PRISONERS FLOURISH IN GAOL SAYS POLICE CHIEF VICKERS

QUESTION OF COST OF MAINTAINING PRISONERS WAS RAISED AT THE MONTHLY MEETING OF THE POLICE COMMISSION.

The cost of keeping prisoners is an interesting point raised by the meeting of the police commission, held yesterday afternoon. In response to Alderman Maitland's inquiry, Chief Vickers said that the cost was very high. Twenty-five cents a day will cover the cost per prisoner. What kind of fare do they get? asked Alderman Maitland. They are pretty well fed for those who are not doing really hard work," said the chief. They have oatmeal, cornmeal, bread, soup, meat, beans, tea, and they get no butter. The rations served to prisoners here compare very favorably with those under the provincial regulations. The prisoners are not overworked. They get plenty of

NEW YORK GUNMEN HAVE PUT THE CITY IN STATE OF TERROR

YOUNG MAN FALLS VICTIM TO FOUR THUGS—DIRTY WORK RESEMBLES SAME PLAN USED IN ROSENTHAL MURDER.

New York, Aug. 5.—William Lustig, a young man of whom the police know very little except that he comes from a respectable family and who has a father who is a process server attached to the district attorney's office, is dying in Bellevue Hospital, the victim of assassins. The police recall the gunmen's methods in the Herman Rosenthal murder more than a year ago. Lustig is believed to have been shot by "Bumpy" Jackson's cohorts by a woman last night. The couple had just taken a seat at a table when the woman sud-

MULVIHILL CHARGED WITH KELLY'S MURDER

Further Developments in Burns Lake Affair—Prisoner Is Taken South.

On the charge of murdering his partner, Ed, Kelly, at Burns Lake, Harry Mulvihill is at present on his way to the gaol at New Westminster. He went on the Prince Rupert train this morning under the charge of Constable MacAulay. It seems that Kelly had an altercation with his partner. Exploited by Mulvihill's abuse, Kelly gave him a severe beating about 2 o'clock in the morning. Mulvihill was standing at the counter in Springsteen's cigar store talking to two friends, a man and a woman, when the bullet struck Kelly's head, causing death two hours afterward.

GROWING BUSINESS DEMANDED EXTENSION

Wallace Department Store to Be Again Enlarged by the Erection of New Addition.

It seems but a very short time ago when the Wallace department store was enlarged by the addition of the crockery and wallpaper department, yet the rapid growth of business has now necessitated a still further addition. For this the contract was let to Messrs. Mitchell & Currie, contractors, yesterday, and the work is to be started at once.

The new building will be 25 by 45 feet, situate at the rear of the crockery and wallpaper department. This additional space will be fully utilized as soon as the building is completed, the H. S. Wallace Company, Limited, having for some time felt the need of more space for their rapidly growing trade; not only for the showing of goods but in order to be able to carry large stocks in all lines and thus be able to offer a much wider range of choice. The new building is to be completed early next month.

BERMUDA TO REMEDY ADMIRALTY MISTAKE

London Newspapers Think the Views of American Press Are Unwarranted.

London, Aug. 5.—The Washington reports of Great Britain's intention to establish a naval base in Bermuda are regarded by the London press as reflecting a misconception in America of the admiralty's plans. It is admitted that the British squadron at Bermuda will be increased to four armored cruisers with a rear-admiral in command, and a dock yard and coaling station will be established. It is declared, however, that this is merely to remedy a mistake that was made under Admiral Fisher's regime, and for the very natural purpose of affording greater protection to British shipping which makes use of the Panama Canal.

(Special to The Daily News.) Berlin, Aug. 8.—The decision of the British government to station a number of cruisers at Bermuda is taken in official circles here as an indication that the intense anti-German feeling in England is relaxing.

SCOLDED BY KING

Prince Is Said to Have Left Big Note Unpaid.

London, Aug. 4.—The Prince of Wales received a severe scolding from the King yesterday. The Prince, it seems, has inherited from his grandfather an indifference to the value of money, which King Edward displayed before his accession.

At Greenwood races, last week, a prominent member of the firm of Tattersalls, that maintains the famous betting and auction rooms, informed Sir Frederick Ponsonby, equerry to King George, that he held a promissory note for \$2,500, indorsed by the Prince of Wales.

Sir Frederick Ponsonby demanded an explanation and was told the heir to the throne met Major Gascoyne at Lord Gervile's house last winter. For some reason not divulged the Prince put his name to the note, which finally found its way to Tattersalls.

Sir Frederick told King George, who was greatly vexed and ordered his treasurer to pay the note immediately.

H. the Duke of Connaught with respect to returning to Canada.

TAX ALL CHILDLESS OVER A CERTAIN AGE

Draft of Proposed Law in France Would Affect More Than Bachelors.

Paris, Aug. 4.—The Figaro has received from the Race Francaise Society the draft of a proposed law taxing not only bachelors but also all childless persons over a certain age.

According to statistics given by Dr. Bertillon, France has at present 1,350,000 bachelors, 1,800,000 childless families, 2,650,000 families with only two children each, and 2,400,000 families each with a single child.

The proposed bill, fixing for each citizen an obligatory minimum of three children, would impose a tax of \$6 for each non-existent child, so to speak, on every citizen of 40 years or over who has not three living children, or has not reared three children to the age of 21. The tax would, it is calculated, produce an annual revenue of \$12,000,000. The proposal has been submitted to the ministers of justice and finance, whose opinions have not yet been made public.

GERMANY ESTABLISHES A NEW NAVAL PATROL OF CRUISERS

WINSTON CHURCHILL'S PLANS FOR DOMINION IMPERIAL SQUADRON TAKEN UP BY GREAT BRITAIN'S RIVAL—CLOSE TO BRITAIN'S SHORES.

London, Aug. 5.—According to despatches from Berlin, the Imperial government has officially announced the creation of the long contemplated special cruiser squadron, which will be made available for foreign service, and the protection of Imperial German interests abroad.

This is the German government's decision, which has been expected for some time in naval circles here, and which definitely creates a new phase of German naval policy. For many decades the German fleet was concentrated in the Baltic. It then overflowed into the North Sea, and became a standing menace to British naval supremacy by enabling a large and constantly commissioned force to be kept within striking distance of British shores. The new departure seems to be precisely the move which was anticipated by Mr. Winston Churchill in his introduction of the naval estimates.

GOVERNOR LIND OF MINNESOTA IS THE AMBASSADOR TO MEXICO

WILL BE THE PERSONAL REPRESENTATIVE OF PRESIDENT WILSON TO REPORT—UNITED STATES WILL NOT RECOGNIZE HUERTA REGIME.

Washington, Aug. 5.—No announcement of policy or further steps will be taken by President Wilson in the Mexican situation until Governor John Lind of Minnesota, personal representative of the President, arrives in Mexico City and familiarizes himself with conditions there.

This was made clear at the White House today. Mr. Lind carries instructions to talk informally with prominent Mexicans. Administration officials indicate that no steps toward a mediation policy would be attempted until after Mr. Lind had
