## DATE WHEN LAST SPIKE WILL BE DRIVEN IS TOLD

### GRAIN ELEVATORS FOR PACIFIC AND HUDSON BAY—JAPANESE QUESTION IS PERPLEXING

#### GOV. JOHNSON'S DECISION TO SIGN BILL VERY PERPLEXING

STATE DEPARTMENT IN A QUANDARY WHETHER TO UPHOLD CALIFORNIA'S RIGHT TO PASS IT OR TO DECLARE IT UNCONSTITUTIONAL

(Special to The Daily News.)  
Washington, May 15.—With Governor Johnson's announcement that he will sign the California Alien Land Bill in spite of the federal administration's protest that more time should be given for further consideration, it is now necessary for the state department to determine whether in its negotiations with the Japanese government, it shall sustain the right of the State of

California to deprive Japanese of the right to hold property in that State, or whether it shall concede to Japan that the act violates the spirit if not the letter of the treaty made with Japan, and attempt to find some means of nullifying it. In case the latter should be the decision of the department a test case might possibly be rushed through to the Supreme Court to decide if this California law is or is not constitutional.

#### LAST SPIKE ON THIS SECTION DRIVEN IN OCTOBER NEXT YEAR

VIC. PRESIDENT DALRYMPLE PROMISES MONTREAL PEOPLE THAT THEY WILL HAVE THROUGH CONNECTION WITH PRINCE RUPERT EARLY IN 1915.

(Special to The Daily News.)  
Montreal, May 15.—"We now begin to see daylight, as one of the greatest enterprises on the continent is being rapidly advanced to completion," was one of the statements made by J. E. Dalrymple, vice president of the Grand Trunk Pacific, who, with G. T. Bell, assistant passenger traffic manager, returned last night from a trip over the completed portion of the system from Lake Superior to Prince Rupert. As a matter of fact, Mr. Dalrymple gave out some important information. One thing he stated was to the effect that the Montreal-Winnipeg-Edmonton section, with intervening points, will be linked up for passenger service by June 7th. On that date special daily trains will leave Toronto for Sarnia, connecting with Port Arthur and Port William by Northern Navigation Company steamers. Also that on the same date a daily passenger

service will be inaugurated to Winnipeg from Fort William—this being the first announcement of the long expected opening of the railway from the head of the lakes to Edmonton.

As for the eastern section, which is nearing completion by the transcontinental commission, Mr. Dalrymple states that they will probably open this section some time in August.

Another important announcement made last night was that a series of hotels will be built in the Rockies by the Grand Trunk Pacific, the principal one to be opposite Mount Robson.

His last statement was in regard to the completion of the whole system. He said that the last spike will be driven in place three hundred and fifty-seven miles east of Prince Rupert in October of next year, and that the entire road will be open for traffic from this city to Prince Rupert early in 1915.

#### SEARCHED FOR LIQUOR BUT DISCOVERED OPIUM JOINT

WHOLE POLICE FORCE MADE SUCCESSFUL RAID LAST NIGHT ON FULTON STREET CHINESE RESTAURANT.

On a large table in the centre of the police court this morning there was enough paraphernalia to start a good sized opium joint. In the outfit were four of the regular opium pipes, several empty opium tins, a liberal quantity of the dope itself, three or four peculiar looking lamps, several small suspicious looking bottles containing a dense, dark liquid and a number of bottles of the vilest smelling Chinese

liquors. The presence of such an unusual sight in the police court was the result of a raid by the police between 11 and 12 o'clock last night upon the restaurant kept by Fong Sun Chong on Fulton street. In addition to making this valuable haul, the police rounded up no less than fifty Celestials who are probably frequenters and were there when the raid was made. Fortunately, Chief Tickers had his whole force with him so that none of the inmates escaped. The lamps and other accessories to the enjoyment of the drug were still hot when the police gained admission to the room where the happy gathering was assembled. One of the frequenters had just about finished the pleasant state of forgetfulness. Very little resistance was offered to arrest. Two necessary to land the surprised gathering at the lockup. About

half of them were released on bail of \$50 each, the balance spending the night in the cooler, where for several hours they kept up the wildest jabberings ever heard within those cheerless walls.

This morning another arrest was made by Constable Bailey in the mess in the Wallace block, the Celestial cook being found with half a tin of opium in his possession.

Employers of Chinese labor in the city were in great distress this morning. The patrons of at least one boarding house had to be their own chef for breakfast.

The original object of the raid was with expectation of finding liquor. They had little idea they would be so lucky as to find an opium joint of such large proportions. The police say that more than three hundred bottles of various kinds of liquors were found on the premises.

The hearing of the cases started at 2:30 this afternoon.

Accident at Port Nelson.

An Indian working at the Port Nelson cannery met with a painful accident yesterday, his face being very badly injured by the falling of a pile driver. He was immediately taken to Kincolith, where his injuries were attended.

#### TEN PEOPLE KILLED.

Fierce Tornado Wipes Out a Nebraska Town and Does Immense Damage.

