There are two million professional immoral women in Japan. The idea of marriage between whites and Asiatics is revolting and menacing with a problem of mongrel degeneracy.

On two occasions, to our knowledge she has broken down under the supreme suffering involved. The suffragettes have repeatedly interrupted consecration services of the Bishop of St. Michael's with chanting references to the forcible feeding and demanding the bishop to stop the torture of women in English prisons. The new parcel post rates to come into effect February 10 will not benefit Prince Rupert in anything like the way it will other urban districts. The 20-mile zone in which the cheap rates will be used is practically a nonentity as far as Prince Rupert is concerned. The new rates will be used principally for shipping farm produce to the market and merchandise packages from the city to the farm. As there is no settlement or agricultural community within twenty miles of Prince Rupert, the local zone rate is useless in this city. The only rate which will be of any benefit will be the provincial rate of 10c for one pound, graduating down to four cents a pound. This will not help fresh eggs to get to the market here.

On Sunday, Feb. 1st, about the hour of morning service, there passed away in the Mission House at Masset, a man of the most striking character and vigorous personality, well known up and down this coast by prospectors, miners, settlers and travellers and often called by way of affectionate regard "Father Hogan."

He was educated in Trinity College, Dublin, and while a schoolmaster in that city, heard and obeyed the missionary call to the Far West. He arrived at Metlakatla in June 1893 and was ordained deacon in the same year, and made a priest of the Church of England the following year by Bishop Ridley.

ADMISSION — 10c and 15c

The Redistribution Bill, which will come up in the House of Commons this week, will affect this riding. The constituency of Comox-Atlin will be split, giving one member in the north and another in the south. Mr. H. S. Clements, M. P., has not yet made up his mind which of the constituencies he is liking to take, and being the sitting member he will naturally have the choice. He would probably choose the Skeena riding as being the most active and having the most patronage, but the local Conservatives claim they will not stand for a non-resident member any longer. Also there are one or two local aspirants who would like to see H. S. Clements go south and give them a chance.

Fishing Boat Roosevelt of Seattle Will Operate Out of Haysport

Seattle, Jan. 31.—Captain E. McLellan, representing William Greenwood of Vancouver, B. C., president of the Skeena River Fishing Company, has completed negotiations for the purchase of the Seattle Power halibut schooner Roosevelt. It is rumored in Seattle fishing circles that the British Columbia fishing concern contemplates a number of purchases in Seattle, of which the Roosevelt is the first. The schooner Roosevelt has operated from Seattle since she was launched about seven years ago, and has been one of the most successful of the local fishing fleet. She was one of the first high powered craft of the schooner rig built for fishing on this coast and her success was the forerunner of the many splendid vessels engaged in the industry today.

Capt. Barney Peterson and P. Johnson were owners and sailors of the Roosevelt. Captain McLellan, who left yesterday with the schooner for Skeena River, was formerly commander of Jas. J. Moore's yacht Aquillo. The Roosevelt will be operated to the new Southwestern Alaska halibut banks from the Skeena River, according to announcement of her new owners, who also admit having in view the purchase of several other Seattle craft.

Miss Ethel Grey left last night for Seattle, where she will take another course in the art of dancing. Upon her return she expects to reopen her classes and will be able to impart the very latest in the light fantastic.
