#### PRINCE RUPERT FAIR GROWING INTO A MONSTER EXPOSITION

APPLICATIONS FOR SPACE IN WHICH TO SHOW NEW SCIENTIFIC AND MECHANICAL DEVICES COMING IN FROM ALL PARTS.

Applications for space in the different departments of the Prince Rupert Exhibition to be held September 24 to 26th are being received daily by the management showing the vast interest that is now being centered on the forthcoming event. Points as far apart as Vancouver and At-  
Fort George and the Queen Charlotte Islands will contribute to the product of the field, the orchard, the mine and the sea, besides manufactured articles of every kind and description. It is estimated that the exhibition grounds will have ample space for all exhibits, and the big auditorium building which will be used for the main industrial hall will be artistically arranged and decorated. At night the whole of the fair grounds will be lighted by myriads of incandescent lamps. Several attractive features will be staged during the three days of the exhibition, including day and night fireworks supplied by the Hitt Fireworks Company. These pyrotechnic spectacles will be the first of their kind seen in the north. The morning programme consists of twelve pieces of American and Japanese day-light fireworks, some of which will distribute over the city hundreds of souvenirs. The night programme consists of 56 pieces, including Hitt's celebrated Alaska-Yukon-Pacific Exposition success "The Electric Flashlight Screen."  
Another amusement feature that will add greatly to the pleasure of all visitors to the fair will be the Pollard Opera Co., who have been specially engaged by the Westholme Theatre for the week of the Exhibition. This well-known Australian Juvenile Opera Company will present a repertoire including the master works of Gilbert & Sullivan.  
The management, through the assistance of sub-committees has arranged splendid cards of land sports, water sports and carnival horse racing, log chopping contest, besides an Indian band contest.  
There will be music galore throughout the three days, as at least eight bands will be present for the fair.

#### THREE HUNDRED DOLLARS PER DAY FROM SHUSHANNA CLAIMS

CONSERVATIVE ESTIMATE OF DR. CAIRNS, THE NOTED GEOLOGIST—HAD THOUSAND POUNDS OF GRUB STOLEN.

Despatches from Dawson state that Dr. Cairns, the Canadian government geologist, and his party, who arrived from the Shushanna strike, brought more than a million pounds of gold with him. Dr. Cairns says that the district is about six by twelve miles in area, bounded by Johnson, Wilson and Biss and Summit, within which most of the creeks are staked, the Bonanza, Coarse Money, Little Eldorado, Gold Run and Tootate. He says that labor is scarce because there are no supplies for the men who remain there.  
The doctor continues that the great need is supplies, which should be placed within reach for winter hauling. There will be no winter mining, but plenty of work for claim owners, building cabins and cutting wood and lumber, and in freight.  
Many stampereders are wandering about looking for claims to stake, but find that the ground has been all taken.  
One thousand pounds of supplies which Dr. Cairns had were stolen from the caches along the upper White River, and the Mounted Police will open three posts along this route within the next few days. Dr. Cairns says that United States and Canadian officials positively should keep out everyone not going to the diggings with ample supplies, while the Dawson News urges the marshal and police to guard against toughs.  
The doctor reports also that the discoverers are taking out three hundred dollars a day per man from Little Eldorado claims.

#### PAYMENT WAS DUE

Board of Works Did Not Recommend Advance.

Alderman Dybhavn, acting chairman of the board of works, takes exception to the manner in which The News reported yesterday the recommendation made by that body for the payment to S. P. McMordie of \$12,000 for grading work done in Section Two. The expression used yesterday was that "\$12,000 be advanced to S. P. McMordie on the grading work which had been done in Section Two." Alderman Dybhavn states that this amount was due for work done and that the recommendation is not for any advance. There was no intention in The News' report to intimate that this amount of money was not due to Mr. McMordie.

#### SCOTS DANCE TONIGHT

There Will be Doings in St. Andrew's Society Clubrooms

This is the night of nights when the Scottish born will dance the dances of the country of their adoption and Canadians and Americans will frisk about in the reels and strathspeys of the land of the heather. There will be a merry time. There always is when the St. Andrew's Society puts on an entertainment.

#### THE WEATHER.

The weather report at 5 o'clock this morning read: Barometer, 30.202; maximum temperature, 64; minimum temperature, 49.

#### DOUKHOBORS PUT UP FIGHT WITH POLICE

Provincial Police Have to Relinquish Prisoner and Several Are Severely Injured.

(Special to The Daily News.) Grand Forks, B. C., Aug. 20.—The Provincial police and the local authorities started out yesterday to arrest a Doukhobor in connection with the suspicious death of a woman and on evidence given at the inquest. They made the arrest, but in a very short time had to relinquish him and flee before a storm of flying rocks and the pitchforks of a mob of fifty very mad Doukhobors.

