no effect. Yesterday afternoon a blast was put off in the excavation directly in front of the G. T. P. Inn in connection with which criminal negligence was most apparent. Notwithstanding that the blast was almost directly under the walk leading from the wholesale houses to Centre street, no one was posted on that thoroughfare to warn people of possible danger. A shower of rocks fell on the walk directly in front of the Inn which might have caused serious injury to any one who had been passing there. As a matter of fact, the person who lodged the complaint with the "News" had just passed over the spot and had just closed the front door of the Inn as the shower fell. Every avenue of approach should be guarded to avoid the possibility of accidents when blasting is going on.

E. C. LaTrace, 65 cents, $1.93, $200 and 35 cents.

M. J. McLeod Company, 80 cents, $1.75, $350 and 20 cents.

Alderman Maitland, in regard to both these local improvements and in regard to the bids for the work to be done in Section Two, held that the bids were too high and that the work could be done cheaper to the city for day work. He asked the city engineer if he had based his estimates on an eight hour day at 45 cents per hour. He would like to see a good profit made as between the city engineer's estimate and the workingmen, but not as between the city engineer and the contractors. The contractors made too much profit anyway.

City Engineer Mason said he based his calculations on an eight hour day at 45 cents per hour.

Alderman Bullock - Webster moved that in all contracts there should be a clause providing that the contractor should pay not less than 45 cents per hour for labor for an eight hour day.

The mayor said this point could be brought up on the consideration of the report of the board of works on the tenders and meantime the alderman could give notice of motion.

Alderman Maitland said he would second Alderman Bullock-Webster's motion when it came up.

THE WEATHER.

The weather report at 5 o'clock this morning read: Barometer, 29.775; maximum temperature, 45; minimum temperature, 36; precipitation, .14 inch.

Men! Grip Life Afresh!

No need for you to be despondent—foolish for a man whom over work or excesses have dethroned from the pillar of full manhood to relax into further decline—to lose heart. I have in R. METZGER'S BODY BATTERY those potentialities which remake manhood. I can, with its aid, put you in full possession of every faculty which was yours in your best moments. New youth comes to the man who says "I will" and gives this wonderful body energizer a trial. Varicocele, losses and similar drains on the forces of manhood yield readily to its restorative process. No acids to burn—Electric batteries 400 times more efficient and as easy as Nature, do the work.
