RAPID GROWTH OF SMITHERS.

McLaughlin is having a tin-smith shop erected.

The foundation for Wrathall's building has been laid.

The Anglican and Methodist churches are nearly finished.

Work has begun on J. S. Kennedy's pool room and cigar store.

Wilcocks & Wolseley's general store is in the hands of the painters.

The Williams-Carr Co. has built a substantial two storey office building of fine appearance.

Sargent's general store is practically completed and a nearly complete stock is already on display.

The contractors are busy on the Auditorium, which is intended for use as a moving picture house and social hall.

Lots in Block 57 have been leased for the construction of a two storey building, 52x90, for a restaurant and theatre.

It is expected that the building for the electric light plant will be ready for the machinery when it arrives from the coast.

Lynch Bros.' big building is nearly ready for occupation, and the firm's general merchandise stock continues to arrive in car-load lots.

The telephone construction crew is bringing the line from the Bulkley to Smithers, and instruments will be installed in a few days.

Smith & Eggleston, the pioneer builders of Smithers, have over twenty business buildings under construction, besides those already completed.

The foundations of Carr Bros.' big hotel, which will be known as the Hotel Bulkley, have been laid. Forty thousand feet of lumber is on the ground, and

two teams are adding to the supply. The building will be rushed to completion.

The Adams building, one of the handsomest in town, will be occupied by the drug store in the course of a few days. The post office building, next door, is also nearly ready for use.

The railway company has large crews of laborers engaged in yard construction, and has already laid several miles of side tracks, while the temporary station and freight sheds will soon be replaced by permanent buildings of handsome appearance. The company is bringing lumber for the divisional buildings from Hard-scabble mill and has already 1,500,000 feet on the ground.

About the first of December, it is understood, the post office in Smithers will be authorized to issue and pay money orders. On his recent visit, the inspector decided that it was not advisable to increase the work of the staff while in the temporary office.

Before the end of the month Postmaster Adams will be in occupation of the Main street post office, with plenty of accommodation for all business.

Smithers now possesses graded streets, sidewalks, a post office, six rooming houses, five restaurants, four general stores, two churches, two newspapers, a bank, doctor, dentist, drug store, hardware store, saw mill, planing mill, two lumber yards, plumber, sheet iron worker, sign works, three contracting firms, two laundries, two pool rooms, livery stable, meat market, electrical supply store, shoe shop, two real estate firms, etc.

According to a report from Vancouver, F. B. Chettleburgh, of Chettleburgh & Sinclair, was married in that city a few days ago. The bride is a young lady from Mr. Chettleburgh's former home in England. The happy couple will return from the coast in a few days and will be heartily welcomed by "Chet's" many friends.—Smithers Review.

AN INTERESTING OLD TIMER MAKES A VISIT TO STEWART

LARRY CLAYBERG, LAWYER, TEACHER, FISHERMAN AND MINER WHO AT ONE TIME ENGAGED IN PROSPECTING ON PORTLAND CANAL

Lawyer, teacher, fisherman, miner and sailor—those are some of the things Larry Clayberg, a Stewart pioneer and son of Judge Clayberg, now of San Francisco, but formerly counsel for the big mining interests of Montana, has crowded into his northern experience. En route to San Francisco, where he will return to the practice of law, Mr. Clayberg is in Vancouver. He is short and stout and shows the effect of the last few years of severe outdoor occupation.

His last experience in British Columbia was that of teacher at the Indian school at Masset, on the Queen Charlotte Islands. Clayberg is a small man, and some of his Indian pupils were pretty big boys, but by close attention to discipline he got along with them much better than did some of his predecessors in the same position whose school was

broken up by some of the larger Indian boys who ran him off the reserve by their accurate bombardment with rocks and sticks. Clayberg, however, as soon as he took charge of the school, instituted a system of physical drill for both boys and girls, and through this drill he put them every day so that any surplus energy which otherwise might have found vent in stoning their teacher was taken up in this drill, which the youngsters enjoyed thoroughly.

