Skeena Land District—District of Coast, Range V.

Take notice that the PORT EDWARD TOWNSHIP COMPANY, LIMITED, of Prince Rupert, in the Province of British Columbia, will apply to the Comptroller of Water Rights for the approval of the plans of the works to be constructed for the utilization of the water from Wolf Creek, Skeena District, for which application has been made by the company, and under which application Permit No. 107 has been issued by the Comptroller of Water Rights, granting permission to the said PORT EDWARD TOWNSHIP COMPANY, LIMITED, to make surveys for construction of the works for diversion of two cubic feet per second from said Wolf Creek for Municipal Purposes.

The plans and particulars required by Section One of the "Water Act" and of the "Water Rights Act" for approval by the Comptroller of Water Rights are as follows: A plan of the works to be constructed, showing the location of the works, the nature of the works, and the area of land to be occupied by the works, and a plan of the works to be constructed, showing the location of the works, the nature of the works, and the area of land to be occupied by the works.

Objections to the application may be filed with the Comptroller of Water Rights, at Prince Rupert, B. C., on or before the 15th day of August, 1913.

By A. W. ARNEW, Agent.  
July 14, 1913.

WELL, WHAT DO YOU THINK OF THIS?

It is an actual photo of a "creation" recently seen on one of the French race tracks. It was worn by a prominent society lady, not a mannequin.

## INVENTS INFERNAL MACHINE TO TERRIFY A SOCIETY GIRL

EXPERTS EXAMINE ELECTRICAL CONTRIVANCE INVENTED BY YOUNG CRIMINAL TO FRIGHTEN GIRL INTO GIVING HIM MONEY.

Salt Lake City, Utah, Aug. 11.—In the presence of electrical experts, federal officers and detectives here today was demonstrated what was declared to be perhaps the most remarkable death dealing machine invented in recent years.

The invention is the work of W. L. Cummings, 23, who confessed to federal and municipal officers when he was arrested that he threatened to use it to destroy Miss Dorothy Bamberger, a wealthy society girl, unless she gave him \$1,000. After the demonstration government officers took possession of the invention.

What is held to be of more importance, the invention, it is said, can be turned to the saving of life by preventing train or ship collisions.

Electricians took the machine into a steel and concrete vault in an office building. Another part of the contrivance, on which were mounted a bell and an incandescent globe, was placed in a closed room across a hall. Then the electric current of the machine was turned on. On the unattached box in the other room the bell rang and the lamp glowed brightly.

In his acknowledged letter to Miss Bamberger, Cummings sent a diagram of his invention, saying he would place a suitcase of nitroglycerin in her room and explode it from a distance.

The demonstration today, say the electrical experts, proves that he could have accomplished this.

In speaking of his invention as he sat in his cell, Cummings said the attachment could be installed in locomotive cabs, where it would give a positive signal if a train ran past a closed block signal. In war, he said, mines could be exploded without wire attachment.

The prisoner told the police he had been induced to try to blackmail Miss Bamberger by two other men, who, he believed, were members of a New York gang of blackmailers.

### BRITAIN'S FAIR POLICY

Why She Will Not Exhibit at the Panama Exposition.

It is estimated that the Panama-Pacific fair will represent a total expenditure of \$50,000,000, including appropriations by the nation, the state and counties of California, the city of San Francisco, various states and foreign nations and individual exhibitors.

In the last fifty years it is safe to say the United States government has contributed over \$30,000,000 in aid of expositions, domestic and foreign. For all the while this country has been organizing local and national celebrations in the guise of industrial shows, from the Mediterranean to the North Sea Europe has shown the same zeal. It is a form of enterprise of which Great Britain has been more chary than many other countries, so that her complaint in this case is in keeping with her general policy at home.

## CATTLE IMPRISONED GIRLS IN AUTOMOBILE

Five Lost on Prairie Spend Night Surrounded by Thousands in Herd.

Muskogee, Okla., Aug. 11.—Five girls in a touring car, lost on the prairie between Muskogee and Chelsea, Thursday night, were caught in a big cattle herd which held them and the car when the cattle broke up. The girls are May McSpadden, Lizzie Sharpe and Viola Milliam of Chelsea and Misses Smith and Rucker of Claremont.

They had decided to drive from Rucker's ranch to Muskogee, sixty miles. They lost the road and darkness caught them on a wide prairie. The motor went wrong and the big herd of cattle began to mill around the machine. There were thousands in the herd. The frightened cattle were jammed so close to the car that at times it almost tipped over. The cattle dispersed after daylight.

## TAKES CARBOLIC AND TELEPHONES FOR AID

Husband's Employer Arrives in Time to See Her Fall—Doctors are Powerless.

