John F. Kennedy is rounding out his second year in the White House, halfway through the term he narrowly won in 1960. What kind of job is he doing? In this first article in a three-part series, Associated Press reporter Relman Morin pictures the president at mid-terms.

By RELMAN MORIN

WASHINGTON (AP)—President John F. Kennedy appears to be the best air-conditioned man in Washington these days. While the political wind blows hot from Capitol Hill, Kennedy looks cool. He sits in his rocking chair, crunching the ice from a soft drink, slowly smoking a thin cigar, examining the record as he approaches mid-passage in his first term in the White House. There are no visible cracks in his marble calm.

at least for television—after the has been slower than from two Senate killed a bill providing previous down-turns. health assistance for the aged. gressional elections.

In other key measures, too, as conservative members of his own Democratic party sided with the remarkably unified Republicans, Congress has been road-blocking) the president. It shelved his farm bill, the general school aid bill, his several requests for standby powers, and a department of urban affairs.

But if he feels frustrated, he Congress adjourns.
