are partly to blame for the ferries coming to our lovely frontierland. U.S. money built Highway 16 into Prince Ruport during World War II when that city was a sub-port of Souttle. We didn't have ships to supply the bases being built in Western Alaska to chase the Japs from the Alcutians, so we used barges from Rupert along the Inside Passage, and hence the feeder road, now burgeoning into a major highway, thanks to the Canadians spending some \$50 million thereon. And, of course, we want our ferries to eash in on some of that investment, thus putting the shoe on the other