Edmonton, Aug. 11.—At 10:30 in the morning, in her rooms over the City Meat Market, 34 Whyte avenue east, South Side, Mrs. Lund took two ounces of carbolie acid, from the effects of which she will probably die in the South Side Hospital within an hour, although medical men are working upon her to endeavor to avert the consequences of the fluid.

The attempted suicide was remarkable in its deliberateness. At a few minutes before the hour stated her husband's employer, Mr. Bridge, of Bridge & Joyce, carpenter contractors, received a phone message from the woman that he was wanted at the Lund rooms over the meat market. When he arrived the woman met him at the door.

"What is the matter?" he asked. "Suicide, I guess," the woman replied.

Doctors were called. In a moment the woman dropped and notwithstanding that doctors and the ambulance were called and that she was taken to the hospital, where she got every possible treatment, there is practically no hope for her recovery.

### THE KING'S SYMPATHY

Sent to Wife of F. S. Cody, the Aviator.

London, Aug. 11.—King George conveyed yesterday to Mrs. Cody and her sons his sincere sympathy and sorrow at the death of F. S. Cody, the aviator.

The King telegraphed: "I have received with profound regret the news of the death of Mr. Cody. I saw him on several occasions at Aldershot and I always appreciated his dogged, determined and dauntless courage. His loss will be much felt at Aldershot, where he did so much for military aviation."

### AGED VETERAN DIES

Fought Under William Lyon Mackenzie.

Edmonton, Aug. 11.—John Wilkinson, 103 years old, died at the Royal Alexandra Hospital last night. He was born in Ireland and came to Canada with his parents when he was 5 years old. They located at York, now Ontario. He fought in the rebellion of 1837-8 under William Lyon Mackenzie. He was a member of the Orange Lodge for 77 years and a Mason for 80. His oldest son died last year at the age of 79.

It is a waste of time to argue with a fool.

## THE PRICE OF HOMAGE

ONCE when King Edward VII. paid a visit to Sheffield, all the fires in factories and plants were allowed to die out. Not a wheel in Sheffield turned for twenty-four hours. The primary object of this was to lift the pall of smoke that hovers over that wonderful steel-producing city, and to ensure, as far as man was able, a bright day and a blue sky for an auspicious occasion. It was Sheffield's expression of respect.

BUT the action was unique—it was unprecedented—it was unthought of that those hundreds of mighty furnaces, raging night and day, and those seething boilers, with quivering valves, should ever be allowed to cool. This extinguishing of fires cost Sheffield hundreds of thousands of dollars—the price of the effort to get back again to high-power efficiency.

SOME business men in Canada pay an unwitting homage, not to a king, but to a superstition—the superstition that hot weather justifies letting the fires of business energy go out. They stop Advertising in the Summer months. By paying homage to tradition, custom, superstition, they have allowed Summer to become their "dull" season. You know how dull it can be when you don't advertise. Do you know how brisk it can be made by Advertising? Do you realize how much momentum you now lose in the Summer that must be regained in the Fall?

DON'T LET YOUR ADVERTISING FIRES DIE OUT THIS SUMMER.

Advice regarding your advertising problems is available through any recognized Canadian advertising agency, or the Secretary of the Canadian Press Association, Room 605 Lumsden Building, Toronto. Enquiry involves no obligation on your part—so write, if interested.

### NOTICE OF APPLICATION FOR THE APPROVAL OF PLANS AND OF PETITION FOR APPROVAL OF UNDERTAKING.

Take notice that the PRINCE RUPERT HYDRO-ELECTRIC COMPANY, LIMITED, of Montreal, Quebec, will apply to the Comptroller of Water Rights for the approval of the plans of the works to be constructed for the utilization of the water from Falls River and Khata River, which the applicant is by water records numbers 21, 27, 36 and 50 authorized to take, store and use for power purposes and in respect to which further applications for 500 cubic feet per second from Falls River and 266 cubic feet per second from Khata River are now pending. The power plants to be situated on Lots 635 and 695, respectively, Range 5, Coast District.

Petition for approval of the undertaking will also be made to the Honorable the Minister of Lands under Part 6 of the Water Act.

The plans and particulars required by sub-section one of Section 70 of the Water Act, as amended, and the petition, plans and exhibits for the approval of undertaking as required by Section 89 and Part 6 have been filed with the Comptroller of Water Rights and with the Water Recorder at Prince Rupert.

Objections to the application may be filed with the Comptroller of Water Rights, at Prince Rupert, B. C., on or before the 21st day of July, A. D. 1913.
