JUVENILE BOSTONIANS.

Terpsichore, who had the concession under the feign of Greek mythology, should see "Tango Maid" at the West-end tonight. Perhaps if she would drop the lyre (not the press agent), borrow a gown, and from all reports it is a gown, and take a try at herself. She might find it a different from the classic, and the disposition of the dancers is more confidential, but no doubt she would enjoy it as much as her present day disciples seem to.

TWO MORE CAVALRY REGIMENTS TO BE SENT

Strathcona Horse and Royal Canadian Dragoons to Be Added to Expeditionary Force.

Valcartier Camp, Que., Sept. 25.—The Canadian Government, after communicating with the War Office, has decided to increase the first Canadian expeditionary force by adding two complete cavalry regiments of 575 men and 27 officers each. The regiments to go will be the Strathcona Horse and the Royal Canadian Dragoons. Both regiments are of the permanent force, but at present they number only about 300 men in each regiment. They will be at once recruited up to the full war strength of 602 officers and men. They will be in addition to the two cavalry squadrons already assembled at Valcartier.

The British War Office has intimated that further cavalry troops from Canada will be welcomed, and the men of both regiments here are eager to go. The decision of the Government to send them means that practically the whole of the permanent force in Canada will go abroad, either for service in France or Belgium, or doing temporary garrison duty in Bermuda, as in the case of the Royal Canadian Regiment, which left Halifax some days ago.

SPECIAL RATES FOR COAL WILL BE GIVEN IF CITY HAS BUSINESS

After the Board of Trade conference with Mr. Dalrymple and Mr. Rosevear a committee from the City Council, consisting of the Mayor, Alderman Morrissey and Alderman McLymont presented the case of the city for cheaper rates for coal from Alberta. The present rate is \$5.90, and is prohibitive.

The committee was asked if it was prepared to enter into a contract for coal in case of cheaper rates being granted and replied that they could not since the coal was never sampled. Mr. Rosevear pointed out that they never made special rates unless the party had some definite business to offer. He then offered to transport a car of coal consigned to the city from any mine in Alberta free of charge and if after a test of the coal they wished to do business a special rate would be given.

In all the negotiations the officials showed themselves willing to do everything in their power for the city.

The party is real enthusiastic about Prince Rupert's climate and the progress they find here. It was the first trip across the new country opened up by the railway and they have great confidence in the route, not only as opening up a great country, but also for its scenic beauty, both of which will contribute to making Prince Rupert a city with a great future and a future which should not be very far away. FREIGHT RATES DISCUSSED WITH G. T. P. OFFICIALS HERE

PRESENT RATES TO RUPERT CONSIDERABLY GREATER THAN TO VANCOUVER VIA C. P. R.—COMPANY WILL EQUALIZE RATES TO WINNIPEG AND CONSIDER THOSE TO EDMONTON.

A committee of the Board of Trade, of which W. P. Lynch was chairman, had an interview this morning with Mr. A. E. Rosevear, head of the freight department of the G. T. P., and Mr. J. E. Dalrymple. A formal communication was read, pointing out that the rates of the G. T. P. from Winnipeg and Edmonton were considerably greater than similar rates over the C. P. R. to Vancouver. The C. P. R. rate on flour from Winnipeg is 45 cents per cwt., while the rate over the G. T. P. to Prince Rupert is 61 cents. Butter and eggs from Edmonton to Vancouver via the C. P. R. are \$1.35 per cwt., while to Prince Rupert it is \$1.74. It was pointed out that with these unfavorable rates Prince Rupert could not compete with Vancouver for the north coast trade. It was also shown that the original sale of lots was made under the promise that rates to Prince Rupert would successfully compete with those to Vancouver. In reply, Mr. Rosevear stated that so far class rates from the East were the same as to Van-

couver. It was only commodity rates that were higher and his department had been working steadily for three months in an effort to get them adjusted. As far as the rates to Winnipeg were concerned, he could assure the Board of Trade that the rates would be made the same as to Vancouver. With regard to those from Edmonton, he was not so sure, as the mileage was considerably more than to Vancouver. It was their intention at all times to work for the best interests of Prince Rupert and the matter would be gone thoroughly into.

After a considerable amount of discussion, in which it was pointed out that on the completion of the P. & G. E. they could not possibly get a bigger rate from Edmonton than the C. P. R. is charging and that Prince Rupert should get the same rate now, it was practically admitted that the contention of the Board was correct. It was then announced that Mr. Rosevear would remain over for a few days to adjust all these matters and that a "town" rate for Prince Rupert would go into effect on October 14.
