

## BOARD OF TRADE MEMBERS HAD A GOOD OUTING

### SEATTLE YACHT WON FROM VACOOUVER BOAT-CONSTITUTIONALISTS WANT TO QUIT FIGHT

#### 150 RUPERT EXCURSIONISTS VISITED THE SMELTER CITY

BOARD OF TRADE OUTING ONE ROUND OF PLEASURE AND INTEREST—SIGHTSEEING ENTERTAINMENTS AND MERRYMAKING—ADDRESS BY E. MCGAFFREY

The jolliest trip I have ever had was the way one lady described the Board of Trade excursion to Granby Bay and Stewart and this opinion is the popular one among the 150 excursionists. The Prince Rupert excursionists left at six o'clock this morning, having completed a trip of thirty-two hours during which the party was making almost continual programme of fun. Many of the party got aboard Wednesday evening and enjoyed several hours of cards. At eight yesterday the boat left at Granby and following the whole party went on a special train of flat cars up with seats. Pulled by electric locomotive, the special covered the Granby railroad to the crusher back in the hills. The trip was both exciting and picturesque. Then a mushing trip to the mine where the each received a candle and invitation to go in and inspect the ore in its natural state. Then the party visited the big smelter, the ore bins, the furnaces, the converters, the assay office, the machine shops and numerous other works connected with the big undertaking. There were two furnaces in operation and many of the party saw the blast furnaces and smelled the furnace fumes for the first time. The converters pouring out their tons of molten blister was a sight worth going to see. At the smelter, General Manager Williams presented a guest with a drinking cup of blister copper.

At the dock, before leaving, by, with its city of artistic buildings and modern conveniences, Chairman C. W. Peck, of the excursion committee, tendered the hearty thanks to Mr. Williams and the other officers of the company.

The ship sailed away while the cheered and sang parting songs.

Board of Trade, which has become a popular feature, was arranged to be held aboard the steamer en route from Granby to Stewart and it was one of the numerous good features of the trip. Ernest McGaffrey, of the Provincial Information Bureau, was the speaker for the occasion and the big dining saloon of the Prince George was crowded to hear him.

Mr. McGaffrey was introduced to the luncheon party by Chairman C. W. Peck, who put the crowd in good humor with a few trite remarks for which he had a particular talent. He also spoke of the vast enterprises which the guests had just inspected at Granby and thought they should all be proud having such a concern in the district.

The chairman also read the following wireless messages which brought forth roars of laughter.

July 16th, 1914.  
To Albert Davidson,  
S.S. Prince Rupert.  
Letter just received re request of Board of Trade asking for an allowance of one dollar per passenger on Granby Bay excursion. Make it two: they need the money.  
W. P. HINTON.

Prince Rupert, B.C.,  
July 16th, 1914.  
To O. H. Nelson,  
S.S. Prince Rupert.

No issue this morning. Staff became intoxicated last night and made rough house in office, and nearly "pied" three weeks editorials that were set up ahead. Wire whether I shall run some cold storage stuff or mining boosts, or dope about road around island.

HEAD PRINTER.  
Prince Rupert,  
July 16, 1914.

To Joe Merryfield,  
S.S. Prince Rupert.  
Police unable to prevent citizens from bathing in Postoffice pool. Water is becoming putrid. Please wire instructions to pump out.

FOREMAN IN CHARGE.

Prince Rupert, B.C.,  
July 16, 1914.  
To Major G. E. Gibson,  
S.S. Prince Rupert.

"Nancy Jane" stolen from moorings at 2 a.m. this morning. She is going full speed ahead and is now a mile and a quarter away. She should reach Digby Island sometime tomorrow. Keep sharp lookout on way back.

PORT CAPTAIN.

Mr. McGaffrey said it was a pleasure and a privilege to be one of the guests at this first Board of Trade excursion and would be something of an historic event. He found an open-hearted sincere and genuine hospitality among the Prince Rupert people. The climbing of the hill to the mines had reminded him that few people realize the vast area of British Columbia. It is 700 miles long by 400 miles wide and has 395,000 square miles of territory which in its natural wealth exceeds any other similar area in the American continent. In its mineral wealth alone it has produced \$165,000,000 since a record has been kept. Its fisheries have produced \$14,000,000; its lumber \$30,000,000. It has 250,000 sq. miles of virgin territory. It has 360 billion feet of board measure lumber. While its agricultural areas are not great, it has in the waters of the Pacific, free from the effect of blight or rust,

#### S. O. E. AND DRY DOCK PLAYED TIE GAME

Good Exhibition of Soccer Football Last Evening

The large crowd of spectators who took the trouble to visit the Dry Dock grounds last night in the expectation of seeing a hard game between the Sons of England and the Dry Dock team, had their expectations fully realized, the game being easily the best of the league series to date. Both teams have improved almost beyond recognition since their first appearance and, on present form will have quite a little say in the destination of the league cup. Throughout the whole game play was of the give and take order, both teams striving to their utmost extent to get the game in hand. The Sons of England were the first to score through their outside right, who accepted a return from the goalkeeper and made no mistake. The Dry Dock were, however, not very long in getting on level terms, one of the inside forwards, after some mis-kicking by the English defence, putting the teams all square, at which the score remained until half time.

