NEW SNOWSTORMS THREATEN TO RUIN SKI CHAMPIONSHIPS

ZAKOPANE, Poland (AP) — New snowstorms hit Zakopane this afternoon and once more forced the organizers of the nordic world skiing championships to call off one of the

scheduled events. As the nordic combined entrants had finished their three jumps, it was announced that the special jumping class would

be postponed because of wind and heavy snow. The cross-country was held Sunday. The bad weather now threatens to disrupt the whole world

championships schedule. Alevtina Koltchina of Russia won the opening event of the day — the women's five-kilometre cross-country race in 19 minutes, 29.1 seconds. Lubow Baranova of Russia was second in 20:15.9 and Maria Gusakova of Russia third in

In the nordic combined jumping no placings were announced after the jumps.

It appeared, however, that Yosuko Eto of Japan was in the lead after three brilliant jumps of 69, 63, and 60.5 metres. Still to come as well as the special jumping in the competition is the 15-kilometre cross-country race, set for Tues-

Eero Manturanta of Finland captured the 30-kilometre cross-country race Sunday.

WEEKEND FIGHTS

LIMA (A) — Mauro Mina, 1733/4,

Members of the crew of an Imperial rig drilling for oil in British Columbia.

Bringing you oil products at bargain prices is a big job. Right now, for example, Imperial is drilling 30 miles of hole at B.C.'s Boundary Lake oil field. Boundary Lake oil will travel 745 miles to Imperial's refinery near Vancouver, where it will be turned into products. And those products reach you at bargain prices. Take Esso gasoline, for example. On the average, it costs motorists throughout B.C. 6% cents per pound. Compared with other commodities in everyday use, you won't find a better bargain. Milk, for example, sells on the average for $9\frac{\pi}{10}$ cents a pound; soft drinks for $12\frac{\pi}{10}$ cents a pound; even distilled water costs more than gasoline. And of the $6\frac{1}{10}$ cents paid per pound for Esso gasoline, two cents is for federal and provincial taxes that bring you such things as social services and new highways. To bring you this bargain, Imperial has invested more than \$80,000,000 in B.C. in the past ten years alone. Yet today, on the average, Imperial gets less for the Esso gasoline it sells than it did ten years ago...and Esso gasoline today is much more powerful than ten years ago.
