FUTURE DEFENDERS OF THE EMPIRE BEING INSPECTED BY QUEEN MARY

DUKES RUSHING TO PICK UP THE GAGE OF LLOYD GEORGE

DUKE OF SUTHERLAND OFFERS DEER FOREST OF TWO HUNDRED THOUSAND ACRES FOR FOUR HUNDRED THOUSAND POUNDS

London, Oct. 27.—The dukes are taking up Lloyd George's challenge in fine style. The Duke of Marlborough's favorite pose in the picture papers just now is as supervisor of ploughing at Blenheim Park, where he is putting under crop a thousand acres granted by the grateful nation to his famous fighting ancestor two hundred years ago. The young Duke of Sutherland, writing to the Daily Mail, offers the Chancellor of the Exchequer his 200,000 acres of highland deer forest at two pounds an acre, to enable the government to do what Mr. Lloyd George condemns the duke for neglecting to do, namely, grow corn and repopulate the glens.

"This," says the duke, "is cheaper than land can be bought in any country named by Mr. Lloyd George and hardly above the price of prairie land in Canada."

Of course, should Mr. Lloyd George accept, as he will not, the Duke would put the resulting £400,000 into six or seven per cent. Canadian investments.

THE TRAIL FROM GROUNDHOG TO STEWART NOW COMPLETED

SUBSTANTIAL BRIDGE OVER THE NAAS CONSTRUCTED AT A COST OF FOUR THOUSAND DOLLARS AND OTHER IMPROVEMENTS MADE

The season's work on the roads and trails throughout the large district under the charge of Road Superintendent C. J. Gillingham is rapidly nearing a close and most of the camps have already been closed. A complete summary of the work accomplished the past season is unavailable at this writing, but generally speaking over one hundred miles of new trails have been constructed in the immediate vicinity of Stewart, including the new trail to the Groundhog district, besides the work that has been accomplished by the energetic superintendent and his different crews at points as wide apart as the Groundhog, Granby Bay, Kincolith and the head of Alice Arm, which sections are also within Mr. Gillingham's sphere of influence, and come out of the Stewart vote for roads and trails.

At home repairs and extensions have been made to the Salmon river, Marmot river and Glacier creek trails. A substantial start has been made with a wagon road up Bitter creek, and the grade on the main trail altered and lowered from American creek to the Bear river pass. From Meziadin lake the Stewart-Groundhog pack trail (the main artery into the new coal fields) has been finished to the Government Telegraph line, a total distance of 62 miles from the head of the lake, and a substantial bridge is now under construction to cross the Naas river. A trail was also constructed from the heart of the lower section of the coal area westward to meet this main trail at the Telegraph line. The last of the main line was pushed through by Foreman

TELLS OF NEW STRIKE

W. M. Elliott of Nome Enthusiastic Over Flat Creek.

Seward, Alaska, Oct. 27.—In a letter received today by J. C. Tolman, William M. Elliott of Nome tells of a new strike in the Nelchika district on Flat Creek, paralleling Crooked Creek, which shows coarse gold to a width of 650 feet. Elliott is enthusiastic over the prospects of the new camp.

It may be more blessed to give than to receive, but in most cases the average man would rather pose as the catcher than the pitcher.

PRINCE RUPERT AND NEW HAZELTON BOOM

Recent Visitor Says Forces of Industry Are Centralizing in These Cities.

Vancouver, Oct. 27.—After making a lengthy trip embracing Prince Rupert, Hazelton and a number of the other points on the G. T. P. coast section, Mr. William Watson of Seattle returned to Victoria last night. He declared that a number of Seattle people are largely interested in the development of the northern country, and he went in there with a view to finding what progress has been made and what the prospects of further development are within the next year.

Mr. Watson is of the opinion that the city of Prince Rupert and the city of Hazelton are bound to undergo great changes in the near future. The forces of industry, he says, are now centralizing there, and the cities and the country surrounding are in for a spell of great activity. In the course of his travels he saw a number of agricultural specimens from the country to the north and was greatly pleased with them.

