DAILY EDITION Saturday, March 14, 1914

The early opening of spring is bringing with it many enquiries from the outside for Prince Rupert opportunities and it is indicative of an influx of investors to the city during the present year.

Some of the government organs are making excuses for the incapacity of the Bordeu administration to handle the affairs of the country by stating that the administration has been handicapped by reason of a legacy left over from the Laurier administration.

Stop and think for a moment of the stupendous task which will confront the administration which steps into office when the McBride administration goes out next provincial election.

A guarantee of two hundred millions to take care of, and a demoralized government service to put upon a proper basis. Besides there are the many questions of policy in connection with land, timber and natural resources generally.

ing for the people of British Columbia.

A public service which is used principally for partizan purposes rather than for the good of the general public conduces to a low political morality.

The whole rotten mess will have to be cleaned up. The public conscience, which becomes calloused by long continued outrage, must be brought to its normal state.

"Vice is a monster of so frightful mien As to be hated, needs but to be seen, Yet seen too oft, familiar with its face, We first endure, then pity, then embrace."

The same forces which influence individual morality count in a similar degree upon public morality and a public morality continually and continuously debauched loses a proper sense of the fitness of things.

For the moral as well as for the material welfare of our people the Bowser-McBride machine has got to go.

MOST REMARKABLE MEMORY KNOWN TO SCIENCE.

At the starting lever of a Toronto hotel elevator is a complete weather chart for the past 24 years. It is not a book, but the brain of the elevator man, William McNair.

Newest Notes on Science

An iron frame has been invented for displaying bunches of bananas in full view in stores yet which protects them from injury.

Great Britain imported 12,750,000 gallons of fuel oil in January, as compared with 5,500,000 gallons in that month last year.

To obviate the danger to the lungs from inhaling dust a new rock drill is so constructed that it catches all the dust in a bag.

Japan's most expert wrestlers are men who have inherited their ability from ancestors who made wrestling a profession for generations.

A new concrete bridge at Allentown, Pa., though neither the highest nor longest in the world contains the greatest amount of material.

Austria last year produced nearly 49,000,000 short tons of coal, of which about 18,000,000 tons were bituminous and the rest brown coal.

The New Jersey legislature is considering a bill requiring poison tablets to be made coffin shaped to distinguish them from medicines.

China has sent government agents abroad to study the manufacture of telegraph and telephone equipment with a view to making all such apparatus at home.

A concave projecting screen for motion pictures has been patented by a Chicago inventor to prevent distortion no matter from what angle they are viewed.

A Russian woman is heading an expedition which has started to cross Arabia at its widest part and which will try to penetrate land never before explored.

In a new vacuum cleaner for cleaning clothing in public places a circular brush surrounds the nozzle to loosen the dust that is to be drawn from a garment.

More than 2,000 inventors applied last year for British patents relating to railways, motors and road vehicles and more than 500 for air craft developments.

Removing the rubber tires and substituting iron bands studded with horseshoe caulks, a Minnesota motorcycleist converted his machine into a speedy ice vehicle.

To promote agriculture in France the government stations a professor of agriculture in each department and awards prizes frequently to the most progressive farmers.

To permit a person to drink from an ordinary faucet easily a semi-circular trough to be fastened under it so as to be swung into position when wanted has been invented.

So much greater is the demand for edible snails in France than the supply that artificial snails have been invented, the only genuine portions of which are the shells.

For the use of firemen or others working in dark places a New York man has invented a storage battery electric lamp, to be fastened to the hat or head by spring clamps.

Bank of Vancouver. The Royal Bank has abandoned its plan of taking over the Bank of Vancouver. It is said that an effort is being made to interest foreign capital in the bank, with a view to saving the situation.—Canadian Finance.

And the Worst is Yet to Come

Drawn for The Daily News by "Hop"

NO THANK YOU—I-ER—DON'T BELIEVE I CARE FOR ANY DINNER—TODAY. SCOOP HAS LOST HIS APPETITE AND HIS LAND LADY DON'T KNOW WHETHER TO BE WORRIED OR PLEASED.

— HE IS SO ABSENT MINDED THAT HE PUT HIS TYPE WRITER COVER ON FOR A HAT YESTERDAY AND WONDERED WHY IT DIDN'T FIT.

HE HAS USED UP ALL THE COPY PAPER IN THE OFFICE—DOPING—OUT THIS SORT O' BUNK VERSE— "I YEARN TO HOLD THEE IN MY LAP AND PLACE A KISS UPON THY MAP—I KNOW I LOVE YOU NOW BECAUSE MY HEART AINT LIKE IT USED TO WAS" ETC—

—AND HE IS SO IRRITABLE. SAY SCOOP— WOULD JAH MIND COMIN' OUT O' THAT TRANCE AN' GETTIN' TO WORK?

— THAT THE BOSS DON'T KNOW WHETHER TO CALL A DOCTOR OR A COP. AW BEAT IT—YOO BIG JASBO!
