Take notice that the PORT EDWARD TOWNSITE COMPANY, LIMITED, of Prince Rupert, in the Province of British Columbia, will apply to the Comptroller of the Water Rights for the approval of the plans of the works to be constructed for the utilization of the water from Wolf Creek, Skeena District, for which application has been made by the company, and under which application Permit No. 107 has been issued by the Comptroller of the Water Rights, granting permission to the PORT EDWARD TOWNSITE COMPANY, LIMITED, to make surveys for the construction of the works to be constructed for the utilization of the water from Wolf Creek for Municipal Purposes.

The plans and particulars required by Section 70 of the "Water Rights Act" as amended have been filed with the Comptroller of Water Rights at Victoria, and with the Water Recorder at Prince Rupert, B. C.

Take notice that the said PORT EDWARD TOWNSITE COMPANY, LIMITED, also intends to apply under Part Six of the "Water Rights Act" for approval by the Minister of Lands and Works for the company as outlined in the plans and particulars now on file with the Comptroller of Water Rights at Victoria, and with the Water Recorder at Prince Rupert, B. C., in connection with the company's application.

Copies of the application, under Section 70 of the "Water Rights Act" and of the petition for approval of the undertaking by the Minister of Lands and Works, are on file in the office of the Water Recorder at Skeena District at Prince Rupert, B. C., and in the office of the Comptroller of the Water Rights at Victoria.

Objections to the applications may be filed with the Comptroller of Water Rights, at Prince Rupert, B. C., this 13th day of June, 1913.

TIMBER WOLVES LIKELY TO EXTERMINATE WOOD BUFFALO

THERE ARE STILL SEVERAL LARGE HERDS OF WILD BUFFALO IN NORTHERNMOST PARTS OF ALBERTA—WOLVES ARE SLAYING MANY.

Ottawa, Aug. 7.—Investigations carried on by the forestry branch of the Dominion government have proven conclusively that several large herds of wild buffalo are still to be found in the hilly country on the northern boundary of Alberta, in the neighborhood of Slave River. A party working under the direction of Mr. A. J. Bell, the government agent at Fort Smith, made a study of the habits and obtained photographs of these buffalo, which are identical in appearance with the former buffalo of the plains, the remnants of which were forced to seek shelter in the timbered fastnesses of the north.

These wood buffalo when fully grown are able to defend themselves against their natural enemies, but in the winter before the young yearlings have attained full strength they frequently fall victims to the timber wolves. Bands of these wolves hover around the flanks of the buffalo herds as they pass in single file from one feeding ground to another, waiting for the opportunity to cut off a young animal and drive it from the beaten trail into the deep

snow, where it is unable either to escape or to defend itself.

Partly eaten carcasses were found by the investigating party which clearly indicated that the wolves were the cause. These grey timber wolves are of large size and are very numerous in this region, where they menace the existence not only of wood buffalo but of other game as well. The Dominion government already offers a bounty of \$20 apiece for their destruction, but so sparsely inhabited is the region and so clever are the wolves in avoiding traps that the present bounty has had little effect in reducing their numbers. It is possible that the Dominion government will raise the bounty here to \$40 in hopes of ridding the region of these pests and of preventing the extinction of the last wild bison in existence.

Office Closed

The office of C. H. Handasyde will be closed until August 13th owing to absence from the city.

The gay deceiver never deceives any one so much as he does himself.

NEWS FROM SMITHERS

The rush for lots last week made by the merchants of the valley and the two Hazeltons was in the nature of a surprise to the most optimistic, there being over a hundred lots sold during the first four days, netting the owners something over \$30,000.

O. B. Eller, an insurance agent who was on his way from Hazelton to Fort George, was thrown from his motorcycle at North Bulkley on Sunday, sustaining a broken leg. He was taken to Telkwa, where his injury was attended to by Dr. Wallace.

Among recent visitors to Smithers was W. W. Wrathall, the Hazelton photographer and stationer, who will soon open a place of business here. Mr. Wrathall rode from Hazelton to Telkwa in four hours on his motorcycle, coming from the latter town in O'Neill's car, with a party of visitors from Hazelton.

