LONG STRAIGHT STRETCH of Highway 16 is between Telkwa and Barrett Lake. The road can be seen for eight miles and climbs to quite a height. Looking back at the top of the rise, the road can be seen like a long ribbon unfolding between fields of grass and farmland,

between here and Torrace is reported to be in fairly good condition, with ley and snawy roads making driving hazardous around Terrace, Between Terrace and Smithers the goad is quite rough, as there is a great don't of road construction still underway. (Staff photo
