Subscribers will greatly oblige by promptly calling up Phone 98 in case of non-delivery or inattention on the part of The News carriers.

DAILY EDITION

Monday, March 16, 1914

British Columbia seems to be the only place in the world where a member of parliament or of the legislature does not wish to represent the whole people.

It appeared at one time as if the C. N. R. was turned down by the Borden government in their demand for an additional grant of twenty-five million.

The worst thing about the C. N. R. affair is that they have not a cent of their own money in their railway system.

Conservative newspapers are strong just now on dictated editorials and other articles. Any one who will follow the local papers can readily discover them.

HOW JAPANESE NURSES PROTECT THEIR FACES FROM THE FALLING ASHES FROM SAKURAJIM.

A group of Japanese nurses belonging to the Red Cross Society who are helping to take care of the many sufferers in the disaster are seen with their faces muffled against the falling ashes from the volcano.

LOYALTY OF THE DOMINIONS HIGHEST IN EMPIRE HISTORY

SUCH IS BELIEF OF LORD EMMOTT AFTER TOUR—SAYS PROPINQUITY OF UNITED STATES IS AFFECTING DEVELOPMENT OF CANADA—DOMINIONS VENERATE THE IMPERIAL PARLIAMENT AND RESPECT ITS TRADITIONS.

London, March 14.—Under the auspices of the Royal Colonial Institute, an important assembly of representatives from every part of the British Empire gathered together at the White Hall rooms tonight to listen to a paper by Lord Emmott, the under secretary of state for the colonies, giving his impressions of the empire tour which he made last autumn.

Lord Emmott said that the warmth of their welcome in the dominions was due far more to the fact that they were representing the imperial parliament than to anything else. That institution was venerated in the dominions not because of its views on the dominions questions were thought to be particularly enlightened, but because it was the parent institution which had been copied in the other self-governing portions of the empire.

Among other things, Lord Emmott noticed that there was the same tendency in the dominions as in Europe for people to herd in cities. In Canada the propinquity of the United States was affecting the dominion's development and even its outlook on some imperial problems.

With regard to South Africa, in comparison with the other dominions he could not do better than to quote Gen. Smuts' remark at one of the entertainments they attended at Pretoria that "everything is pitched in a different key in South Africa."

They had a native question and a "poor white" question, the two matters which were co-related.

Summing up his impressions, Lord Emmott said that the imperial outlook was one that filled him with hope and confidence. He saw no signs in the dominions of any general desire for closer organic union. It was freedom to manage their own affairs in their own way that they attached the most importance to, so the day might come when the dominions would come closer together, but for the present, he thought, we might rest satisfied with the fact that the loyalty of the empire was growing with the growth of self-government throughout the dominions and stood higher today than ever before in our history.

WANT REV. COLLISON FOR MASSETT CHURCH

A numerously signed petition was sent to Bishop Du Vernet some time ago asking that Rev. W. E. Collison be stationed at Massett. The bishop, in his sermon at that place last week, stated that while the matter had not been definitely settled he was of the opinion that owing to Mrs. Collison's health Mr. Collison would be obliged to decline the call.

Mr. Evanturel Quits.

Toronto, March 14.—Mr. Gustave Evanturel was not in his seat in the legislature yesterday when his resignation as M. P. P. for Prescott was announced by Speaker Coyle. Hon. W. J. Hanna, provincial secretary, took advantage of the opportunity to deny insinuations made by Mr. Evanturel last Saturday that the provincial secretary was retained by the Standard Oil Company.

The Royal Cafe gives the best meals and the best service in the city. Visitors to the city are advised to make this restaurant their selection.

NEW DISCOVERY BY FRENCH SURGEON

Professor of Paris University Announces Success Grafting India Rubber on Tissues

Paris, March 16.—Professor Pierre Delbet, of the surgical clinic of the University of Paris has communicated the Academy of Medicine a report of his discovery on the feasibility of grafting India rubber on living tissue.

Professor Delbet described two cases in which experiments had been made and proven successful.

In one of these cases where the flesh of a finger had adhered to the bone, making the finger useless, the professor said he had interposed a thin sheet of rubber, and that the patient is now able to use the finger freely.

The other case was an extensive hernia of the large intestine. A thick sheet of rubber grafted into the abdominal cavity, Professor Delbet said, gave absolute and permanent relief.

Have you realized that \$250 cash will secure a lot in the business centre of Port Edward?
