LAST OBSTRUCTION IN PANAMA CANAL REMOVED BY BLAST — FOR PACIFICATION OF ULSTER

RAILWAY EMPLOYEES TO FORM MUTUAL INVESTMENT ASSN.

SCHEME FULLY EXPLAINED AT MEETING LAST NIGHT — WILL BE CAPITALIZED AT \$100,000.00 — A LARGE AMOUNT SUBSCRIBED

At a largely attended meeting of the United Railway Men's Association of this city in the K. of P. Hall last night, Mr. Johnstone, formerly paymaster on the line, explained fully the details of a proposition for the formation among the members of a mutual investment and building society. According to the plans outlined the company will be capitalized at \$100,000, divided into shares of \$1 each. The shares will be sold to railway men only and if a shareholder at any time wishes to dispose of his stock he must sell it to an employee of the railway. The principal object of the company is to provide funds which can be loaned to any railway employee who wants to build his own home rather than pay rent to a landlord. According to the plans the money loaned to any individual is to be paid back in instalments about equaling the rent that would have to be paid for the property built. Len Bell, one of the most popular locomotive engineers in the city, P. A. Warren, Frank McIntosh, Herman McLeod and Geo. H. Loney have already been elected provisional directors of the company and some \$4000 has been subscribed. The officers who

shall be elected to manage the affairs of the company shall give their services gratuitously.

In connection with the company it is proposed to erect a large block somewhere in the city where the railway men could have comfortable club rooms in which to spend their leisure hours. A good revenue could be derived from stores and offices in such a building.

An active canvass is to be made in the near future to supplement the funds already subscribed.

The meeting, which was attended by nearly two hundred men, partook of the nature of a smoker and as further entertainment a good programme was provided. Among those who took part were L. Green, T. McKinnon, J. McKenzie, W. Whitley and J. Murray. There were also a couple of boxing exhibitions which were decidedly interesting. In a contest between Sherman and Gilmour, two local men, the award was given to the former. No decision was given in the contest between Frank Smithers, a recent arrival from Toronto, and the Mexican Wonder. Len Bell, president of the association, acted as chairman in a most acceptable manner.

PREPARING FOR ANOTHER WILD TRIP TO ANTARCTIC REGIONS

BRITISH EXPEDITION, HEADED BY MR. J. FOSTER STACKHOUSE, EXPECTS TO LEAVE NEXT YEAR FOR LONELY KING EDWARD LAND.

London, Oct. 7.—Preparations are far advanced for a new and important British Antarctic expedition under the command of Mr. J. Foster Stackhouse, nephew of the famous physician, the late Sir Jonathan Hutchinson. Mr. Stackhouse was intimately associated with Captain Scott, and his objective will be King Edward the Seventh's Land and the unknown area to the east of it.

King Edward Land was discovered by Captain Scott in 1902, but he did not land there, and no man has ever trodden its soil. For the voyage, a special boat, the *Polaris*, has been built in Norway, according to designs approved by Nansen. Captain Scott also saw the plans and made suggestions regarding them.

According to present arrangements, the expedition will start from the Thames about August 15, and enter the ice at latitude 70 degrees south, and longitude 100 degrees west. It will winter in the pack ice and stay, if necessary, a second or third winter.

The return journey will be made by way of the Panama Canal. Mr. Stackhouse himself has never been to the Antarctic, but he has had a good deal of Arctic experience. The *Polaris* is built entirely of oak and is specially strengthened to resist ice pressure. In the bows she is over nine feet thick, and on the beam she has a thickness of two feet. The *Polaris* is fitted with engines of an indicating horsepower of 400, and has on her trials given the satisfactory speed of 10.25 knots.

She is the first vessel built for exploring purposes which has accommodation for members of the staff in staterooms, ten of which are fitted, giving single berths for ten persons. She is also fitted with harpoon guns. The *Polaris* is 148 feet 6 inches long between perpendiculars, has

a beam of 25 feet and draws 15 feet 6 inches by the stern. Electric light is used, and this is so wired as to give no cause for fear of fire by the fusing of the wires. Her storage accommodation is very extensive, and she can carry a very large supply of coal.

RETURN ENGAGEMENT
Popular Opera Company to Open Saturday Night.

