"The time is past when we can send any clult" he said in an interview. "It has to be the best we have and that means! the pros. the players in the National Hockey League if well can work it.

"And we should get federal government help to set up such a team, maybe even ask for \$75,000 to get it started. "The Swedes, Russians and

Czechs have national teams and they go about this scientifically. They take films of every game and separate films showing only the goaltenders of every team. "They analyze them and by the time their team gets to play they know every move a goalie will make."

The Smokies represented Canada in the 1963 world championships in Stockholm, Sweden, earlier this month.

Mr. Temple said if it is not possible to send a national team "we should forget about it." The tournament was hurting Canadian prestige "and as long"

us we send second-rate teams ! it's only going to get worse." He also criticized Smokies coach, Bobby Kromm. He charged Kromm "was not satisfied with anything" from
