### COAL CONDITIONS TO BECOME WORSE — COAL TAR CAR SMASHES INTO WAITING ROOM

#### REDUCTION OF ORE FREIGHTS FROM NEW HAZELTON GRANTED

**NINE OWNERS PLEASSED WITH RESULT OF CONFERENCE—  
NEW REDUCED RATE GOES INTO EFFECT ON WED-  
NESDAY NEXT**

Ore shipments will probably mean a great deal to the miners in this district and to New Hazelton. In future regular shipments will be made instead of holding the ore at the mine. More men will be employed and the camp will take on a more prosperous appearance.

The very considerable reduction which we have made in freight rates on ore from New Hazelton to Trail would be impossible as a straight business proposition and we have only been able to make it in order to assist in the development of the country," said Mr. A. E. McMaster, general agent of the G.T.P., when interviewed this morning by the "News." When Mr. McMaster went to Hazelton last week a meeting was arranged between the company and the mine owners, something which it had not been found possible to bring about earlier, and the present agreement was reached.

The new rate of eleven dollars a ton from New Hazelton to Trail includes the cost of handling the ore at Prince Rupert and Vancouver, and is a reduction of over two dollars per ton on the previous rate.

The new rate goes into effect June 18th, and it is more than probable that the Silver Standard, which has been lying at the mine so many months, will be shipped on the 18th or 19th.

#### MOSCOW CAMPAIGN

**Famous March of Napoleon on  
Films at Empress.**

The famous Moscow campaign of Napoleon and the Grand Army of France, the campaign that destroyed the Grand Army on the scorching plains and amongst the icy snows of Russia and that wrecked the power of the second Charlemagne of Europe, is portrayed in a most realistic manner by the films which are to be exhibited at the Empress theatre this evening and on Tuesday. They were first shown for trial to Manager Frank Stevens and a few of his friends on Saturday afternoon. The pictures give a graphic representation of the trails of the soldiers and of their great commander on that disastrous march and more disastrous retreat. It must have been a colossal undertaking to procure films illustrating such an event. Then thousand Imperial Russian troopers lent their aid in representing the scenes.

#### SCANDAL HAS CAUSED MEMBER TO RESIGN

**Political Secretary of Lloyd  
George is Concerned in a  
Forthcoming Divorce Case.**

London, June 12.—Considering the thunder now prevalent in the general political atmosphere and the fact that Wadsworth J. J. of South London possesses 40,000 electors, polling today in the by-election is proceeding under the quietest conditions. The last Unionist majority was nearly 5,000. The present Tory nominee is opposed by Havelock Wilson, seaman's leader, who runs as an independent candidate and has not, therefore, the benefit of the official Liberal organization.

Elections are pending in Dover, to fill the place of George Wyndham, where the Unionists hope to secure his son, Percy, as his successor, and in Leicester, where the Liberal member, Crawshaw Williams, who has been political private secretary to Lloyd George and Winston Churchill, has resigned through being concerned in a forthcoming divorce suit. The resigning member writes:

"Perhaps it is a pity that circumstances which do nothing to impair political capacity should be able to interfere in political activity, but I am well aware of the state of the feeling prevailing in this country on these matters."

Days and to Adjust the  
Cargo There.**

(Special to The Daily News.)  
Victoria, June 16.—The loading of the old whaler Karluk, which is to carry the Stefansson expedition into Arctic regions, will be completed today and the party will probably sail from Victoria late tomorrow evening.

Captain Bartlett expects to reach Nome in twenty days after leaving here, and does not desire to leave that Alaska port much before July 20th, because the ice conditions in the Arctic Ocean will give the crew ample time at Nome to thoroughly adjust the cargo.

(The names of the celebrated scientists who leave Victoria on the Karluk tomorrow will be found on our second page.)

#### COAL TAR CAR BROKEN LOOSE CRASHES INTO WAITING ROOM

**MONTREAL WAITING ROOM CROWDED WITH PEOPLE AT  
THE TIME BUT ONLY THREE WERE SERIOUSLY  
INJURED.**

(Special to The Daily News.)  
Montreal, June 16.—Three men were severely injured, and damage to the extent of several thousand dollars was done and a number of fatalities were narrowly averted yesterday when a tank car filled with coal tar broke loose from the line on a heavy grade and crashing into the Viger station rammed through the side of the building into the waiting room, where many people were awaiting outgoing trains.

#### MINING MEN WEARY OF WAITING FOR GOVERNMENT WAGON ROADS

**DEVELOPMENT OF CLAIMS ON NINE MILE MOUNTAIN AT A  
STANDSTILL BECAUSE OF OFFICIAL DILA-  
TORINESS.**

All the mining companies and the miners who have claims on Nine Mile mountain are in a state of wonder again this year to know what the government is going to do about continuing the Nine Mile road. The government was well aware that to take the road on to Silver Cup, Silver Bell, Sunrise, Silver Pick, Lead King, and the several other properties in the same neighborhood would cost ten or twelve thousand dollars, and yet only a third of the amount was appropriated this year. The miners had been promised the completion of the wagon road this year, but with only \$4,000 there is no chance. For the money it is doubtful if more than a trail can be built. A trail is of little use as several of the properties are ready to bring down ore now, or would be very shortly if the road was once started. As it is all the plans for the season have been upset.

Engineer Baxter, in charge of the provincial road work in this district, paid another visit here this week in connection with the

#### COAL SITUATION OF PROVINCE IS GROWING WORSE THAN EVER

**PARKER WILLIAMS RACKS McBRIDE GOVERNMENT FORE  
AND AFT FOR POLICY OF HANDING OVER RE-  
SOURCES TO THE MONOPOLISTS.**

(Special to The Daily News.)  
Vancouver, June 16.—That the coal situation of British Columbia is going to get much worse was the prediction made Saturday night by Parker Williams, M.P., in a speech delivered in the Dominion Theatre, in which he raked the McBride Government fore and aft for its policy of handing over the resources of the province to monopolists. By request he explained the situation in the coal mines of Vancouver Island, pointing out that nine months ago 1,500 miners of Ladysmith and Cumberland got into a tangle with companies over working conditions and when the companies refused to talk business the 1,500 men took the only remedy in their hands and stopped work.

The miners went to the provincial government and asked for an enquiry into working conditions, but found the government so tied body and soul to McKenzie and Mann, that they could do nothing for the workers. Then they appealed to the

Labor Department at Ottawa, but that government was so busy trying to send millions of the people's money to be spent on ships outside of Canada, that they too refused to do anything, or, at least, did nothing to offend MacKenzie and Mann. The Provincial Government was so busy talking about a white British Columbia and ignoring the employment of yellow labor, that the miners of Cumberland and Ladysmith appealed to their brothers in Nanaimo, Wellington and Jinglepot, to help them and help them they did.
