Fifteen Thousand Weapons Ordered by Government From Ross Plant

Quebec, August 8.—It is known here that the Ross Rifle Company has received orders from the government to supply fifteen thousand rifles. Extra men are being taken on and the number will be increased to 1,000. Great activity is being shown in military circles here and Lieut. Commander Wood is in charge of the naval dispositions. Troops and guns have been despatched down the river and the north channel is obstructed while an examining station for incoming and outgoing ships has been established on the Island of Orleans.

War enthusiasm runs high here and both local English and French volunteer regiments have volunteered for active service.

## INSURANCE RATES OUT DOWN TEN PER CENT

The recent kick made by the insurance agents and business men on the rate of fire insurance in the business sections of this city, has had some beneficial results. The last revised rate sheet received from the B. C. Mainland Fire Underwriters' Association shows an almost general reduction of from ten to fifteen per cent in the business blocks. This is not as much as the small hazard and good fire fighting equipment warrants, but it helps some and the local insurance agents deserve credit for securing it.

Managers Agree to Arbitrate as Result of War

Dan says he is willing to match Neff with any of the lightweights around here and is particularly anxious to get on with Johnny O'Leary. Billy Williams or Sammy Good also look good to Dan and he would like to match Chet with either of them.

Neff got the decision over Burns at Prince Rupert before and expects to repeat it but the "Rough House" one has been alleging robbery ever since the last engagement and declares he will clean Neff sure this time, all of which promises excitement for the natives of the Grand Trunk terminus.
