CANADIAN TRADE SHOWS BIG GAIN IN SPITE OF WAR

Aggregate of \$100,137,000 Is Reached—Last Year Was Only \$97,832,000.

Ottawa, Oct. 8.—For the month of August, which was the first month of the European war, the total Canadian trade reached an aggregate of \$100,137,000, corresponding month of 1913. This is the outstanding feature of the trade statement issued by Hon. J. D. Reid, minister of customs. While there has been a falling off in the imports, exports show a healthy condition exists in the trade of the Dominion.

During August last Canada exported \$8,780,000 worth of animals and their produce, as against \$4,817,000 for August, 1913. For the five months of the present fiscal year ending August 31 last, the total exports under this head were \$26,063,000, against \$17,190,000 for the corresponding five months of the previous year. There is also an increase in the value of manufactured articles exported. For August last these amounted to \$5,049,000, against \$4,911,000 for August, 1913.

For the five months the exports of manufactured articles were \$26,728,000, compared with \$20,963,000 for the corresponding period of 1913.

Coin in bullion imported into Canada during August reached to the total of \$14,452,000, against \$572,000 for August, 1913. During August \$7,425,000 worth of domestic agricultural products were exported and \$19,924,000 worth of foreign agricultural products were imported.

LEFFINGWELL BRINGS NEWS OF STEFANSSON

When Ice Broke Up About the Karluk, Captain and Crew Abandoned Her.

San Francisco, Oct. 5.—After a year in the Arctic, where he completed charting the North Alaskan coast, E. De K. Leffingwell of Pasadena, Cal., returned to San Francisco today on the whaler Jeanette.

Mr. Leffingwell journeyed north on the Mary Sachs, one of Stefansson's vessels, and returned with the word that two ships of the Canadian expedition which were frozen last winter near Flaxman Island, thirty-five miles from Leffingwell's headquarters made their way to sea in July and now are on their way to Dominion waters.

Speaking of a visit from Stefansson, Mr. Leffingwell said today: "Early in December I was surprised on answering a knock at my door to see Stefansson stride into my cabin. I had supposed him to be hundreds of miles distant."

"He and several of his party were encamped at Collinson Point and later they sent a dog team to my camp and took me to their headquarters for Christmas. We exchanged several visits after that."

"When the ice broke up about the Karluk, Stefansson's ship, her seams were found open, and she was abandoned, the explorer and his party embarking on one of the other vessels."

Leffingwell says that he believes that land to the north of Canada for which the Stefansson party is searching exists and soon will be discovered.

DESTROY GERMANS BY AMBUCADE

London, Oct. 7.—"The French, taking a leaf out of the German book, are adopting the ambuscade methods used so successfully by the Germans during the early stages of the war," says Reuter's Paris correspondent.

"When the approach of two German divisions was reported between the Oise and the Somme rivers, French dragoons advanced to meet them, occupying a village. After exchanging a few shots the dragoons retired, drawing the Germans after them as far as a forest, where a heavy force of French infantry had been posted, supported by light artillery."

"When the Germans were drawn into range by the pretended retirement of the dragoons, the French batteries opened and the German columns in panic threw down their arms and fled. In this action the French took 800 prisoners."

GERMAN BRUTALITY WREAKED ON NURSE SAVING A BELGIAN

Vancouver, Oct. 8.—In a letter received from relatives in England by Mrs. J. B. Brooks of New Westminster a pathetic incident is related. The letter states that a few weeks ago Mrs. Brooks' brother, A. Gooderich, who is a private in the King's Own Regiment, was invalided home, and while crossing the English Channel got into conversation with a nurse who had both arms cut off, and who was on her way home. Although suffering intense agony, the young woman was quite rational and recounted with great clearness and wealth of detail how she had lost her arms in trying to protect a wounded Belgian from the attack of German soldiers. When the Germans saw that she was determined to protect the life of her patient they seized her and with brutal force severed her arms at the elbow. She died before reaching England, states the letter.

PRECAUTION FOR TROOPS.

Sir Wm. Osler, by desire of the authorities, has issued a bulletin to troops urging the taking of sanitary precautions. He states: "It was formerly said that an army marched on its belly; now it is marched on brains. Bullets are less fatal in war than bacilli. Where one slew a thousand the other slew tens of thousands. Twenty-two thousand lives were lost in the Boer war. Of these 1,800 were by bullets and 14,000 by bacilli. I appeal to each individual soldier to use intelligent co-operation to combat this more deadly enemy. Dysentery, pneumonia and enteric were the three great scourges."

"Only by boiling all water can dysentery be prevented. To stave off pneumonia don't neglect coughs and colds. The most fatal enemy, however, is enteric or typhoid fever. Enteric killed more British soldiers than Boer bullets. It is urged that vaccination against typhoid be carried out."

"What a cheerful woman Mrs. Smiley is."

"Isn't she? Why, do you know that would can have a good time thinking what a good time she would have if she were having it."—Boston Transcript.

TWO FEET OF SNOW IN SOUTH ALBERTA

Heaviest Storm Ever Experienced in Macleod District at This Time of Year.

Macleod, Alta., Oct. 7.—The heaviest snow storm ever experienced in this district at this time of the year is in progress and over two feet of snow has already fallen. Many of the electric light and local telephone wires are down and telephonic communication with outside points is at a complete standstill. A high wind has drifted the snow to a depth of many feet and all roads outside the town are impassable, completely isolating the ranches. In the Poreupine Hills the fall is even heavier and a rapid thaw will raise the Old Man River to an unusual height.

"Tell me, old man," said the perennial seeker after knowledge, "why is your hair is grey and your beard brown?"

"Easily," answered the facetious old man. "My hair is twenty years older than my beard."—London Opinion.
