### "MY HEART BLEEDS," SAYS THE KAISER

Text of His Telegram to President Wilson is Published in London.

London, Sept. 21.—The Daily Mail publishes the text of the telegram to President Wilson as received from its Rotterdam correspondent. It is as follows:  
"I consider it my duty, sir, to inform you, as the most notable representative of the principles of humanity, that after the capture of the French fort at Longwy my troops found in that place thousands of dum-dum bullets which had been manufactured in special works by the French government. Such bullets were found not only on French killed and wounded soldiers and on French prisoners, but also on the English. You know what terrible wounds and awful suffering are caused by these bullets and that their use is strictly forbidden by the generally recognized rules of international warfare.  
"I solemnly protest to you against the way in which this war is being waged by our opponents, whose methods are making it one of the most barbarous in history. Besides the use of these awful weapons, the Belgian government has openly incited the civil population to participate in the fighting, and has for a long time carefully organized their resistance. The cruelties practiced in this guerilla warfare, even by women and priests, toward wounded soldiers and doctors and hospital nurses were such that eventually my general's were compelled to adopt the strongest measures to punish the guilty and frighten the bloodthirsty population from continuing their shameful deeds. Some villages, and even the old town of Louvain, with the exception of its beautiful town hall, had to be destroyed for the protection of my troops. My heart bleeds when I see such measures inevitable, and when I think of the many innocent people who have lost their houses and property as a result of the misdeeds of the guilty. (Signed)  
"WILLIAM I. P."