#### DYNAMITE CAR EXPLODED

Rebels in Mexico City are Adopting New Tactics

(Special to The Daily News.) Mexico City, Aug. 20.—A car laden with dynamite was yesterday exploded on the street line at Tacabay, one of the suburbs of the capital. Over a hundred were killed and injured by the explosion.

#### Killed in Train Wreck.

(Special to The Daily News.) Fort Smith, Ark., Aug. 20.—Twenty persons were killed and many injured in the wreck of the northbound St. Louis-San Francisco passenger train last night.

#### RUPERT BANK MAN BRINGS BACK BRIDE

W. J. Smithers Was Wedded at Winnipeg to Miss Linda Robinson.

W. J. Smithers returned on Monday from the east, accompanied by his bride. The Vancouver Province gives the following account of his marriage and stay in Vancouver:  
At St. Andrew's Presbyterian Church, Winnipeg, last Monday, Mr. W. J. Smithers of the Bank of British North America, Prince Rupert, was married to Miss Linda Robinson of Middlebrough, England, the ceremony being performed by Rev. Dr. Sinclair. The bride, who crossed the Atlantic and half the continent to keep her engagement, was accompanied by her father Mr. William Robinson, a prominent citizen of the Yorkshire city, who also gave her away. She looked charming in a gray travelling suit with hat to match and carried a beautiful bouquet of roses. Mr. and Mrs. Smithers arrived in Vancouver yesterday and are the house guests of Miss Clara Simmonds, 1243 Alberni street, who entertained in their honor last night. An enjoyable program of song, music and speech was carried out, those contributing including Mr. and Mrs. John Hope, Miss Bland, Mr. John Ricketts and Mr. George Simmonds. Mr. Smithers was in the Vancouver branch of the Bank of British North America until his transfer to Prince Rupert over a year ago. The guests paid tributes to his many good qualities and congratulated him on his marriage to an accomplished lady from his old home town in England.

#### PARTY OF SCIENTISTS COMING TO RUPERT

(Special to Daily News.) Vancouver, Aug. 20.—Two hundred of the geologists from the international congress, recently held at Toronto, will reach here on Monday in two special trains. They will start north to Prince Rupert at midnight on the steamship Maquinna. This is the new Canadian Pacific steamer that was launched last month. She has been specially chartered for the party and this will be her first trip to the north.

#### REPORTS ON LIGHT, TELEPHONE, WATER

Lighting and Telephone Departments Continue to Show Prosperity.

The report of the electric light department, presented at the last meeting of the city council, shows a deficit for the months of June and July of \$378. This deficit was owing to the large purchase of new material. The report for the seven months ending in July shows a good balance, \$1,188.

The following is the report for the seven months:

#### HARRY THAW ARRESTED ON THE CANADIAN SIDE

Held on Request of American Officials as a Fugitive from Justice.

(Special to The Daily News.) Coaticook, Que., Aug. 20.—Harry Thaw arrived here yesterday in a powerful automobile. He was arrested by local officers at the request of American officials and is held as a fugitive from justice. The American officials have applied to Ottawa for extradition, but this cannot be done in the case, and the only recourse is to deport Thaw as an undesirable. It is expected that this course will be carried out this evening.

#### SPORTS COMMITTEES FOR FAIR SELECTED

Committees are Named for Land and Water Sports, and Horse Races

Interest in both the land and water sports, as well as the horse racing events for the forthcoming fair has been stimulated by the announcement of several programmes covering the three days of the exhibition.  
The land sports and children's races will be managed by a sub-committee composed of W. D. Vance, chairman, Fred Stork and C. H. Orme. All entries for athletic contests must be in hands of Chairman Vance not later than Saturday, September 20th.

The water carnival and contests will be in charge of H. S. Wallace, Vernon Gamble, A. E. Oakley and A. G. A. Vidler. Entries and information are to be obtained from Mr. Vidler, secretary of the Prince Rupert Rowing and Yacht club.  
The horse races will be managed by a committee composed of A. J. Prudhomme, J. A. Dade and George Frizzell.

#### OVER ONE HUNDRED ARRESTED FOR NANAIMO STRIKE RIOTS

CROWN PROSECUTOR BELIEVES IT WILL TAKE SEVERAL WEEKS TO CLEAR THE DOCKET—JINGLEPOT MINE STARTED OPERATIONS TODAY.