During the early days of the mining boom in the Portland Canal, Mr. Clayberg engaged in prospecting and mining, with little success. After this he found himself in Vancouver and went to sea, making a trip to Europe by way of the Orient, and returned to Vancouver. The possibilities of the fishing industry in the waters of Northern British

HERRING RUN STARTS

But Fish Are Not Coming In as Freely as Last Season.

Vancouver, Nov. 13.—Captain Linc. Rogers, of the Lincoln Steamship Co., has returned from a trip to Nanaimo where he investigated the herring situation. Captain Rogers says that the fish are running fairly well but is of the opinion that the catch will not come up to that of last year.

McFarland and Britton.

New York, Nov. 13.—After three weeks of dickering, a match has been arranged between Packey McFarland and Jack Britton, the clever Chicago boxers. They will come together in a ten round no decision bout, at catch weights, before the National A. C. of Milwaukee on Wednesday evening, November 26. This will be their third bout. The first go was an eight round draw at Memphis, Tenn., January 30, 1911, while their second was won by McFarland on points at the Garden A. C. several months ago.

First Vessel for Canal.

Washington, Nov. 13.—The first deep draft vessel to pass through the Panama Canal from ocean to ocean will be one of the Panama Railroad steamers owned by the government, which now are plying between New York and Colon, if the plan which Secretary Garrison has in contemplation is finally adopted.

Draw Poker Brings Scandal.

Portland, Ore., Nov. 13.—Out of the investigation of draw poker as played in the Portland police department has grown a scandal likely to smut the record of more than one officer, high and low, with charges harder than that of gambling to answer. Deals to protect criminals are indicated strongly, and not denied.

Noted Pathologist Coming.

Ottawa, Nov. 12. Hon. Sam Hughes, minister of militia, has arranged with Sir William Leishman, professor of pathology at the Royal Army Medical School, to come to Canada in February to deliver addresses to the Association of Medical Militia Officers at Montreal, Ottawa and Toronto. Sir William is honorary physician to King George.

Beats Burbank

He's on a peace commission now; One of a lucky band. They go to land the olive bough To every hand.

Juicy job, a trip abroad; Good pay, light work—yum, yum! 'Twas slick to make the olive branch Produce a plum.

Columbia next attracted him, and buying a twenty-eight foot launch in Vancouver with a partner he set out up the coast, nearly losing his life and boat in crossing Queen Charlotte Sound, where he was caught in a storm, and afterward in crossing Heate Straits to the fishing grounds off Langara Island.

"It's been a great experience for me, and it has given me a rugged frame and good health, so now I think I'll go back to San Francisco and work up a law business and settle down."—Portland Canal Miner.

- FACT HUNGER -

As children, our first demand is for nourishment; our second for facts.

All through life we go about searching for information.

We make a new acquaintance; but before we will accept him as a friend or invite him to our home we ask for facts about him.

We visit a foreign land; and from the moment we step across its border we are asking questions—searching for facts.

We are asked to try a new food product; isn't it instinctive with us to ask at once:

"Who makes this new article?"

"How is it made? what goes into it?"

"Is it worth the price charged for it?"

Facts—we are simply hungry for them.

Strange, isn't it, that we should so often have to *search* for them? Odd, that some manufacturers still *withhold* the facts about their product. Not always because they are facts to be ashamed of—for there are many worthy articles yet unadvertised.

But it will not be so much longer. The fact-hunger of the human race is becoming keener and keener. The more facts we get, the keener our relish for more of them.

Soon it will be impossible to sell a man or a woman anything until everything has been told about the goods that *can* be told through *Advertising*.

The public has discovered that Advertising tells much-needed facts—that, in fact, Advertising satisfies fact-hunger.

If you are doing a local business talk over your advertising problems with the Advertising Department of this newspaper.  
If you are doing a provincial or national business it would be well for you to have the counsel and assistance of a good advertising agency. A list of these will be furnished, without cost or obligation, by the Secretary of Canadian Press Association, Room 503, Lumsden Building, Toronto.