The second half was even faster than the first for, with both defences going in for punting the ball and allowing their forwards to follow up, neither of the teams got any chance to settle to real combined play. Midway through this half the Dry Dock centre half, Gardley, taking a shot from well out, had the satisfaction of beating the English custodian all ends up and thus giving his team the lead. It was now that the Englishmen made the supreme effort to draw level, but as time wore on, it looked odds on them having to suffer defeat. However, just a few minutes from time they were awarded a penalty for an infringement inside the dreaded area, and Tinker again beat Duff. The whistle sounded just shortly afterwards, with the score standing at two goals each, which was indeed a really true reflex of the game.

Mr. Geo. Sinclair Russell handled the game and proved himself thoroughly competent in every respect.

The next game will be on Monday night when the City Cup finalists, Callies vs. Merchants, will have their first fight in the league contest. This will be another good game and it is hoped there will be a large turnout of spectators.

#### NEGRO ATTEMPTED MURDER R. R. FOREMAN

Roderick McDonald Shot Down by Discharged Workman

With four bullet holes in him, Roderick McDonald, a G. T. P. section foreman on section 44, about 300 miles up the line, was brought down to the Prince Rupert hospital yesterday.

He had been shot down by Sam Morris, a negro whom he had discharged from his gang.

McDonald was walking along the track Wednesday when he met Morris and when they were within a few feet of each other the negro pulled out an automatic revolver and shot five times.

McDonald threw up his hands and one bullet went through his right hand. Another lodged in his right arm, another in the leg and a fourth in his chest. Fortunately none of them were vital and McDonald was brought to Rupert for treatment. He will recover.

The revolver used was McDonald's own which Morris had stolen.

The interior police have not yet secured Morris.

#### THE FUTURE OF RUPERT

At the Board of Trade luncheon yesterday, Ernest McGaffrey had the following to say concerning Rupert:—  
"A great and powerful corporation, farseeing and sagacious, had selected Prince Rupert for their terminal, and when a spot is chosen for an ocean terminal by a big corporation it always brings into being a great city. Prince Rupert, with its harbor facilities, its fish and its splendid position is bound to be as big as Seattle, and it has its wonderful hinterland as well. It will be the north star of Canada's brilliant constellation of cities."

#### M.P.'S TO MAKE TRIP OF INSPECTION OVER GRAND TRUNK PACIFIC

Ottawa, July 17.—In addition to the Western trip which it is expected the Prime Minister, the Minister of Finance, and perhaps a few others of the Cabinet will make this summer, it is learned that arrangements have been made for a trip by about a dozen members of parliament from Winnipeg to Prince Rupert, over the G. T. P., as the guests of the company.

The matter was arranged before the close of the session and the main reason given by the company for extending the invitation was to let them see for themselves the great engineering difficulties on the section of the line for which the additional \$16,000,000 bond guarantee was voted.

The party will include H. B. Ames, Major Beattie, Major Sam Sharpe, W. S. Sharpe, Gerald White, W. M. Weichel and about as many more.

They will leave early in August and after a short visit to Jasper Park, will stop at various points in the Rockies, where the construction work was particularly difficult.

After reaching the Prince Rupert terminus they will return to Fort George and will be taken down through the Cariboo country in autos to the Fraser river.

The rest of the trip down to Ashcroft will be made by boat, on the Fraser. This is the route of the projected branch of the G. T. P. to Vancouver.

Iron bed, spring and mattress for \$10, at Tite's big furniture sale.

#### SAWED JAIL BARS WITH BREAD KNIFE

Trio of Prisoners Escaped from City Jail Yesterday

At 4.40 yesterday afternoon three prisoners in the city jail were in the kitchen having supper. At 4.50 they were gone and only a couple of bent bars in the window of the middle cell was left as a clue.

The three who got away were Titus Campbell, an Indian, awaiting trial on the charge of robbing Cunningham's store at Port Eslington; Rich Clayton and Pat O'Mally. The two latter were serving sentences for theft and awaiting trial on similar charge.

They had sawed the iron bars on the high window of Campbell's cell, which is under the city hall. Two bars were sawed and then bent up, leaving a large enough hole to crawl through. The job had evidently been done some days, and the instrument used was a nicked bread knife.

The police suspect Clayton as being the leader of the gang. When the trio got out they headed for the cold storage plant and were seen there at six o'clock but then disappeared.

The police have watched every boat and craft leaving the harbor and believe they will catch the men again.

