 Southwest of Berry ou Bac the Germans took two trenches and retained them notwithstanding fierce counter attacks.
 French attacks northeast of Arras and south of St. Mihiel were repulsed.

"AGRICULTURE IN THE NORTH" SUBJECT OF GOOD ADDRESS

GIVEN BY MR. A. H. TOMLINSON DEPARTMENT OF AGRICULTURE, AT BOARD OF TRADE LUNCHEON ABOARD THE PRINCE GEORGE YESTERDAY.

This is a most interesting subject to citizens of Prince Rupert and Northern British Columbia. The cry of "back to the land" has been heard for some time but there has been no incentive, except in minor cases, to create a real desire in the majority of present day people for working on the land themselves. With the prevailing crises there is not only an incentive, but people are obliged to consider the question of following in the footsteps of our forefathers and so take up land and farm. The cost of living has been and is still too high. One of the chief causes in Canada is the fact that so much of our land has been idle and thus we are importing agricultural produce from other countries. We can realize the meaning of this when it is said that products from other countries equal to our own are being sold in Prince Rupert cheaper than home products. This shows that some of us must learn to raise our own produce to some extent so as to do without outside importations, thus saving the unnecessary importation and expense to ourselves. In this city this may be done as well as on the northern mainland. Various town lots now idle must, in a short space of time, be turned into profit by way of raising vegetables, etc.

BELIEVED DEAD NUN WAS RESTORED TO LIFE

Naples, Jan. 21.—In the Church of the Divine Providence, sisters were praying around the bier of a dead nun, when the first tremor of the earthquake caused one of her arms to move. The sisters at first cried out that a miracle of resuscitation had taken place, but simultaneously the candlesticks and crucifixes in the chapel began falling. Then they realized what was happening and rushed terror-stricken to the street. Great crowds also fled into the thoroughfares. They formed into processions, reciting the Litany of Saints. Many of the people in their excitement declared that the earthquake was a punishment for the sins of men who are fighting against their brothers in the European war.

GREAT BRITAIN WANTS THE BELGIAN ARTISANS

Holland Criticizes Former for Taking Useful and Leaving the Helpless.

The Hague, Jan. 21.—The British government is advertising in the Belgian refugee camps and elsewhere by means of circulars for artisans in certain trades. Iron, steel and brass workers, gunsmiths, rope makers, leather workers, hosiery makers, instrument makers, glass workers and many others are called out. The circular points out that only those named are likely to find employment in Great Britain. Proof of efficiency is demanded from applicants. The circular states that those who are accepted will be given a free voyage to England and will be furnished free board until employment is found. Persons affected with contagious or infectious diseases need not apply.

The action of the British Government Commission in taking away the fit refugees and leaving the unfit to burden Holland is criticized adversely in many quarters. It is argued that Holland has been willing to offer asylum to the Belgian refugees, and does not deserve the attitude shown.