(Special to The Daily News.)  
Seward, Neb., May 15.—A tornado swept over part of this state at 6 o'clock last night, in which ten people were killed and thirty injured in the town of Tomoro. Twenty-two buildings were destroyed and the town practically wiped out. At McCool Junction great damage was also done and several severely injured.

#### SEATTLE DOCTOR'S ACTION IS DISMISSED

Evidence before Judge Young Yesterday Was Contradictory—Case Dismissed

The action of Dr. Cleaves, of Seattle, to recover from G. Robinson an account for professional services to his daughter, Mrs. Skelling, which was tried by His Honor Judge Young yesterday was dismissed. Although Mrs. Skelling is over 21 years of age, the doctor was satisfied that the father was responsible for the debt.

The case was first heard in Vancouver before Judge McInnes but in view of the fact that the defendant lived most of the time at Kitimaat, it was held that the case did not properly belong to the Vancouver court.

Robinson testified at the trial yesterday that he did not become responsible for the debt. The plaintiff, on the other hand, while he had no written agreement from the defendant, swore that the latter had expressed his willingness to pay if the daughter did not do so, which the defendant denied. Mrs. Skelling is over 21 years.

In view of the contradictory evidence and that there was no written agreement, the case was dismissed. C. V. Bennett for the plaintiff and W. E. Williams for defendant.

#### DEVELOPMENT WORK ON HAZELTON MINES

Excellent Tunnel Driven Seven Hundred Feet on the Surprise Mine—Erie Doing Well.

On the Surprise Superintendent North continues work on the upraise on No. 1 vein. This will give air for the continuance of work in the main cross-cut tunnel, an excellent piece of work, which has been driven 700 feet, says the Omineca Miner. The drift on No. 4 discloses ore of high grade and further work may show a good deposit. The main objective at present, however, is the cross-cut, which is expected to tap the big vein at a depth of nearly 300 feet.

The cross-cut tunnel on the Erie is now in 115 feet, the contractors making good progress. Twenty-five tons of ore have been sacked for shipment and will be sent to the smelter next week.

#### MORE MILITANT BOMBS

Winston Churchill and Wife Fear Kidnaping of Their Infant.

(Special to The Daily News.)  
London, May 15.—Sufragette bombs were yesterday found in some of the passenger trains running between Kingston-on-Thames and London.

Fearing their child may be kidnaped by the militant suffragettes, Hon. Winston Churchill and his wife have their infant under constant guard night and day.

George Anderson, piano expert from Portland, will be here on his third annual trip about May 15th. Leave orders for piano tuning or repairing at Kauffmann's music store, opposite post office.

#### ST. ANDREW'S DANCE A PRIME TOP-NOTCHER

Whist Drive Followed by Dainty Supper and Dancing Kept Up Until 2 o'clock.

One of the most enjoyable social functions is to be added to the record of continued successes in the score book of St. Andrew's Society. The whist drive and dance last night was attended by as many as the hall on Second avenue could accommodate. So much so, in fact, that the society determined to at once take steps to secure more commodious quarters for their next public event.

The prize for ladies, a silver chateleine, was won by Miss Minna Ross, and that for gentlemen, a pocket book, by Mr. James Dick. Three was a dainty supper at the witching hour when church yards and ordinary people yawn, and the McMeekin orchestra being at its very best, every minute was jewelled with a joy until 2 o'clock this morning. During the evening songs were rendered by Alex. Massey and James Kelly.

#### TO LOOK INTO MINING

Eleven Possible Investors from Spokane to Arrive Here Soon.

Charles P. Richardson was advised yesterday that Lachlan McLean, the well known mining speculator of Spokane, with a party of ten capitalists from that city and vicinity, will arrive here within a week to go into the Babine country and investigate mining properties there. These are the forerunners of other Spokane people who are interested in the mining development of Northern British Columbia.

#### LOST HIS MEMORY

Peculiar Case Now Under Treatment at General Hospital.

A man named Edward Smelling was seen acting strangely on the cemetery road about 7 o'clock last evening, and as he could not give any satisfactory account of himself he was taken to the hospital. He is better today but does not remember anything since last Wednesday. What occasioned this lapse of memory he is at present unable to say. There was found on him a C. P. R. ticket from Vancouver dated April 20th and this appears to be all that is known of him.

#### Freight on the Stikine

The Princess May, of the Canadian Pacific fleet, unloaded the first shipment of freight of this season destined for the upper Stikine and Cassiar parts, says the Wrangell Sentinel. Forty tons were unloaded and stowed in the bonded warehouse to await the opening of freight traffic on the Stikine whence it will be taken through in bond to British Columbia.

#### WAGNER TO BE HANGED

Believed to Have Committed Every Crime in Criminal Calendar.

(Special to The Daily News.)  
Nanaimo, May 15.—Henry Wagner has been sentenced to be hanged August 18th for the murder of Provincial Constable Westaway at Union Bay. He is one of the most notorious criminals of the northwest, and for years has defied arrest on both sides of the international boundary. He is believed to have committed practically every crime in the criminal calendar.

