Prince Arthur is a cousin of King George, and eventually he will inherit the titles of Duke of Connaught and of Strathearn and Earl of Essex, Prince of the United Kingdom, Duke of Saxony and Prince of Saxe-Coburg and Gotha. Just at present he is a Knight of the Garter and a G. C. V. O., a P. C., a D. L., and a personal aide to the king. He is also an elder brother of Trinity House and a knight of Justice of St. John of Jerusalem. As Captain of the Second Dragoons he served in South Africa. He was sent to Japan some years ago as a special envoy of the King. He was 30 years of age in January. One of his sisters is the wife of Gustavus Adolphus of Sweden, and the other, Princess "Pat," is reported engaged to the Duke of Mecklenburg Strelitz. Princess Alexandra, Duchess of Fife, is to marry the young Prince of Connaught. She is the daughter of the late Duke of Fife and of the Princess Royal. Her full name is Alexandra Victoria Alberta Edwina Louise. She was born in May, 1891. Just now she is engaged in a lawsuit with her mother concerning the estate left by her father.

HAZELTON MINING NOTES

A new silver-lead strike has been made on the old trail from Hazelton to the Babine. A new prospector and a stranger in the country was the lucky fellow to fall on the deposit. He was headed for the Babine and pitched his tent for the night on a small creek and then took a stroll up the creek toward the hills and found the float. It was then an easy matter to locate the vein. The ore resembles the Nine Mile stuff very much and caused quite a little excitement in the district, with the result that about a dozen old timers hiked to the new discovery.

Word has been received from William McDonald that the coal fields he and J. W. Hart have secured on the Kitsegukia River are turning out very satisfactorily. He has just been in after spending three weeks on the property with four men developing the several seams. O none seam they have a tunnel in thirty feet and it shows five feet of coal at the head. For the present this work will be allowed to stand as there are fifteen other showings on the property which require opening up. All the seams show a width of from two to five feet. Mr. McDonald states that he has found another two foot seam on another part of their land about two miles west and on another creek. The country between these two creeks is very level and unbroken.

The Lead King group is now all ready for the surveyors to get busy and it is expected that they will go up this week.

J. W. Hart, Vancouver, who is interested in the Kitsegukia coal property with William McDonald, was in the district over the last week end and has now gone on a trip north.

Joseph Threthway was a visitor at the Harris mine on Tuesday of last week and his impressions of the workings and of the property were very favorable. He is satisfied that it will make a mine.

Colonel R. G. Steele, general manager for the Hudson Mountain Mining Company, returned Wednesday night from Vancouver and was accompanied by H. Carlsley of Montreal, one of the directors of the company. They left this morning for the mine and will then return to Vancouver.

Mr. Steele has asked Frank Brown to give him a price on a 500 foot crosscut tunnel, to be driven next fall and winter. The surveyors have practically completed their work, both on the claims and on the new road.

Some fine samples of ore have just been received from the Highland Boy group by Colin Munro. The Highland Boy group is operated by P. J. Jennings.

A second tunnel 150 feet below the first has been started and the men have already broken into the ore. The vein is five feet wide and Colin says it is widening out. The ore will run 16 to 17 per cent. copper and when Slavin and McKay staked it they got as high as \$15 in gold and silver.

Mr. Jennings and his son George are working on a third tunnel 600 feet farther down again and they are also getting ore.—Omineca Herald.

THE GARBAGE QUESTION

How the Citizens of Stewart Are Handling It.

At a recent meeting of the Stewart Citizens' Association the question of sanitation in the town was taken up and as a result, a health district was formed in accordance with the regulations of the Health Act, and a board consisting of three members, namely, B. E. Badger, G. W. Brugg and H. B. Birch was appointed to act, and to arrive at some means for the removal of garbage, etc. The board interviewed the various transfer companies in the town and wish to acquaint everyone as to the prices that will be charged for this work. These charges were submitted in the only tender received:

"A monthly charge of \$2.00 will be made for the removal of the toilet can of each family of three members or over; stores, shops or places whose toilet is liable to be used by the public.

"A monthly charge of \$1.50 will be made for the removal of the toilet can of each family or others of less than three members.

"Garbage will be charged at the rate of 25c per can over and above the above charges."

Townpeople are requested to advise the Board immediately as to their acceptance or otherwise, of these charges. This is the only tender received and the work cannot be performed for any less.

Owing to no official instructions having been received by the Board a contract could not be entered into immediately but The Miner has been advised that the contractor is now willing to perform the services required, so as to avoid further delay and prevent the possibility of any illness arising by reason of the night soil and garbage not being removed for a period of over six weeks.—Portland Canal Miner.

NOTICE TO MARINERS.

Whale Rock extends fully 100 yards south of the position shown on the admiralty charts. It has two heads, the one shown on the chart and another 100 yards south of it. The buoy marking the rock will, without further notice, be moved about 50 yards, 69 degrees 20 minutes (N. 45 degrees E. Mag.) from its present position so as to mark the east side of the shoal. The buoy will be black.

THE PRICE OF HOMAGE

ONCE when King Edward VII. paid a visit to Sheffield, all the fires in factories and plants were allowed to die out. Not a wheel in Sheffield turned for twenty-four hours. The primary object of this, was to lift the pall of smoke that hovers over that wonderful steel-producing city, and to ensure, as far as man was able, a bright day and a blue sky for an auspicious occasion. It was Sheffield's expression of respect.

BUT the action was unique—it was unprecedented—it was unthought of that those hundreds of mighty furnaces, raging night and day, and those seething boilers, with quivering valves, should ever be allowed to cool. This extinguishing of fires cost Sheffield hundreds of thousands of dollars—the price of the effort to get back again to high-power efficiency.

SOME business men in Canada pay an unwitting homage, not to a king, but to a superstition—the superstition that hot weather justifies letting the fires of business energy go out. They stop Advertising in the Summer months. By paying homage to tradition, custom, superstition, they have allowed Summer to become their "dull" season. You know how dull it can be when you don't advertise. Do you know how brisk it can be made by Advertising? Do you realize how much momentum you now lose in the Summer that must be regained in the Fall?

DON'T LET YOUR ADVERTISING FIRES DIE OUT THIS SUMMER.

Advice regarding your advertising problems is available through any recognized Canadian advertising agency, or the Secretary of the Canadian Press Association, Room 505 Lumden Building, Toronto. Enquiry involves no obligation on your part—no write, if interested.