STRUCK OIL AT LAST

But Is Was Where They Did Not Expect It.

In drilling for coal on the Armstrong and Morrison property about twenty-two miles from the mouth of the Yakoun River a large pocket of oil was found at a depth of 200 feet in the new drill hole sunk this spring.

The oil flooded the core barrel, but was not in sufficient quantity to prevent further drilling, which will be continued for another 1,200 feet. When the drill hole is completed a charge of dynamite will be exploded in the oil bearing strata to release any other wells in the vicinity. The presence of petroleum was not suspected in this region, though found in other places on Graham Island.

BOUT IS POSTPONED

Leach Cross Backs Out of Meeting Willie Ritchie.

New York, Oct. 27.—The ten round bout between Leach Cross and Willie Ritchie, which was to have taken place here next Wednesday, has been postponed to November 10th because Cross injured a muscle over his ribs. A specialist, who examined the fighter today, said the hurt was not serious.

Sentenced for Life

Edmonton, Oct. 27.—Jose E. Lopez, the slayer of John Frederickson at Tete Jaune Cache last July, will spend the remainder of his life within the walls of the Alberta penitentiary. He was convicted Saturday on the charge of manslaughter, and previous to that was found not guilty of murder.

Anglo-American Engagement

London, Oct. 27.—The engagement is announced of Miss Nell Fletcher, daughter of Senator Fletcher of Florida, and Lionel Smith-Gordon, the only son of Sir Lionel Smith-Gordon and Lady Smith-Gordon of Aldershot Lodge, near Salisbury.

THE MODERN CARPET OF BAGDAD

THERE are few people who do not know the story of the wonderful carpet on which the owner had but to sit, wish to be at some place and, lo! immediately he found himself there.

Some agents of this nature would be appreciated by many a manufacturer in jumping the demand for his product into a thousand places, a thousand miles away from his factory. Apparently to such a man there is no means of "getting there" and placing his name and his goods right into that territory, except by slow, laborious bit-by-bit acquaintance—ship—and mouth-to-mouth testimonials.

But he has overlooked the modern Carpet of Bagdad.

It is Newspaper Advertising.

Fanciful! you say?
Did you ever hear of Edwards' Soups? Well, the genial old cook who forms the trade mark just jumped right from Ireland to a thousand places in Canada in a week—on the Carpet of Newspaper Advertising.

Ever hear of Tillson's Oats? The "braw Scot" who stands for this product stepped over night, as it were, from a small town in Ontario to practically every town and village in Canada.

Wrigley's Gum—Sunshine Furnaces—Comfort Soap—all have taken advantage of this Modern Carpet of Bagdad—Newspaper Advertising.

TO THE MANUFACTURERS OF CANADA:
If you have a name and a product that you wish placed in demand throughout Canada, take advantage at once of the modern carpet of Bagdad—Newspaper Advertising.

If you are doing a local business talk over your advertising problems with the Advertising Department of this newspaper.

If you are doing a provincial or national business it would be well for you to have the counsel and assistance of a good advertising agency.

A list of capable advertising agents will be sent you on request, without cost or obligation, by the Secretary of Canadian Press Association, Room 303, Lumsden Building, Toronto.

WATER NOTICE.
Take notice that the Prince Rupert Hydro-Electric Company, Limited, of Montreal, Quebec, has filed with the Honorable the Minister of Lands under Part 6 of the Water Act a petition for the approval of their undertaking in relation to the utilization of 1,500 inches of water from Thulme River, Quatoun Inlet, Skeena Water District, for power purposes. Application for the said water rights was made on the 20th day of September, 1908, by the Continental Power Company, Limited, which last mentioned company has transferred to the Prince Rupert Hydro-Electric Company, Limited, their interest therein. Copies of the petition, plans and exhibits for approval of the undertaking as required by Section 89 and Part 6 of the Water Act have been filed with the Controller of Water Rights and with the Water Recorder at Prince Rupert. Objections to the application may be filed with the Controller of Water Rights, Parliament Buildings, Victoria, B. C., this 2nd day of October, A. D. 1913.
