

GREEKS JOIN SERVIAN TO COMPLETE INVASION

MEMBERS OF BRITISH HOUSE THROWN INTO PANIC BY TRICKS OF THE SUFFRAGETTES

LEADS OF WHITE SLAVE TRUST HAVE FLED FROM THE COUNTRY

FOR PERSONS CONTROLLED BETWEEN THIRTY AND FORTY HOUSES WITH SIXTEEN HUNDRED WHITE SLAVES THEIR IMMENSE PROFITS

New York, July 9.—District Attorney Whitman has secured indictment of four persons believed to be the head of a gigantic vice trust which controlled 1600 white slaves in the old tenderloin district, and set the wireless to flashing the cable to working in an effort to apprehend the muched quartette who fled from the city when they were apprised of some mysterious way of the approach of court action. The four are Morthe Gold, his wife, Rosie Goldberg; Barbrush and Gussie Cohen, the latter a large blonde woman of much renown in the underworld. Goldberg is understood to be on his way to Buenos Ayres and the wireless is endeavoring to locate him. Barbrush is on his way to France. The two women are supposed to have gone with the men, as mess servers could not locate them. The vice trust operated between 30 and 40 houses and reaped yearly profits from inmates of approximately \$1,120,000. Gussie Cohen is particularly wanted by the district attorney's office, as she is familiar with the dealings with the police who have, it is alleged, given them protection for years, the police receiving for their services in the neighborhood of \$400,000 yearly. The protection was fixed at \$1,000 per house, the district attorney's informant declares. The indictments were brought about through the confession of two so called "agents" of the trust, Nellie and Josie Schafer. These two women were convicted in special sessions and were remanded to the Tombs after they had been given an opportunity to tell all they knew or go to jail. When they went to court Rosie Goldberg offered them \$2,000 a month each if they would keep quiet, but after their conviction they decided to tell a complete story.

NOTORIOUS SUFFRAGETTE HAS CONFESSED BOMB OUTRAGES

SO THAT SHE FIRED MILLIONAIRE SOAPMAKER'S MANSION "AS A BEACON LIGHT"—SHE GLORIES IN HER ACHIEVEMENTS

Liverpool, July 10.—A dramatic confession of incendiaryism was made today by a well-known militant suffragette, Mrs. Edith May, wife of a physician at Preston, to the magistrate sitting at the police court here. She was remanded for further hearing. Mrs. Rigby declared it was she who last Tuesday burned down the country residence at Rivington, near Horwich, Lancashire, of William B. Lever causing damage estimated at \$100,000. She then confessed to being the perpetrator of the outrage at Liverpool Cotton Exchange on July 5, when a bomb exploded, causing little damage. Mrs. Rigby surrendered voluntarily to the police. When asked today she gloried in her achievements, saying that she hated Sir William H. Lever to death. If the government is going to kill that woman this is a warning.

JOKE PLAYED ON THE BRITISH COMMONS

Members Were Badly Scared By Suffragettes With Toy Mousetrap

(Special to The Daily News.) London, July 12.—That dignified body of lawmakers, the House of Commons, were yesterday thrown into a panic by the port of a pistol fired in the members' gallery. At the same time a great yellow banner bearing the inscription "Justice for men" was lowered over the chamber. There was also a shower of pamphlets in which were wrapped toy mouse traps. The hubbub which followed made the chamber look like a burlesque of the French Revolution. Assembly in the days of the terror. Quiet was restored only when the perpetrators of the colossal joke had been hustled from the gallery.

OLE CROSBY'S REPLY TO THE CHARGE OF INSUBORDINATION

STATES WHAT TOOK PLACE IN CONNECTION WITH THE FREEZING OF THE WATER PIPES—HOW HE OFFENDED ALD. McCAFFERY

Ladies and Gentlemen,—Having been discharged from city service, and the reason of my dismissal being more or less shrouded in mystery, I concluded that the people of Prince Rupert should be made aware of the true facts of the case. The reason hinted at for my dismissal was insubordination. Only in one instance, to the best of my knowledge, have I been guilty of this charge and this I will make clear in the latter part of this letter.

As no investigation into the freezing of the water pipe has taken place and as few are aware of the true facts, this is for the information of the many. The new 18 inch pipe line from Acropolis reservoir was placed in commission in December last, and the gate was opened by the present foreman Walker, who was then acting foreman during my absence in Seattle. The gate was opened about seven turns, which corresponds to about the amount of water that would flow through a six inch pipe. When we closed the gate on January 17th, we were surprised that it was not more open and this led us to believe, for a short time, that the gate had been tampered with, but, as was afterwards shown, this was not so. The pipe line on Taylor Street froze and burst as well as in Section 6 (Taylor Street being 60 feet higher level than the outlet at Green Street Section 6.)

ALWAYS GOT LONG TON

City Did Not Get Short Ton from Local Coal Dealers

In yesterday's report of the evidence given before the coal commission there was a misstatement as to the extent of the saving made by the city when purchasing from the mine instead of from local dealers. It was stated therein that the city had saved one-eighth by getting its coal by the long ton instead of by the short. It is true that the city in this way gets its coal so much more cheaply than the private individual, but this does not mean as it appeared in the report that the city had effected this saving when it transferred its custom from the local dealers to the mines. As it had always stipulated in its tenders for the long ton, it had always received it.
