Poet Pipes for Prison Fans

Among those jailed in the
United States government prison
at Atlanta, Ga., an eight club
baseball league has been formed,
the doings of which are regular-
ly chronicled in the prison maga-
zine these prison fans are edit-
ing. The latest addition to this
talented editorial force is Julian
Hawthorne, until recently known
to the world as a clever littera-
teur and son of a world famous
novelist, but now only known as
"Convict No. 4435." He obtained
his present prominence by fraud-
ulently exploiting certain Cobalt
mining stock. He graces the
prison magazine with a poem en-
titled "Play Ball," two of the
verses of which follow:

Eight hundred dead men hopping
from their graves,
For the sun shines fair on the
high graveyard wall.
Each in his blue shroud, all we
mouldy knaves;
Blinking like a swarm of bats,

to see a game of ball.
Baseball corpses, limber up and
shout again;
Every jolly stiff of us yelling
like a nut:
"Hey, Jack! Hey, Tom! Glad to
see you out again.
"Watch him pitch, which is
which—chase him off, the
scout."

Eight hundred "Con" fans, all
come back to life again;
Bright shines the sun on the
day that we go free.
Play ball, Maties all; up and line
'em out again;
Never weaken, fight it out, what
e'er the score may be.
Who said we were dead? The
game has put a soul in us.
Whack the horsehide on the
nose, and scoot for the
home base!
We'll get there, never fear, you
and I and all of us.
God's the umpire, and it's up
to us to hold the base.

NEW PLAN IS URGED
TO ASSIST ALASKA

Sen. Poindexter Introduces Bill
Providing Transportation
System.

Washington, July 14.—Senator
Poindexter today introduced a
bill authorizing the President of
the United States to construct a
system of transportation in
Alaska, including every connec-
tion between the Yukon and tide-
water, and a system of steamers
between Seattle and Alaska and
to open the public coal lands in
Alaska sufficiently to relieve the
fuel situation in the territory.

The Poindexter bill also pro-
poses that one-half of the gov-
ernment coal lands in Alaska
shall be leased for commercial
purposes.

The transportation system is to
be managed by the Alaska
transportation service and the
Alaska mining service, the chiefs
of each service to be appointed
by the President, and the em-
ployees to be under civil service.

Preference in the sale of coal
mined from leased lands shall go
first to the transportation service;
second, to the navy and
other government branches;
third, to schools and public in-
stitutions; fourth, to the ulti-
mate consumer, and after that
the wholesalers and manufac-
turers shall be supplied.

Senator Poindexter explains in
his bill that the intent of the act
is equalization of coal produc-
tion between private lessees and
the mining service, and the min-
ing service product must not be
less than the product of the total
number of private lessees. Bona
fide settlers living on the lands
will be permitted to use the coal
for domestic purposes without
charge.

The President is authorized to
issue \$50,000,000 worth of bonds
for carrying out the transporta-
tion and mining project.

The Un-Reddy Widow.

"What I have suffered is shock-
eng, shockeng!" she groaned,
rolling her eyes, as she strode
to her dressing room. "From ze
moment I go to my apartment
last night until I tear myself
away zis evening I am in ze awful
grip of my lover!"

Two dazed stage hands fell
out of the flies with a crash, and
the prompter went down on the
stage on all fours, because three
of his teeth had dropped out and
were rolling into the footlights.
The mademoiselle, noting the
consternation she had caused,
cried out:

"No, no—not zat. Not 'lover';
lover!"

TUBERCULOSIS MAY
NOT BE HEREDITARY

French Doctor After Extensive
Examination Declares the
Contrary

Paris, July 14.—The general
belief that tuberculosis is hered-
itary is declared to be erroneous
by Dr. Calmette, director of the
Lille Pasteur Institute. The doc-
tor has submitted statistics to
the Paris Faculty of Sciences,
compiled from the examination
of 4,000 subjects, which he be-
lieves prove conclusively that the
real cause of tuberculosis is in-
fection and continued reinfec-
tion, coming after birth.

Of all the children less than
one year of age which Dr. Cal-
mette examined, only nine per-
cent were found to be contami-
nated with tuberculosis. After
that age the percentage increas-
ed rapidly. Between one and two
years of age 22 per cent. of the
subjects proved contaminated;
between two and five, 53 per
cent; between five and fifteen,
90 per cent.; and 91 per cent, to
97 per cent. over fifteen years.

The reason tuberculosis is
more prevalent in cities, says Dr.
Calmette, is because the danger
of repeated reinfection is great-
er. He estimates that 91 per
cent. of the inhabitants of Paris
carry tuberculosis bacilli in their
blood, and although they cannot
really be called consumptive, yet
these people are all capable of
spreading infection.

FIRE LOSSES REDUCED

Campaign by New York Officials
Causes Speedy Reduction.

New York, July 16.—Fire Com-
missioner Johnson's campaign of
education in the common places
of fire prevention and his spec-
tacular arson crusade resulted in
a \$2,238,686 reduction in fire
loss for the first six months of
1913, according to the figures is-
sued by his office. This reduc-
tion is due to the decrease in the
number of fires and is based on a
comparison of this year's record
with that of 1912. In 1912 there
were 8,455 fires prior to July 1.
This year there were 6,605, a re-
duction of 1,850 fires. The com-
missioner notes the "more
scrupulous care which fire in-
surance companies have exer-
cised since the arson crusade
began."

himself is easily suited—so his
friends think.

When Summer
Stops the Swing

Most of us can remember the school lesson in the
law of accumulated motion—momentum.

If you exert a pound of pressure against a man in
a swing, you'll start him moving slowly "to and
fro." If you continue to exert a pound of pres-
sure against him every time the swing makes a
trip, you'll soon have him going so high that he
almost turns the whole circle. If you stop push-
ing, the momentum will die out and the swing
come to rest at "dead centre."

Winning trade follows the same natural laws.

Advertisements are the force behind the swing of
public favor. Each new advertisement increases
the momentum. Finally, the accumulated force
of these numerous impulses swings indifference to
the buying point.

If you stop Advertising, you lose momentum.

The moral of which is:

Don't stop the business swing in Summer.
Keep adding the pounds of Advertising
pressure.

dian Press Association, Room 503 Lumsden Building, Toronto. Enquiry
