The delegates who have been to Can- ada report that there is no big risk in loaning to western muni- cipalities, as was suggested re- the financial press found only two questionable cases.</li> <li>It is understood that negotia- tions are proceeding for the banding of the Winnipeg water-</li> </ul>	on a mirror, it is said, a moving picture of everything within a radius of several miles. He has been invited by Secretary of the Navy Daniels to take the machine to Washington for inspection by experts of the navy department. The instrument receives its im- pressions from a web of wires attached to a tall mast. For this reason it is adaptable to ships, making impossible, its inventor claims, night collisions, acci- dents due to fogs and running afoul of icebergs. It would be valuable too, it is claimed, for army use, as the movements of any enemy at night could be easily followed. <b>Gentleman Roger Freed</b>	and sides of the oven. A pan of biscuits in the front and back of the oven will brown with perfect evenness without having to change their places many times during the baking. The two back lids of the range also receive an equal cooking heat that will boil two kettles at the same time. CALL ON US-ASK FOR OUR NEW CATALOGUE, "STOVES AND RANGES" FRED STORK - 2nd Ave.