They are going to build a seven million dollar hotel overlooking Hyde Park, London. The hotel can be made very attractive to American visitors by heating it in winter.

Father Time never takes a vacation. In fact, he is never speedier than when one is having one's annual outing.

THE cool lunch for hot days. Serve it in the country. Take the motor car, the family, a friend or two, some sandwiches—and

7,500 Employees to Make It

The Anheuser-Busch main plant and branches give employment to 7,500 people.

The main plant covers 142 acres, equal to 70 city blocks. There are 110 separate buildings, a city in themselves.

Hundreds of visitors every day go through with guides to inspect this immaculate institution.

One cannot see it without the conviction that quality is an Anheuser-Busch rule.

LUCKY FINDER GIVES MONEY TO ITS OWNER

James McLeod of Telkwa Discovers Big Roll of Bills on Roadside.

James Kennedy, of the Telkwa pool room, is congratulating himself on the return of \$416 which was lost last week between Telkwa and Decker Lake. The bundle, which was composed principally of one and two dollar bills, was found lying beside the road about twenty miles from town, where it had dropped off the stage, by James McLeod, and his honesty in making the find and looking up the owner should receive the commendation of everyone in the valley, as instances such as this are so few that they cannot be accepted as a matter of course.

When the package was returned to Mr. Kennedy he expressed his thanks most profusely, and gave the finder \$50 as a reward for his honesty.

Mr. Kennedy often ships bills of small denomination to Decker Lake for use in his business at that place, and only a few weeks ago a package containing \$195 was lost. This was found by Cy Arnott and returned to the owner. Kennedy considers himself very fortunate that these valuable packages were found by two honest men out of all the number who travel that road.—Telkwa Tribune.

JAPS SCORE

Oriental Outwit Intent of Alien Land Act.

Sacramento, Aug. 5.—"If Japanese continue to incorporate their land at the rate they have during the last two weeks, every acre they own in California will be incorporated by August 10th, the date the anti-alien land act becomes effective," said Mr. Robert V. Jordan, corporation license secretary, today.

Ninety Japanese land companies, with a combined capitalization of \$4,000,000, have been organized since the alien bill was signed by Governor Johnson. Fourteen companies filed articles of incorporation today, and sixteen on Saturday. In most instances the Japanese have subscribed for the entire capitalization.

Save One Ton of Coal in Every Six

The Economizer will do it.

While the cost of living has undoubtedly been growing greater, at the same time it is true there are some inventions that will offset this increased cost of living, and the careful housewife takes advantage of these inventions.

On every Gurney-Oxford range there is an Economizer which controls not only the drafts but also the entire combustion or burning of fuel to create heat.

This Economizer will save 1 ton of coal in every 6 that you would use with the ordinary range.

The Economizer is a simple device, absolute in its control. By merely moving the lever you can obtain any degree of even heat in the oven. This insures the satisfaction of always having light, delicately crusted bread and biscuits.

The kitchen fire ceases to be a worry if the Economizer is on your stove.

The Gurney-Oxford is the final result of experimental thought. Science has given it a Divided Flue, a new Special Grate, and a Broiler attachment.

This Gurney-Oxford range is primarily a saver of money, time, and energy.

NOTICE OF APPLICATION FOR THE APPROVAL OF PLANS AND OF PETITION FOR APPROVAL OF UNDERTAKING

Take notice that the PRINCE RUPERT HYDRO-ELECTRIC COMPANY, LIMITED, of Prince Rupert, B. C., intends to apply for the approval of the plans of the works to be constructed for the utilization of the water from Falls River and Ktada River, which the applicant is by water records numbers 21, 27, 34 and 50 authorized to take, store and use for power purposes and in respect to which further applications for 508 cubic feet per second from Falls River and 266 cubic feet per second from Ktada River are now pending. The power plants to be situated on Lots 635 and 695, respectively, Range 5, Coast District.

Petition for approval of the undertaking was also made to the Honorable the Minister of Lands under Part 6 of the Water Act.

Objections to the application may be filed with the Comptroller of Water Rights, at Prince Rupert, B. C., this 21st day of July, A. D. 1913.
