22 new cases found in area

Prince Rupert has a serious tuberculosis problem—a problem that will require the action and cooperation of all concerned and most particularly the people themselves, it was reported today in a letter received by D. A. Geekie, executive secretary of the British Columbia Tuberculosis Society.

The results of Operation Doorstep last June indicated a very | The survey team would like to serious problem in the area, Mr. see a 100 per cent turnout to the Geekie said. A total of 22 new TB vans and not 80 or 85 per cases of tuberculosis were found, cent which came this year. two of which were children. One out of every 225 persons who Daily News by Dr. G. P. Evans, had a chest X-ray were found to medical director at the Skeena have tuberculosis.

In addition to the 22 new ple might be inclined to panic cases of tuberculosis found, sev- after hearing a report such as eral children are being treated this, but inreality, the situation at home with one of the new TB was not nearly as serious as the wonder drugs to prevent their first glance might reveal. developing actual tuberculosis disease. They are among the close to 2,500 Prince Rupert residents found to have been infected by the germ that causes TB, who had a positive reaction observation. He said also that to the TB skin test.

However, only 152 people of this total required detailed medical examination following the way to eliminate and control the original TB skin test and miniature chest X-ray.
