Paper Sees Silver Lining to Black War Clouds

Vancouver, August 14.—The Seattle Times is not so sorry for the war as it might be; at least it sees a silver lining to the cloud. It says it is going to mean a lot of money in the pockets of Pacific Coast people, and it thus discounts the outlook:—
The Pacific Coast should benefit from the remainder of the summer and the coming winter from the diversion of tourists from the rest of the country.
The unpleasant experiences of several hundred thousand Americans now abroad will deter citizens of this country from going to the Continent, unless they desire to see what modern war is—and share the perils of combatants while they look on. In winter, even should there be a brief duration, there is no incentive to go abroad. To take Europe at least a year and then up its house after peace has been proclaimed.
There will be mourning in the leading country of the Old World. Social events will be eliminated entirely, or so reduced that they will offer no relief to the American, untouched by the titanic struggle.
In a dun atmosphere, with the scars showing too plainly, the people in tears will be altogether and a hostess to either deliver or receive the usual flood of tears.

Under the circumstances, the portion of the tourist tide that naturally gravitate to this coast—the playground of those who desire to see something different from the home scenes, and the next twelvemonth should be an unprecedented travel to the Western Coast from Mexico, Alaska, and particularly to the last-named section of the World.

WAR IN MIDST OF BURSTING SHELLS

Vancouver, August 15.—French aviators are constantly flying over the zone where the German planes are disposed without paying the slightest attention to the bursting shells of the enemy.

FAVORABLE HARBOR IS NOW MINED

Vancouver, August 15.—The mining of the harbor was completed last week and the naval authorities announce that no small ship may enter or leave the port. Large steamers will be allowed to depart until all the mines have been accurately located.

GERMANS HAD PLANNED TO RAID BRUSSELS

Brussels, August 15.—Military authorities here assert that German cavalry divisions were told to make a raid on Brussels, with the object, it is believed, either of leaving war contributions or seizing the treasury. It is argued that they evidently reckoned on not meeting any Belgian resistance.
As evidence that the German plans to traverse Belgian territory were known to well-informed Germans here it is pointed out that a celebrated chateau in Belgium, belonging to a German prince, was emptied six weeks ago of all the silver, works of art and other valuables being sent to Germany.

MONTREAL MILLIONAIRE MAKES MAGNIFICENT OFFER

Ottawa, August 15.—An offer of \$500,000 to be applied for defence purposes in any way that the government deems fit has been received by the Minister of Militia from a prominent Montreal millionaire, whose name is not yet disclosed. The offer has been accepted, and it is said that this splendid donation will be devoted to the purchase of some quick-firing guns, this being considered the chief need of the Canadian forces at the present juncture.

PRICE OF COAL IN PRINCE RUPERT

Dealers Present Detailed Statement Showing Cost of Handling

The following statement of the cost of handling coal in Prince Rupert would indicate that there is not the profit in the business that some would think. The Daily News demanded a few days ago that it was up to the coal dealers to explain the recent rise in price. This action was taken at the request of a large number of the public. It is now up to the public to determine whether in view of conditions the price charged is too much.
