

Land office terms July as record fees month

The Land Registry office at the Court House will chalk up July, 1962, as the record month for the amount of fees collected in all its history, according to W. D. Sutherland, registrar.

Mr. Sutherland said the reason for this record was that approximately \$50,000 in fees was vaid by Celgar Limited to trans-, fer all their assets of Columbia) Cellulose Company, Limited, to Celgar Limited.

A NEW TYPE of anaesthetic device employed by a local dentist is shown being put into use on a willing patient, Miss Janis Truscott. The device is known as a "sonic anaesthetic" in which sound waves are used to prevent a patient from suffering any pain during a tooth extraction or other dental operation. Pictured above (centre) Miss Truscott appears to be unbothered in the dentist's chair while using the new device.
