EXHIBITION OF THE RESOURCES OF EMPIRE HELD IN LONDON

WILL BE EXCLUSIVELY FOR EMPIRE EXHIBITS AND BRING TOGETHER EVERYTHING OF BRITISH INDUSTRY FROM EVERYWHERE

London, Sept. 29.—Almost every country in the world has had an exhibition in London, devoted to its resources, but we have to go back a good many years since a purely British exhibition opened its gate in the metropolis. This is to be altered and for the past twelve months plans have been in course of preparation for the Imperial Exhibition to be held in 1915, which is to bring together everything of British industry and resource from all parts of the Empire.

The promoters announce that among the reasons for choosing the year 1915 is that the next meeting of the Imperial Conference is scheduled to be held then; that the Prince of Wales celebrates his twenty-first birthday; that it will be the 700th anniversary of the signing of Magna Charta, and the centenary of the Battle of Waterloo. Since the exhibition is to be devoted largely to trade, the publication of the report of the Empire Trade Commission in that year will be specially opportune.

URANIUM IN GERMANY

Important Deposit Found Between Saxony and Bohemia. Berlin, Sept. 29.—A most important deposit of uranium and pitchblende, from which radium is extracted, has been found on the German side of the Erzgebirge, a range of mountains between Saxony and Bohemia. The deposit is apparently a prolongation of that on the Bohemian side, which has hitherto been one of the principal sources of supply. The find has created great interest on account of the enormous demand for the treatment of cases of cancer. German cities and states have placed unfilled orders for uranium and radium amounting to \$625,000.

A FISHERMAN'S PETITION.

O Ananias! Father of all lies, Inspire me here beneath these Summer skies, While I recline among mendacious guys, That I, too, may depict the phantom rise Of that "lost fish" of most enormous size. Give me the patience to sit calmly by, While amateurs with veterans gravely vie, Recounting deeds performed with rod and fly. Then help me tell the final, crowning lie!

SPLENDID MEADOW LANDS IN THE KITWANCOOL VALLEY

HUME CRONYN OF THE HURON & ERIE LOAN CO. IS GREATLY IMPRESSED WITH FERTILITY OF SOIL.

Mr. and Mrs. Hume Cronyn of London, Ontario, left by the Prince George this morning for Vancouver after an interesting trip through the Kitwancool and Naas valleys. Mr. Cronyn made the trip in the interests of the Huron & Erie Loan Co., which owns twenty-one sections of land in the Naas. Interviewed by The News, Mr. Cronyn said that he was greatly impressed with the excellent land, particularly in the Kitwancool. There were wide stretches of open meadow land that were most prolific. He felt certain that it would develop into a wonderful agricultural district provided the climatic conditions are suitable.

Mr. and Mrs. Cronyn made the trip by train to Kitwangah, where they spent a few days with Horace Du Vernet. From there they travelled by pack horse through the Kitwancool valley and on to the Naas, accompanied by three or four local guides. On the trip, which was done leisurely in nine days, they experienced delightful weather, with only one wet day. Among the interesting experiences was the sighting of a black bear, which caused no trouble. The trip down the Naas by launch was most exciting. One thing that struck Mr. Cronyn particularly was the familiarity verging on contempt displayed by the Indian boatmen in the handling of gasoline. Aside from this they could not speak too highly of the attention paid by the guides to their comfort on the trip.

At Aiyansh they spent a couple of days at Mission House, the home of Rev. J. B. McCullagh, who practically founded the village. Mr. Cronyn was astonished at the large number of settlers going into the district. From Aiyansh to Port Nelson the trip was made in the Frog, a launch of the hydroplane type built by one of the local Indians. At the latter point Mr. and Mrs. Cronyn boarded the steamer Chelohsin, reaching Prince Rupert on Wednesday evening.

In the Highest Degree Profitable

Some men figure that as the mercury climbs up sales will fall down. And figuring that way, fate is kind and does not disappoint them.

So there has grown up a commercial superstition that Summer is a dull season. No greater fallacy has ever gone so long unchallenged.

Summer is a dull season for many lines—but there is no fundamental reason why it should be. For instance, take a typical case—that of the Canadian wallpaper manufacturers.

They wished to secure their placing orders from the retailers before the early Fall—when American lines are offered. Through education by Advertising, they advanced the season to start the middle of June, instead of the end of August, and they now beat their foreign competitors to the market by nearly three months.

Perhaps you face a selling problem that education by Advertising will solve. Perhaps your Summer business needs the tonic of Summer Advertising.

As the mercury climbs up to its highest degree, increase, rather than slacken, your Advertising and selling efforts. You will find it profitable—in the highest degree.

Advice regarding your advertising problems is available through any recognized Canadian advertising agency, or the Secretary of the Canadian Press Association, Room 803 Larned Building, Toronto. Enquiry involves no obligation on your part—so write, if interested.
