EVELYN THAW AFRAID HARRY WILL ATTEMPT TO KILL HER

WILL STAY IN NEW YORK AS SHE BELIEVES HERSELF SAFER THERE THAN ANYWHERE ELSE—THAT HE LOVES HER IS ABSURD.

New York, Aug. 30.—"Harry Thaw love me? That is the worst yet," Mrs. Evelyn Nesbit Thaw said today as she was preparing to go, under police guard, to the roof garden matinee where she was to appear as a dancer. She had just heard Thaw's latest alleged lament that she had returned to the stage.

WHERE HARRY THAW IS HELD

The courthouse and jail at Sherbrooke, Quebec, where Thaw is detained. After demanding a new tie, a shave and clean sheets he consented to see the newspaper reporters.

"Do any of his actions tend to show that he loves me? It is absurd nonsense. If he loved me he would have left me here in New York among strangers to shift for myself, to starve if I could not find some means of making my own living?" "I am really frightened now. The news that comes from Sherbrooke is simply frightful. What shall I do if that man gets back to New York? The situation is

All well. I shall take a rest before coming to Elm Street as I might be asked for interviews and do not wish to refuse, yet do not care to make any statements. Hope M. and G. arrived safe and you all go home together. Have sent a short note to journal. H.K.T.*

THAW'S LETTER TO HIS MOTHER

It was originally intended to be a night letter, but was mailed the morning of his escape. The writing is Thaw's but the address was written in a crude hand.

getting more serious every minute for me. If he should go free I would be desperate.

"Harry's controlling impulse is his egotism. It has been that which has always got him into trouble. It was his emotion that caused his arrest. When he learned that I had made a success on the stage it made him furious. He wanted to see me in the gutter and to know I could get only by his aid.

This contract, the show girl testified, was made some time in 1907 or 1908, after Thaw had killed Stanford White, and was now in the possession of her lawyer, John Reilly, of this city. Mr. Reilly also had cheques for \$15,000—one of them for \$5,000—bearing Mrs. Mary Thaw's signature, none of which had been honored, the witness added. These cheques, she said, were the first payments on the contract.

NEWS FROM STEWART.

Mrs. J. G. McLaren is back from a brief visit to Vancouver.

Miss M. Watts, the popular school teacher returned last week from an extended holiday spent in Vancouver and is once again busy with her class.

William Fraser, a former secretary of the Miners' Union, is home from a two months' stay at Granby Bay.

Mrs. Harry Smith of Duncan, owner of the Big Store premises, spent the past week here looking after her interests.

Mrs. Lougheed and Miss Selkirk, sisters of Mrs. T. W. Falconer, left on the last boat after spending several very happy weeks visiting here.

A. E. Rolph, after disposing of his lumber to the Granby Consolidated Mining Co., sold his premises to the Portland Canal Transfer Company and left last Thursday for Seattle. The transfer company has spent a considerable sum in converting the buildings into a modern stable.

Master William Smitheringale, who has been the guest of Mrs. William George, left on the last boat for his home in Vancouver so as to enter school.—Portland Canal Miner.

QUEENSTOWN NOTES.

Freddie Ives got his first "duck" on Saturday last in the harbor. He fell into the chuck while skylarking on the Westover.

Rev. H. H. Greene visited Mayer Lake district during the week. He was greatly impressed with the country as one of the best for farming and says that with the completion of the wagon road the settlement will increase more rapidly.

A sample of the workmanship of the Hazelton brothers, boat builders, Woden River, was greatly admired by local people last Saturday on the arrival of Rev. H. H. Green's 14 foot row boat. The firm are to be congratulated on turning out such splendid work.

Henry Holland, the well known Woden farmer, paid his first visit to Queenstown this week. He was so pleased with the place and its future that he invested in town-site property. Mr. Holland is erecting a one storey frame building for Magistrate Harrison at the east end of the townsite.

Mr. Gray of Toronto, who is interested in a large number of timber limits in the vicinity of Ian Lake and Sewall, spent the past two weeks looking over the property, being accompanied by Arthur Robertson and Jimmie Stacks. This was Mr. Gray's first visit to Graham Island and he was quite delighted with the climate, scenery and his holdings.

Jim West, who has been located at the south end of the island for the past seven years, made his first visit to this end of the island during the week. He left Skidegate last Monday week and travelled along the east coast to Masset via Tow Hill, thence up the inlet to Queenstown. Jim is loud in his praise of agricultural country, and the of this part of the island as an chances are that he will come back and locate.

Captain F. Evans of Nadu is as much at home in the water as on his farm digging spuds. While loading freight on his dinghy from the Kathleen a few days ago he was over anxious to take it all on one trip, with the result that when he finished loading there was no room for himself in the boat. He thereupon lashed a rope around his body and took to the water, swimming ashore with the dinghy in tow. Frank Van and Alex. Johnston can vouch for this.—Queen Charlotte Islander.

Druggists in Convention.
Toronto, Aug. 26.—The delegates to the annual convention of the Canadian Pharmaceutical Association, numbering nearly two hundred and representing almost every province in the Dominion, were formally welcomed to the city by Mayor Hocken this morning.

Gurney - Oxford Baking Worthy of the Art of a Chef

The average woman abhors having to spend all her time in the kitchen striving to accomplish some new dish in baking. But when she can have a range like the Gurney-Oxford, cooking becomes a pleasure and a fascination because of its consistent assured success.

The heat of the whole range is controlled by one lever, called the Economizer, with remarkable ease and effect.

The oven is entirely surrounded by a perfectly even heat of any degree required for any kind of baking. Pans of biscuits, light rolls, or cakes, all cook evenly with a delicate, golden brown crust without having to be constantly changed around next the heat as in other ranges.

This perfect Gurney-Oxford oven encourages a woman to attempt delicious and unusual recipes of her own invention. Her reputation for being a "splendid cook" is at once established.

The Gurney-Oxford Economizer regulates the exact degree of heat which is directed through the oven by a Divided Flue Strip with perfect evenness in every corner. The fire is held low on a Special Reversible Grate which burns every coal to a white ash. There is a lift-up Broiler Top to expose the full fire, and a smooth polished surface that requires no black lead. The Warming Closet is big enough and strong enough to hold a whole dinner service.

This Gurney-Oxford is the range for women of to-day.
