HUNDRED AND FIFTY ARRESTED FOR MURDER OF GRAND VIZIER

**SCHERFAT PASHA BURIED ON HISTORIC SPOT WHERE MANY
OF HIS SOLDIERS FELL IN WAR OF EIGHTEEN-
TEN.**

(Special to The Daily News.)
Constantinople, June 14.—More than one hundred and fifty arrests have been made in connection with the assassination of Grand Vizier Mahmoud Scherfat Pasha, and excitement runs high. The funeral of the grand vizier was carried out with great pomp, most of the garrison participating. The whole route of funeral pageant was lined on either side with troops and police, fearing an outbreak. The burial was in the mausoleum situated on the Hill of Liberty, on the outskirts of the Turkish capital. On this hill many of the grand vizier's soldiers fell when he was leading them against Constantinople in April, 1910, when the old sultan, Abdul Hamid was deposed.

INDIAN LANDS COMMISSION IS TO START NORTH IN AUGUST

**HAS BEEN INSPECTING RESERVES ON VANCOUVER ISLAND—
IT INTENDS TO HOLD SESSIONS AT ALL
POINTS**

Mr. A. M. Tyson, Inspector of Indian Agencies, who is in town en route to Telegraph Creek, has received word that the Indian Lands Commission expects to start north about August 15th. The itinerary of the commission at present being arranged. It is at present visiting the reserves on Vancouver Island. It intends on its northern trip to start at Bella Bella and Bella Coula and to visit all the Indian villages. The commission did not come north earlier because of the fishing season. The commission intends to go up the Skeena and will take in parts of the Naas and the Babine district, going as far as Moricetown.

The object of the commission is to determine whether or not the Indians have an ample supply of land for their needs. The commissioners are:—Hon. Mr. Whitmore, chairman; Dr. McKenna and Mr. White, representing the Dominion Government, and Mr. Shaw and Mr. McDowell representing the province. It is accompanied by Mr. Bergeron, who will act as its secretary, and Mr. Young, a Toronto lawyer, who has been appointed by the Dominion Government for the special purpose of attending to the rights of the Indians.

HAZELTON COUNTRY EXCELLENT FOR RAISING SMALL FRUITS

**DOMINION GOVERNMENT EXPERT SPEAKS OF HORTICULTURAL
POSSIBILITIES AND TELLS OF PROGRESS MADE
BY INDIANS OF PROVINCE.**

"There is fine land, the very best of land, in the Hazelton country, but skillfully conducted experiments and a close observation of climate conditions will be necessary to determine the kind of fruit that can be grown there to the best advantage. For my own part, I think it is a splendid district for small fruits," declared Mr. Tom Wilson, of the Dominion Government Department of Agriculture, when interviewed by the "News" today. Mr. Wilson, though of the Department of Agriculture, has been during some years past acting for the Department of Indian Affairs. When that department decided that it needed an expert to inspect the orchards of the Indians, it chose Mr. Wilson, and he was accordingly loaned for the work by his own department. Mr. Wilson said the Indians in this part of the country had not yet done much in this direction, although something had been accomplished at Metlakatla. On Tuesday last he had supervised the planting of one hundred and fifty trees at Glenwood in the Hazelton district. Mr. Wilson regretted to say that in the whole of the neighboring country the plants had been eaten by cut worms. One settler had been obliged to plant his cabbage three times. "It is good land," said Mr. Wilson, "and can be used to greater advantage as the cultivators increase their knowledge of horticultural conditions in the district. There are, I think, too many forests for the most successful propagation of the larger fruits, but the conditions are excellent for the growth of such things as strawberries. The district is well situated too for markets. The berries could be shipped both east and west with advantage."

"I do not think that the altitude has much to do with the growing of fruits. In Rossland and in the Kootenay Valley, where the altitude is much greater than in the Hazelton district, the larger fruits are raised most successfully. It would require a careful study of the climate and soils to decide to what this difference is due."

"What progress have you found the Indians to be making," Mr. Wilson?" asked the "News" reporter.

"I am well satisfied that the work done by the Indians of this province shows them to be making rapid studies towards the front rank of civilization," replied the inspector. "The Indians of the Okanagan and Fraser valleys especially are developing rapidly in the pursuits of agriculture and horticulture. The Fraser Indians last year put in one of the best exhibits ever entered. Some of the Indians in that district not only grow fruit but pack it as well as the white men and have their names on the boxes, too. On the whole the Indians of the Province are making decided progress, particularly those who are far removed from towns."

(Special to The Daily News.)
Tokio, June 14.—An expenditure of sixteen million yen for army purposes was announced by the government yesterday, in a statement given to the native and anti-foreign press, in which Premier Yamamoto discussed also the California land question, expressing the hope of an amicable settlement. The American steel yacht Columbia was seized yesterday when she put in Wakayama, which is not an open port for repairs. She was on the voyage from Nagasaki to Yokohama. She belongs to J. Harvey Ladew of the New York Yacht Club. She left for a cruise in Oriental waters in November, 1912. The detention of the vessel was probably brought about owing to her entering a port where there was no customs house or quarantine station. A similar course is taken by the authorities of any other country under like circumstances.

The lawyers are holding their annual reunion here, and all the speeches made during the evening bore some reference to the century of peace between the two nations, which is to be fittingly celebrated next year. For instance James J. A telegram was received by the council from the Provincial Government, assenting to the issue of the municipal treasury certificates, which it is proposed to sell in London. This telegram came in response to one from the council, in which it was stated that the city would agree to meet its debt to the province, amounting to \$124,000, as a first charge on the certificates sold. The province had required this understanding before it would permit the sale.

The council then put itself on record as agreeing to repay the moneys advanced by the government to the municipality in its embryonic period, out of the first sales of certificates that may be made under the consolidated issue now in prospect.
