FRENCH AVIATORS DROP BOMBS IN GERMAN FORTRESS

(Special to THE NEWS)

Paris, August 17.—Details of a daring exploit at Metz, carried out by French aviators, is given in an official communication from the War Office. Lieut Cassari and Corporal Prudhome, in separate aeroplanes, left the fortress at Verdun in order to reconnoiter the dirigibles in the German fortress. A terrific fire was directed at the aviators. During the fusillade the Lieutenant's motor stopped. He volplaned until he got his engine restarted and then threw a bomb with marvellous accuracy. The corporal also hurled a similar projectile into the German fort and escaped amid a rain of bullets and shells.

GOLD WAS STOLEN DE FOSSETT ARRESTED

\$4,000 in Amalgam Disappeared
But Was Found Buried Near
Camping Place

A man named De Fossett, charged with stealing \$4,000 in gold amalgam, was brought in on the Princess Alice last evening and will await trial here. De Fossett was one of a party sent out with the box containing the gold from the Thibet Creek mine at Dease Lake up the Skine River. The gold was stolen between the mine and Telegraph Creek and was reported a couple of weeks ago. The theft was made while the party were camping. De Fossett is supposed to have taken the gold out of the box and filled the latter with clay. The gold was buried and the spot marked. The following day, C. H. French, of the Hudson Bay Company, who was one of the party, noticed the box had been tampered with and found the fraud. After reporting the theft a search was made and the gold discovered where it had been buried. De Fossett was suspected and Harry Dodds, the Government Agent arrested him. Some gold nuggets which had been in the box were discovered on him. The prisoner and witnesses were brought down on the Alice. The Thibet Creek mine is owned by Warburton Pike of Victoria, and has been operated for a number of years.

Some said the war is absurd and is opposed in numberless German cities. The prisoners complained that they were badly fed by the German commissary department.

COAL ORDERED REMOVED FROM ALL RUPERT DOCKS

Yesterday an order came from the Commanding Naval Officer at Victoria to have all the coal in the city removed from the docks immediately. The G. T. P. has several thousand tons on their coal dock. Immediately on receiving the order General Superintendent Mehan ordered a train and crew out and loading proceeded all night. The coal will all be taken up the line. The local coal dealers are also all busy getting their coal off the docks. The order scared a few people into believing that the German cruisers were coming in here to steal the coal but the naval department is taking precautionary measures only. With the coal off the docks there is nothing for the cruisers to come here for.

MYSTIC SHRINERS HOLD COMMUNICATION

Many Local Citizens Join Ranks of the Nobles After Crossing Hot Sands of Desert
Gehez Temple of the Mystic Shriners held a communication here Saturday night in St. Andrew's Hall, when the following members were admitted into the fellowship of the order: George Frizzell, Geo. D. Tite, Arthur Smith, A. M. Manson, E. C. La Trace, Mr. McDonald, A. J. Morris, H. F. McIrae, J. Hubert, W. J. McLean and Geo. Barrie. Who has not heard of the great trials of the pilgrim before he is able to reach the beloved mecca of his ambitions? He is compelled to spend many days in crossing the hot sands of the desert and often he is best by wild beasts or worse still by the less humane robbers of the desert. Yet once he has attained to the object of his desires the difficulties of the journey and the biting heat beneath his feet is soon forgotten. In like manner the pilgrims of Saturday night had to prove their worth. The hot sands of the Sahara would pale into insignificance when compared to those of Gehez Temple. The lion in the path, the robber by the way-side and the joker with his fun were all there and everybody was satisfied that they got the worth of their money. The Mystic Shriners is the acme of all secret societies and is very strong throughout the United States and Canada. Among the visiting Shriners were Messrs. W. H. Hanly, Robert J. Hurst, W. H. F. Rixdale and Hon. Thos. Taylor, Minister of Public Works for British Columbia. Sir Richard McBride and Hon. W. J. Bowser are also prominent members of the order.

SACKING ORE AT THE SILVER CUP

G. A. Clothier Reports Work Going On Steadily at His Property

G. A. Clothier arrived in town Monday afternoon from the Nine Mile hill and reports everything going on quite satisfactorily at the Silver Cup, the property he and his associate are working under lease. The staff at present is necessarily small, owing to the accommodations being very limited. They hope to have this remedied shortly to permit of an increase in the force. They are stopping from the No. 2 tunnel and two men are now sacking the ore from this work for shipment during the Fall or early Winter. Ore sacking is going on at the rate of about one ton per day, and they expected to have over one hundred tons sacked when the time arrives for making shipments. Simultaneously with the sacking of ore, No. 2 tunnel is being extended. It is the present intention of the Messrs. Clothier to further this tunnel about forty feet and then upraise to the No. 1. In the work at the mine the Clothier boys are in personal superintendence.—Omineca Herald, Hazelton.