#### FIRST COURT SESSION AT ANYOX YESTERDAY

David Patton, Squawman, Sentenced to Two Weeks in Gaol and Walter Haldane One Month.

C.C. Perry, Indian agent, returned this morning from Anyox, where he had been in connection with a couple of cases that were heard at the first court session held in the future smelter city. The first case was that of David Patton, a squawman, ordered off the Indian reserve more than a year ago. He appeared before Dr. Hyde and Dr. McDonald, justices of the peace, and was sentenced to two weeks' imprisonment. Patton was also charged with cutting five trees on the Tack-u-an reserve, but was remanded until further inquiries are made.

The other case was that of Walter Haldane, charged with cutting 119 off Kitsinet reserve, in the Alice Arm district. The penalty for this offence is \$20 per tree, but as the accused did not have sufficient property or effects to pay such a large fine he was sentenced to one month's imprisonment.

Friday and Saturday only at Stalker & Wells, 3 doz. local fresh eggs \$1.10. Our special blend tea, regular 50c, at 40c. 113-15

#### BALKAN WAR CAUSING TROUBLE IN INDIA

British Attitude Toward Turkey Again Being Used to Influence the Moslems.

London, May 12.—"At Bombay, Calcutta and Delhi, Hindus and Mohammedans are openly arrayed, shoulder to shoulder, pledged to work against the sahabs for the regeneration of our common motherland." The passage quoted is from a speech delivered at a recent congress of the All-Indian Moslem League, which has attracted painted attention in England and British India. Officials of the Indian government are heard to declare that unless something is done there may be a cataclysm, worse even than the terrible Sepoy mutiny. England's attitude toward the Turks is being used as a torch with which the Indian Mohammedans hope to light the fires of revolution, and it has all the signs of reaching fruition in deeds of desperation.

#### Road Work in Full Swing.

Road work is now general on the Queen Charlotte Islands, all the camps starting up during the week. Three crews are employed between the Indian village and Tl-el River, the foremen being William Duncan, A. Richardson and N. Schafer. The rock work between the oil works and the Indian village will be started in a week or two. At Sandspit a few men are at work under Nate Ley. The trail from the townsite to the Hognia River is now well advanced and will be completed in a few days. The work is under the supervision of T. R. Davey. Nearly 100 men are employed at the various camps.

#### WILL BUILD GRAIN ELEVATORS ON PACIFIC AND HUDSON BAY

ONE ON THIS COAST TO BE READY FOR OPENING OF THE PANAMA CANAL—GRANT FOR LATE CAPTAIN SCOTT'S FAMILY.

(Special to The Daily News.)  
Ottawa, May 15.—Yesterday's session of the house of commons was spent in the discussion of amendments to the Grain Act, in connection with which an important announcement of the government's policy was made by Hon. George H. Perley, to the effect that a transfer elevator will be built on the Pacific coast ready for the time of the opening of the Panama Canal, and another at the Hudson Bay terminal of the Hudson Bay railway.

It was intimated by Mr. Borden that the supplementary estimates would contain a grant for the widow and family of the late Captain Scott, the Antarctic explorer.

Friday and Saturday only at Stalker & Wells, 3 doz. local fresh eggs \$1.10. Our special blend tea, regular 50c, at 40c. 113-15

#### BRITISH ADMIRAL LED FORCES FOR OCCUPATION OF SCUTARI

FINAL PEACE CONFERENCE DELAYED BECAUSE OF SQUABBLE BETWEEN GREECE AND BULGARIA REGARDING CONQUERED TERRITORY IN MACEDONIA.

(Special to The Daily News.)  
Cettinje, May 15.—An international force under command of Admiral Burney, of the British navy, yesterday took formal possession of Scutari, the Montenegrins having peacefully evacuated the city.

Delay in Patching Up Peace.  
London, May 15.—All the Turkish delegates to the conference have arrived, but not all the delegates from the Balkans have yet appeared on the scene. A Greek-Bulgarian mixed commission has failed to settle the differences of the two allies over conquered territory in Macedonia and it is feared that the formal termination of the Balkan war may be greatly delayed because of this. Despatches from Sofia indicate that the Greek government is causing the delay by refusing to accept the draft of the

#### HUNDREDS OF NEWCOMERS ARE LIKELY TO GO INTO INTERIOR

OUTLOOK FOR A VERY BUSY SEASON IN DISTRICT AROUND HAZELTON AND GREAT OMINECA COUNTRY GENERALLY.

The prospecting season in this district is opening somewhat later than usual, but will soon be in full swing. Nearly all the prospectors who have spent the last few seasons in this vicinity will take to the Omineca hills again this summer, while hundreds of newcomers, attracted by the fine showings of ore already

uncovered in the district, will take up the search for mineral, says the Omineca Miner. In two or three weeks, when there will be feed for horses along the pack trails, there will be an influx of miners and prospectors into the Omineca and Manson
