THE PRIDE OF THE "IRON DUKE"

One of the 12 pounder guns on the flagship of the First Battle Squadron of the British navy. It is on high angle mountings and is used against aeroplanes. Other larger warships in the navy also have this means of safety against aircraft.

GAMBLING IN FOODSTUFFS UNPATRIOTIC UNDERTAKING

CITIZENS WHO ATTEMPT TO "CORNER" SUPPLIES MAY FIND THEIR STORES SPOILED, IF NOT SEIZED LATER ON

Montreal, August 26.—The Imperial Government has accepted with gratitude the proffered contribution of one million bags of Canadian flour, to be transported from Canada and used as the British Governmnet sees fit. Four of the principal milling companies, the Ogilvie Western Canada Flour Mills, Maple Leaf Milling Company and Lake-of-the-Woods Milling Company, will supply the flour. The price that the milling companies have consented to receive is about $2.80 per bag, which would be about the present ruling rate in the market. This one fact may well be taken by any portion of the public which tends to become panicky over future flour prices in Canada as an indication that so far as the present at least is concerned flour in Canada will not sell at fabulous prices. Many people have allowed themselves to foster a foolish misapprehension as to the amount of flour the average household consumes in a given period. It is probable that the ordinary family would find it difficult to consume a barrel of flour within a twelvemonth. When one considers the comparatively very small amount of flour per day that goes into the making of bread and pastry combined for the consumption of one family, it becomes plain that those who store up large amounts of flour at this time will probably see a large part of it spoil on their hands before they can possibly make use of it. The above also applies in large measure to other staples. The large packing houses are warning the public that any great quantity of cured meats will not keep in perfect condition over a long period of time except in cold storage.

A word to those who contemplate speculating in foodstuffs in Canada. Any person who, in cold blood, is at the present time hatching schemse to make profit on the strength of the possible food shortage in Canada as the war progreses is certainly engaged in an unpatriotic undertaking, and he will also probably be reckoning without his host. Even in these early days of the campaign, the whole of Canada is practically under military supervision, if not military rule. The Imperial Government has taken steps to see that no cornering of the food supply is possible there and there is no doubt but that later on the Canadian federal authorities will pass legislation aimed at keeping the prices of staples on a reasonable basis. Any undue supply kept on hand by individuals may possibly be ordered to be distributed, or may even by seized by the authorities. One grain expert in Canada gives it as his opinion that Canadian wheat will more likely reach a lower, than a higher price, at least until there is free and unrestricted transportation once more on the high seas.—Saturday Night

Authentic information about football games, either scheduled or postponed, can be had by calling up Fitz Cigar Store. tf

TEACHER IS DISMISSED FOR KISSING HIS PUPILS

Instructor Says Osculatory Demonstration Was Solely Basis of Friendship

Olympia, Aug. 26.—The State board of education today upheld State Superintendent Josephine C. Preston in revoking the teaching certificate of Charles Milliron of Usk, Pend Oreilel. Milliron was found guilty of unseemly conduct with reference to girl pupils.

Milliron admitted that in former schools and possibly in the present school, he had kissed the little girls, but said it was solely on the basis of friendship.

The board of education also confirmed the revocation of the cetrificate of Joseph Fuss, of Endicott, charged with taking liquor into dry territory.

LIEUT. GORDON INVENTS SAFETY CONNING TOWER

St. Catharines, Aug. 26.—Lieut. G. S. Gordon of the British navy, who completed a model of a submarine in St. Catharines, has sent it to the Naval Office in England where the new invention will be given a practical trial.

The invention consists of a conning tower which can be detached from the main part of the craft in case of disability while under the water, allow the entire crew to take refuge in the tower, and ascend to the surface of the water in safety.

He made a recent trial in Lake Ontario, near Port Dalhousie, at a depth of 250 feet, and the model worked perfectly.

Chance to Make Money

Money is tight and I need it, so here's an offer: Up to August 1st I will supply my regular $25 heating coil fro $15. I guarantee this to boil water in fifteen minutes, and not to affect the oven. Forty now in use and giving entire satisfaction. Ask for references. The reliable plumber, Harry Hanson, P. O. Box 395. Phone 489. 168tf.

The Prince Rupert Towing Co., general towing; the new crude oil tug "P.R.T. No. 1." Phone Red 391 or Black 322. Address: P.O. Box 96. Agency for the "Avance" Crude Oil Motor. 165tf 139-tf.

NOTICE TO THE PUBLIC

Effective Monday, August 10th, Household Coal will be $11 per ton DELIVERED IN SECTIONS 1, 5, 6; $12.00 per ton DELIVERED IN SECTIONS 2, 7, 8. COAL WILL BE SOLD FOR STRICTLY CASH. NO SACKS WILL BE LEFT.
