DERAILS TRAIN TO SAVE A MAN'S LIFE

Engineer Throws on Emergency Brake and Twelve Cars Go Into the Ditch.

Ellensburg, Wash., Sept. 29 .-In an effort to save an unknown man late last evening, Engineer Zuegler, of the eastbound Northern Pacific freight train, put on the emergency brake and sent twelve cars into the ditch.

Zuegler's train was travelling about thirty miles an hour when the searchlight showed a man tomorrow morning will (D. V. walking on the track. Jogging Laziness into Activity

The merchant whose business lags in the summer has himself to thank.

To slacken the selling pace in the hot season—to lessen Advertising activity-indicates a resignation which has no place in modern business.

If we think we cannot keep our business booming in summer time, we surely will not.

What a jolt it must have been to the fur trade, when the first mid-summer fur advertisement was run in a daily paper! Now many fur stores are following the example of that progressive fur man who dared to believe that fur sales need not go down as the mercury goes up.

Energy, linked with Advertising, has turned the month of January into the biggest selling season for white goods. Advertisements of a high stimulative power, combined with a disregard of "seasons," have opened up automobile selling two months earlier than was once thought possible. Advertising has started Christmas shopping early in October instead of the middle of December.

Advertising rises superior to seasons and thermometers. The right kind of Advertising strikes a responsive cord in human nature—and human nature is the same in August as in December.

Advice regarding your advertising problems is available through any recognized Canadian advertising agency, or the Secretary of the Canadian Press Association, Room 503 Lumsden Building, Toronto. Enquiry involves no obligation on your part—so write, if interested.