(Special to The Daily News.) Nanaimo, Aug. 20.—The arrests in connection with the strike now number over a hundred and it is expected that during the day the rest of the warrants, which altogether number one hundred and forty-nine, will be served. These warrants were sworn out on charges of rioting, looting and arson.  
Joseph Taylor, vice president of the Ladysmith local and a prominent leader in the strike at that point, was arrested Saturday night at Victoria, where he went as a delegate to a meeting of the B. C. Federation of Labor, of which he is also a vice president. It was thought by the authorities that he intended to escape the service of the warrant for his arrest, so instructions were telegraphed to Victoria for his apprehension. He had been apprised by wire of the order and endeavored to leave the train at Victoria West, where he was caught.

Over fifty government secret service men are employed in gathering evidence to be used in the trials of those arrested. Crown Prosecutor T. B. Shoebottom expects to be in a position to commence prosecuting the cases in three or four days. It is probable that a preliminary hearing will be given in each instance and Mr. Shoebottom anticipates that it will be several weeks before the docket is cleared.  
The prisoners from Ladysmith, Extension and South Wellington are held on various charges such as attempted murder, arson, inciting to riot and unlawful assembly. Most of the arrests were made while the men were in bed. Guthrie, the president of the local union, was included in the roundup.  
The Jinglepot mine renewed operations today with a small force of forty men at work. The Western Fuel Company's mine has been flooded.  
Starving men and women who took work at Extension mines in the beginning of the strike trouble have been brought to this city by the militia forces. The most of the refugees thus brought in are in a most piteous plight. They tell harrowing tales of the privations and hardships that they had to stand and the miserable condition in which they were placed by the strikers. They tell of lost children, of lost homes and separation from husbands on the part of the wives in many instances. The story that these people tell is of the most heart-rending character.

#### ONLY PARTIAL LIST OF SAVED FROM STEAMSHIP DISASTER

NO WORD YET RECEIVED OF MISS WILSON—LIST OF SOME OF THOSE SAVED—J. F. PUGH REPORTED AMONG RESCUED.

No further news has as yet come in as to the number of Prince Rupert passengers lost on the State of California. A wire was sent by J. H. Rogers, the local agent of the Pacific Coast Steamship Company, inquiring for news of Miss Wilson, but no reply has yet been received.

#### CANADIAN'S STORY OF FLIGHT FOR HIS LIFE FROM MEXICO

DR. E. R. FISHER IS NOW IN PRINCE RUPERT AFTER MANY EXCITING ADVENTURES IN THE REPUBLIC OF REVOLUTIONS.

"There will be no settlement in Mexico until there is foreign intervention, whether it is benevolent or by force of arms." Such is the opinion of a Canadian now in Prince Rupert who was one of the many who had to flee for life from the storm-tossed republic.  
Dr. E. R. Fisher, the brother of W. S. Fisher, local manager for C. D. Rand, was through some of the worst parts of the Mexican troubles, but eventually found things getting altogether too hot and made the best of his way to the frontier. Now, after not a few trying and hazardous experiences, he is once more back on British territory. He arrived in Prince Rupert this morning by the steamer Prince George.

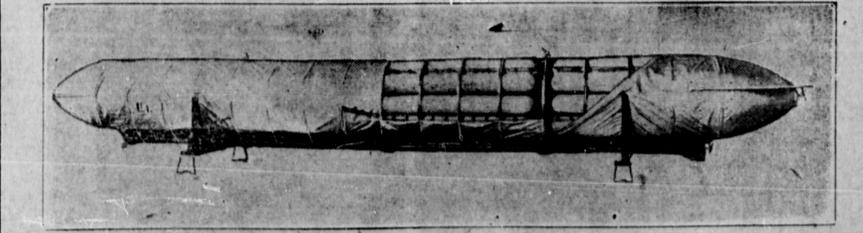

Dr. Fisher went into Mexico last December as surgeon for the Parano-Durango Railway, a concern operated by American capital. He resided at kilometre 84, beyond Parral, in Chihuahua. This railway company was one of the many corporations that suffered from the turbulent state of the country. During one year it was the victim of no less than eighty-three raids from the rebels. The company recognized the impossibility of coping suc-

#### PUBLIC MEETING

A public meeting will be held at the Empress Theatre on Wednesday evening at 8:30 o'clock for the purpose of discussing the financial affairs of the city.

I urgently request a large attendance in order that every citizen in the city may be thoroughly apprised of the situation.

T. D. PATTULLO, Mayor.

GERMAN AIRSHIP TO CARRY TWO HUNDRED PASSENGERS  
This huge dirigible balloon, constructed by a competitor of Zeppelin, is the last word in aerial navigation. In a test made of it last week a record flight of 45 miles in fifty-five minutes was made, carrying eighteen passengers who were adventurous enough to make the trip. It has a capacity of two hundred passengers and crew, and will probably be put on a regular passenger schedule between Berlin and Stuttgart.
