GOVERNMENT SUING FOR VERY BIG SUM

Seeking to Recover Five Hundred Million Dollars Worth of Oil Lands

Washington, July 15.—The trial of the government's suit at Los Angeles, Cal., for the recovery of \$500,000,000 worth of oil lands held by the Southern Pacific Railroad probably will be delayed until the Supreme Court of the United States has decided the suit of Edmund Burke and other private litigants against the railroad.
This was indicated at the department of justice today, although a final decision will not be reached until Attorney General McReynolds has received a report from Attorney Townsend, his special assistant in charge of the case, which is pending on demurrer.
The Burke suit, which is one of the important cases left over by the Supreme Court for probable decision in the fall, involves, it is said, the same issues as the government action.

G. Dennis, and Mrs. F. R. C. Brown, Miss Mitchell and others.

ELECTRIC BELL INSTALLED FOR SMOKERS' CONVENIENCE

For the convenience of patrons of the Westholme Theatre who wish to indulge in a smoke between acts, the Criterion cigar store, in the theatre block, has installed an electric bell which rings in the store three minutes before the rise of the curtain. It rings with sufficient loudness to be heard on the street, where smokers may wish to enjoy a few minutes in the cooling breezes. This progressive firm of tobacconists has not yet added the white coated man and the polished glasses usually found in places where the theatre gong is heard before the rise of the curtain.

S. HENDERSON WAS DROWNED IN RIVER

Kitimaat River Claims a Victim—Canoe Had Struck Against a Snag

Sam Henderson, a settler in the Kitimaat valley, was drowned last week in the Kitimaat River. He and two others had been coming down stream after taking supplies up to a government survey party when the canoe struck a snag. Mr. Henderson was thrown out of the canoe and sank at once, his companions' efforts to reach him proving vain. He probably became entangled in the debris with which the river is filled in many parts. His body has not yet been found, though the government is offering \$100 for its recovery.
Mr. Henderson was an unmarried man. He came to the coast some years ago from Ontario, his home being near Ottawa, and had for the last seven or eight years resided on his clearing in the Kitimaat valley.

RAILWAYS DESIRE TO HAVE A SAY IN ARBITRATION MATTER

AMAZED BY ATTITUDE OF TRAINMEN AS TO GRIEVANCES OF THE ROADS AND INSIST THEY BE ARBITRATED

Subscribe for the Daily News.
New York, July 19—The trainmen doubt the sincerity of the railways arbitration, and the situation remains extremely critical. On behalf of the roads the following statement was issued: "We are amazed at the attitude taken by the leaders of the trainmen and conductors as regards our desire to arbitrate our grievances. They seem to think that they are the only side that has a right to ask for arbitration. We think differently, however, and are convinced that the public will support us in our attitude. We shall insist that our grievance be arbitrated as well as theirs and we stand pat on our letter of last night."
The general committee of one hundred of the Brotherhood of Railroad Trainmen and the Or-

der of Railway Conductors went into session here today to consider last night's communication of the eastern managers and the announcement that the road would insist upon presenting their own grievances before the arbitration board which is to settle the wage dispute. What the roads demand would, if granted, mean a big saving. Among other things they would abolish guarantees and double compensation and reduce by 20 per cent. the pay of brakemen in States where extra crew bill is operative. The conference adjourned shortly before 11 o'clock, but Messrs. Lee and Garretson, for the trainmen and conductors respectively, said they would make no reply to the railroads until tonight.

MORGAN HAD BUT ONE SHARE IN THE GREAT STEEL TRUST

LIST OF HOLDINGS OF GREAT FINANCIER PROVE A SURPRISE TO HIS FRIENDS—OF FAR LESS VALUE THAN EXPECTED

New York, July 15—J. P. Morgan left a queer medley of securities. His executors have supplied a list of his holdings, all of which they are having transferred to them.
The truth must be, he carried important blocks in the name of either his firm or dummies, for although the list covers more than 100 companies the total value is not at all commensurate with the popular notion about the veteran banker's enormous wealth.
Not one block of great size is disclosed.
The list suggests he allowed his heart rather than his head to sway him in making purchases.
Of the billion dollar steel trust which he brought into being he owned—one share—that is all,

one solitary share of preferred. Yet he dominated the company absolutely.
Of his friend, J. J. Hill's road, the Northern Pacific, he owned two shares. Of Illinois Central he had the same number.
His railroad holdings are comparatively puny. Among the principal holdings are 6200 of Southern Railway common and 415 preferred worth about \$150,000; 2188 shares of New Haven, worth 215,000, and only 50 Boston and Maine, and 1279 shares of New York Central, worth \$120,000.
His industrial holdings included 2142 shares of American Telephone; 1000 shares of H. B. Clafin stock, and his holdings of Hartford Carpet Corporation stock aggregated 1300 shares, mostly preferred.