The Pollard Juvenile Opera Company, which must be acknowledged the most popular organization of its kind that has ever visited Prince Rupert, will arrive in the city from the north on the Princess May on Saturday for a short return engagement. They will open at the Westholme on Saturday evening with "Sergeant Brue," the most pleasing bill of their previous engagement. The prospects are that they will be greeted with a bumper house.

AGAIN ARRESTED ON THEFT CHARGE
Fred Benson, the Indian from Stewart who was dismissed a week or so ago on a charge of stealing a blanket from a cache, was brought to the city again this morning on another charge of theft. He is to appear before Magistrate McMullin at 2:30 this afternoon.

Ottawa, Oct. 10.—Premier Borden denies that it is the intention of the government to punish Canadians sending help to the anti-home rulers in Ulster.

VANCOUVER MAY BUY THE ELECTRIC ROADS

Plebiscite Will Probably Be Submitted to the People at the January Election.

(Special to The Daily News.)
Vancouver, Oct. 10.—F. R. Clover, for the B. C. Electric Railways, told the civic committee last night that the company was willing to dispose of the system to the city if a reasonable offer was made before the expiration of the company's franchise in 1918. The committee recommends that a plebiscite of the citizens on the question be taken whether the city should buy immediately and giving the council power to act. A plebiscite is likely to be submitted at the January election.

MOTHER ACCIDENTALLY SHOT BY DAUGHTER

Kitsumkalum Woman Brought to the General Hospital Last Night.

Mrs. Emma Johnson, a native woman, of Kitsumkalum, the victim of a shooting accident, was brought to the city by last night's train and immediately taken to the hospital. A .22 rifle in the hands of her 12-year-old daughter was the cause of the mishap. The weapon was discharged accidentally and the bullet passed through the mother's leg, between the knee and the ankle. The little girl was not aware that the gun was loaded.

PHILADELPHIA WINS.

(Special to The Daily News.)
Philadelphia, Oct. 10.—By the most hotly contested game of any of the world series so far played Philadelphia won the game today. For the four games played Philadelphia won two in succession, the result now being 3 to 1 in their favor. Today's score was:

New York. 0 0 0 5 0 0 3 2 0—5
Philadelphia 0 4 0 3 2 0 0 0 0—6
New York scored eight hits and two errors, and Philadelphia nine hits and no errors. Bender pitched for Philadelphia and Demare and Marquard for New York. At yesterday's game in New York the attendance was 36,888, exceeding by several hundreds the attendance at the opening game of the world series on Monday, and these fans paid to see the game \$75,675.50. This would give the National Commission \$7,567, the two teams \$5,810 each and the balance for the players, \$56,486.85.

FORCIBLE FEEDING FOR THE MILITANTS

Cat and Mouse Act Does Not Apply in the Case of Miss May Richardson.

(Special to The Daily News.)
London, Oct. 10.—The belief of the militant incendiaries that under the Cat and Mouse Act they could always obtain their freedom by a hunger strike received a rude shock yesterday. The home secretary announced that Miss May Richardson, who had been in prison since October 4th, and who was still refusing to take food, would not be released, but that the prison authorities had been instructed to resort to forcible feeding.

PAID FIFTY CENTS TO SLEEP IN THE OPEN

Travellers at Smithers Could Not Get Decent Sleeping Accommodation.

Passengers coming from the interior by last night's train report accommodation at Smithers as inadequate. As many passengers as could sleep in the coaches on Wednesday night. During the previous afternoon one man, realizing the opportunities, constructed a small platform, over which he threw a tarpaulin. Sleeping space thereon sold readily at 50 cents per person, the sleepers providing their own blankets. Several lodging houses are in course of construction and better accommodation is expected in the near future.

SIR WILFRID SPEAKS FOR SYDNEY FISHER

Distinguished Veteran Advises Borden to Leave Imperial Affairs to Asquith

(Special to The Daily News.)
Ormistown, Que., Oct. 10.—Speaking at a meeting in favor of the candidature of Hon. Sydney Fisher, former Minister of Agriculture and now the Liberal nominee in Chateauguay, Sir Wilfrid Laurier advised Premier Borden to leave the Empire to Premier Asquith. Home affairs, Sir Wilfrid said, demanded more attention than Imperial questions.

