GOVERNOR WILLIAM SULZER AND THE IMPEACHMENT PROCEEDINGS

SULZER COUNSEL LOSES THE FIRST SKIRMISH IN THE LEGAL BATTLE--THE EIGHT ARTICLES OF THE IMPEACHMENT VOTED.

(Special to The Daily News) Albany, N. Y., Sept. 20.—Counsel for William Sulzer, the first governor of New York to be impeached, lost the first skirmish of the legal battle at the bar of the court of impeachment. The court is made up of members of the senate and the judges of the court of appeals, and Sulzer's counsel objected to four of the senators being permitted to sit as judges. The objection was overruled.

The eight articles of impeachment voted against Governor Sulzer by the assembly are, in substance:

That he filed with the secretary of state a false statement of his receipts and other monetary transactions during his gubernatorial campaign.

That he committed perjury in this statement.

That he bribed witnesses to withhold testimony from the legislative committee which in-

vestigated his campaign accounts. That he suppressed evidence by means of threats to keep witnesses from testifying before the investigating committee.

That he dissuaded a particular witness, Frederick L. Colwell, from attending under subpoena the sessions of the investigating committee.

That he committed larceny in speculating in stocks with money and checks contributed for his campaign.

That as governor he threatened to use his office and influence to affect the vote of certain public officers.

That while governor he corruptly used his authority to affect prices of securities on the New York Stock Exchange, in some of which securities he was at the time interested.

All but one of the forty-nine senators and the nine judges were present and Governor Sulzer was permitted to appear by counsel.

Seward, Alaska, Sept. 18.—After receiving Tuesday night by mail, Charles C. Daggett from Frank Brown, a former resident of Seward, who is now on Alfred Creek, says the Alfred Creek strike in the Cariboo country is good. The letter continues: "Olsen and Getchell have struck pay and are shovelling in dirt that averages better than \$10 per yard, but are mining under diffi-

culties. There is a continuous paystreak on Alfred Creek. I have a lay of 550 feet of ground above Olsen and Getchell and I am taking out money.

"Tuesday night my wife panned \$3.25 in one pan. I am running a bedrock drain, and as soon as it is completed will be taking out good pay. At present I am only on the edge of the pay.

"The pay is from four to six feet in depth, and how wide is not known. The country reminds me of Fairbanks and looks good to me. I am going to stay here till the freeze up, and then will go to Knik and return in the spring with a big outfit."

Several parties left Seward on the steamer Dora and more are leaving overland.

DISTRICT ORGANIZER CHRIS PATTINSON GETS THREE MONTHS

TRIALS OF ONE HUNDRED AND SIXTY-EIGHT MINERS START AT NANAIMO NEXT WEEK--RESUME OF SITUATION.

(Special to The Daily News) Nanaimo, Sept. 20.—Chris Pattinson, district organizer of the United Mine Workers of America, was yesterday sentenced to three months in jail under the vagrancy act.

By the first of next week everything will be in readiness for the final act in one of the most spectacular and most destructive labor disturbances which has ever taken place in Canada. Then will be commenced the trials of the 186 men who have been arrested in connection with the riots, pillaging and destruction of property during the three days when law and order were ignored in South Wellington, Extension, Ladysmith and Nanaimo, and mob violence ruled supreme. All who possibly could chose trial without a jury, the exceptions being the cases which the law makes it imperative to have a jury.

His Honor Judge Charles Barker, resident judge of the county court, a man respected by all classes of the community, will try the cases, which will occupy many weeks. They are nearly all of a most serious nature—aggravated assault, riot, riotous destruction of property and attempted murder. If heard at a rate of two cases per day,

nearly six months will elapse before the docket can be cleared, for there are over two hundred charges against the men in custody, and the number of witnesses in each case is large. It is likely, however, that the men will be tried in batches as in the preliminary hearings, although each man is entitled to a separate trial.
