CITY COUNCIL BRIEFS

The City Council will visit the hydro-electric works at Shawatlans on Friday, leaving the city at 9 a. m. Angle & Co. presented a bill to the Council for \$140 for plans drawn for a city sewer. This was referred to the board of works. The finance committee reported re the application of H. G. Helmland for a sewer in block 31, section 1, that it be granted if the proper number of signatures be secured and some of the property holders buy the bonds. It was felt that the council could not themselves sell the bonds, which would amount to some \$600. The Council decided not to send a representative to the Union of B. C. Municipalities, which meets in Kamloops on Oct. 23rd. It had been pointed out that the municipal clauses act needed some attention and that some one should go and bring it up. The vote was four for and three against and the mayor voted against so that being a tie it was dropped. Financees were the chief objection.

The city building inspector reported on the complaint of Wm. Grant re plumbing bylaw. Mr. Grant contended that the new sewer trap ordered by the bylaw worked a hardship on the trade. The inspector said the bylaw applied to all and while he had allowed the use of stock on hand of the old kind he believed the new bylaw was better and should stand.

MAGYAR GUARDS ARE CUT TO PIECES IN FURIOUS FIGHT

London, Oct. 3.—A despatch to the Telegraph from Petrograd says that on Sunday a spirited account of the destruction of the Hungarian Guard, a cavalry division, in the battle of Grodek, appeared in the Russko Slovo. It follows: "A considerable force of Austrians fell on the advance guard of General Broussiloff, composed of infantry, Cossacks and light artillery. The plan of the enemy was clear; he hoped to shatter our advance guard and then break through our centre. Our infantry and artillery had strongly entrenched themselves and in reserve were several Cossack detachments. "At first the Austrian infantry moved out for the attack. It was met with a deadly fire of cannon and machine guns and wavered and fell back. "Then the cavalry was sent out. The flower of the Austro-Hungarian army, the Budapest Guard division, formed of Magyars, bright jacketed Hungarians, galloped furiously down in close order. It appeared as if nothing could arrest their impetuous course, not even the awful shrapnel fire of the artillery, which brought death and destruction to their ranks, nor even the rain of bullets from machine guns. "The Magyars did not hesitate for a moment, but continued to charge at our trenches. One more minute and it seemed as if nothing could be left of our infantry. "All at once the thud of hoofs and the clatter of steel were heard and the Magyars were met by a whirlwind of Cossacks. For two hours the Austrian and Russian infantry watched with beating hearts the scene of terrible carnage. "At the end of this time of the fine Budapest Guard division not one man was left and the whole field was strewn with the enemy's corpses, severed heads, hands and legs and dead horses. "The commander of the division, General Frohreich, could not stand the disgrace of defeat and shot himself on the battlefield. As was afterward explained he had promised to bring to the Austrian Emperor, on the latter's birthday, news of the complete destruction of the Russian army. By throwing his division upon the Russians the Austrian general was fully convinced that next day he would be able to announce to the Emperor the promised victory. "Before the battle the Magyars were ordered to don their parade uniforms."

Business Man (to applicant for situation)—"Can you write shorthand?" Applicant—"Yes, sir." Business Man—"How many words a minute?" Applicant—"I've never counted, but the day my wife found in my pockets some letters I'd forgotten to post for her, I took down every word she uttered as fast as she said them." Business Man—"You'll do."

BELGIAN IMMIGRANTS FOR NORTHERN B. C.

Large Colonization Schemes Being Worked Out to Settle European Soldiers in This District. Many are the speculations as to the result of immigration from that part of Europe which is now the centre of the war. It is certain that a great majority of the population in those countries will have to face the task of starting all over again, as their homes and farms will be wiped out by the devastation of the war. That the colonization companies of Canada are alive to this opportunity is borne out by the fact that several agents are now busy in the European countries telling of the possibilities of this province. C. E. Jenney, general agent in the passenger department of the Grand Trunk Pacific, with headquarters at Vancouver, has received word that Charles Paget, whom the railway company sent to Rotterdam to spread the gospel of Northern British Columbia, has arrived at his destination and was busy with the work of inducing Holland and Belgium immigration to this district. These people are known to be good farmers and very thrifty people, and will be a great factor in opening up the agricultural possibilities of this section of the province. Mr. Jenney says that Mr. Paget is working on a scheme to settle a large tract in the Stuart River district with Belgian soldiers and their families, and that he is meeting with success. He expects that after the war is over a large colony will be placed on the land here, as well as in many other valleys along the line of the Grand Trunk Pacific in Northern British Columbia.