He declared that while the increase in the cost of living in Great Britain according to the Board of Trade report had been seven per cent., in Canada it had been fifty-one per cent.

BRITISH GOVERNMENT OFFERS TO MEET THE ULSTER TERMS

HOME RULE BILL TO BE PASSED, BUT ULSTER EXEMPTED FROM ITS OPERATIONS—WINSTON CHURCHILL'S SPEECH OF CONCILIATION.

(Special to The Daily News.)
London, Oct. 10.—It is stated this morning that Winston Churchill's speech at Dundee represents the government's official attitude toward Ulster, which is one of conciliation. It offers the exclusion of Ulster and the north-

west of Ireland from the home rule bill conditions. Upon this the Unionists have agreed to work with the Liberals for the future success of the settlement. The greater part of the newspapers declare the speech was conciliatory and a long step toward peace.

OPENING OF PANAMA CANAL IS CELEBRATED WITH GREAT NOISE

PRESIDENT WILSON PRESSES BUTTON WHICH RELEASED TREMENDOUS BLAST THAT REMOVED LAST PHYSICAL OBSTRUCTION IN CANAL.

(Special to The Daily News.)
Washington, Oct. 10.—At 2 o'clock this afternoon, eastern time, President Wilson, seated in the White House and surrounded by his cabinet and several senators, pressed the button which released an electric current that travelled overland and under sea to Panama, there discharging the big blast which destroyed the Gamboa dyke, the last great physical obstruction for the opening of water communication between the two oceans. In ten minutes afterward the White House operator handed a message to the President from Colonel Goethals that the explosion has been in every way a

success and the Panama Canal now open. A number of complimentary telegrams were then exchanged.

When the President touched the button the fact was recorded instantly in all the telegraph offices along the Pacific Coast from San Diego to Seattle, and the great noise started. From all the battleships and all the forts booming salutes were fired and in addition each city contributed its own big din. There are many banquets to be held tonight in the several cities along the coast, in celebration of the great event. Nothing has been officially announced yet as to the date when the canal will probably be open for commerce.

CARNEGIE COMMISSION SENT TO INVESTIGATE ATROCITIES

REPORT THAT THEY WERE HINDERED IN THEIR ENQUIRIES ON BALKAN BATTLEFIELDS IS DENIED—REPORT TO BE PUBLISHED.

(Special to The Daily News.)
Paris, Oct. 7.—Baron D'Estournelles de Constant presided at a meeting of the Carnegie foundation for international peace yesterday. The members of the commission which went to the Balkans to investigate the recent wars there and report on the alleged brutalities and the economic results were present. The commission's report probably will be published in November.

Prof. Dutton declared after the meeting that the reports which had been published to the effect that the mission of the commission had been a failure and that the commission itself had dissolved, were untrue.

It was true, he said, that Serbia had objected to the presence of Prof. Miliukoff on the commission. Greece objected to Mr. Brailsford, the English representative, although he had once fought for them. Nevertheless, Greece had been offended at his writings about Macedonia. He added:

"We were entirely free, we went where we pleased, with slight exceptions. We were undoubtedly under supervision all the time, but this fact was almost unapparent. We arrived at Belgrade during the celebrations over the Servian victories. We

went southward as the demobilization was proceeding, and got to Salonica. We remained there a fortnight and made excursions to various places. "Afterward we went to Sofia, where we spent another fortnight. We went 150 miles by motor car to Vidina, Bulgaria, where we expected to cross into Roumania, but cholera was prevailing in that neighborhood. We found cholera everywhere after we left Belgrade. There were hundreds of deaths every day while we were at Salonica."

FOUGHT MOUNTAIN LION

Finally Killed the Animal With a Rock.

(Special to The Daily News.)
Los Angeles, Oct. 10.—Edwin Eatlake, rancher, is in a serious condition as the result of a battle with a huge mountain lion. Although he had a rifle, Eatlake had not a chance to use it when the beast sprang at him. He finally killed the animal with a rock.

After Municipal Honors.

It was rumored on the street yesterday that two candidates are already in the field for municipal honors at the next election and that if either backs down he must forfeit \$5. It is said that George Frizzell will have to stand for aldermanic honors and Harry Rochester for the mayoralty. The understanding is that if either runs and the other backs down the latter must pay the forfeit.