#### WILL BE BIG CAMP AT FIDDLER CREEK

Martin Welch Syndicate Will Do Lot of Development Work

Louis Knauss, Fiddler Creek, arrived here last night to complete a deal with Martin Welch for the Fiddler Creek group. Mr. Welch has taken a seven months bond on the property and proposes undertaking extensive development work immediately. The property has been well handled up to the present and the main vein has been uncovered on the surface with open cuts and stripping for several hundred feet. A drift tunnel has also been run for nineteen feet and the ore is shown across a twelve foot vein. The values are gold, copper, silver, and lead and the average values obtained from assays taken from various places on the vein is \$40.

Mr. Welch will run a long drift tunnel continuing the work already started for a distance of about three hundred feet. Should the ore stay with them for that distance another tunnel at a much greater depth will be undertaken. Arrangements have been completed to establish a large camp on the property and to build a wagon road to connect it with the railway.

Reports from various sources are to the effect that the Fiddler Creek group will make a good mining camp and the people who have taken the bond will go through with the work as mapped out and give the property a thorough test.

#### GREATEST BALL GAME OF SEASON TOMORROW

Ketchikan Coming Down Here to Tackle Prince Rupert Team Again

Tomorrow will see another of those brilliant contests between the Ketchikan and Prince Rupert base ball teams. Each team has a 1 to 0 victory and this will be the deciding match. Both are out to win and a lot of money will probably go up on the match. Ketchikan will arrive about noon tomorrow on the Princess Alice and the game is called for three o'clock.

There will be a general admission of fifty cents and everybody is expected to pay.

Launch Ranger. Ph. Blue 400.

#### PRINCE LAID CORNER STONE NEW B. C. OFFICES IN LONDON

CONNAUGHT BELIEVES DEVELOPMENT OF THIS PROVINCE WILL BE ASSISTED BY THE OPENING OF THE PANAMA CANAL

(Special to The Daily News)  
London, Eng., July 17.—Prince Arthur of Connaught laid the foundation stone for the new offices of the Agent General of British Columbia, on Charles St., off Regent Street, yesterday.

He said in his address that the progress already made by the

people of British Columbia was conclusive proof of the greatness of its natural resources. He believed that the Province's natural rate of development would be further assisted by the opening of the Panama Canal which should greatly stimulate trade between the Province and Britain.

#### DUKE OF CONNAUGHT WILL NOT VISIT PRINCE RUPERT ON TRIP

WILL BE COMING WEST IN AUGUST TO SPEND THREE DAYS IN VANCOUVER AND SEVEN DAYS IN VICTORIA

(Special to The Daily News)  
Ottawa, Ont., July 17.—The itinerary of the Duke of Connaught's western tour includes three days in Vancouver, arriving on August 17th; seven days in Victoria, arriving on the 20th; then leaving for Vancouver and the East on the 27th.

There is no indication that he will visit Prince Rupert.

#### CONSTITUTIONALISTS WANT STOP FIGHTING AND PILLAGE

CARRANZA, THEIR LEADER, WILL ENDEAVOR TO NEGOTIATE TO HAVE TROOPS ENTER MEXICO CITY—WAR MAY BE OVER

(Special to The Daily News)  
Monterey, July 17.—Fighting day that it is his object to conduct negotiations to have the Constitutionalists enter Mexico City without further bloodshed or damage to property.

#### AMERICAN YACHT BEATS CANADIAN CHALLENGER

In a Series of Three Days' Racing, Seattle Yacht Club Holds Trophy

(Special to The Daily News)  
Seattle, July 17.—The American yacht Sir Tom, of the Seattle Yacht Club, in a series of three days racing for the trophy presented by Sir Thomas Lipton, defeated the Canadian challenger Turenga, of the Royal Vancouver Yacht Club, by 12 minutes 39 seconds.

The Lucky Number

Ticket number 416 was the winner of the dinner set given away during Wallace's sale. Miss O'Brien, cook at the General Hospital, held the winning ticket. A very large crowd of ticket holders was present at Wallace's when the drawing was made. Mrs. Mobley and Mrs. Hazlett superintended the drawing and little Florence McNeil drew the lucky ticket from the box and was presented with a handsome doll for her services. While many were disappointed in not holding the winning ticket, yet there was universal satisfaction that the dishes should go to so popular an institution as the hospital.

Launch Rosebelle. Phone Red 400.

#### CLOSING UP DEAL WITH MACKENZIE AND MANN

Canadian Government Makes an Important Covenant

(Special to The Daily News)  
Ottawa, July 17.—A feature of the Canadian Northern Railway settlement is a covenant undertaking required of Mackenzie & Mann, personally and jointly, that all outstanding and temporary loans by the C. N. R. or subsidiary companies secured by deposit or security shall be paid out of such deposit or pledged security.

Gets Decision on Foul

London, July 17.—Georges Carpentier was given the decision over Gunboat Smith yesterday in the sixth round on a foul. Carpentier slipped while trying to land a hard right and before he arose Smith struck him in the face. The Frenchman held his head, apparently in great pain, although it seemed as if the blow had hardly grazed him. The crowd hooted Smith, who left the ring a few minutes after the referee had decided Carpentier had won. Smith's seconds protested.
